Vegetable Seed Trials

Greetings - - - 1930-1931

THIS catalogue is being published and sent out as usual about April-May and is good but for minor alterations up to the same time in the following year. For several years past, however, we have also posted out an Autumn List in January which serves, not only as a reminder for seeds to be sown for the winter garden, but gives the opportunity of drawing attention to any changes necessary in the General Catalogue.

The greatest change this year has been caused by the alteration of Postal Rates. This has been a great increase to all places except those within a 30 miles radius of Dundas. As we prepay postage on vegetable seeds at prices quoted in our catalogue, except in bulk lots of peas, beans and sweet corn, the complicated postal rates need not worry clients.

Where there is any doubt as to the cost of an order, and a remittance is not enclosed we can save all bother by sending C.O.D. This system has proved a great boon not only to customers, but has reduced our book-keeping costs considerably and saved us from considerable loss.

As the cost annually of our Catalogues is not far short of £1000, we would ask our customers to make them as effective as possible by hanging them up where they may be referred to through the year and recommending our seeds to their friends and neighbours.

HERBERT J. RUMSEY & SONS LTD.

Cultivation Hints

In additions to many leaflets we have had printed and send free with orders, our Mr. Rumsey has written a number of books on gardening matters and these are sold at popular prices. The list will be found in this catalogue. No vegetable grower for pleasure or profit should be without the A.B.C. of Australian Vegetable growing, and every flower lover should have "The Garden Fair."

CONDITIONS OF SALE.—We believe that all Seeds, Bulbs, and Roots sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this, we give no undertaking that such Seeds, Bulbs or Roots will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, express or implied, as to their growth, description, quality or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us.

Vegetable Seeds

Varieties with ☉ are those we specially recommend.

ALL SEEDS ARE POST PAID AT PRICES QUOTED

Artichoke

Large Green Globe

Pkt., 6d.; $\frac{1}{2}$ oz., 3/6; oz., 6/.

Asparagus

Mary Washington

A new asparagus that has proved to be nearly rust free.

Pkt., 6d.; oz., 2/; $\frac{1}{4}$ lb., 6/.

Conovers Colossal

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 3/.

Long and Half Long Beet

Long beet require deep soils, cool climate and autumn planting.

Long Smooth Blood Red—☉

Largest, and best cropper for deep soils. Roots 12 inches, very dark flesh.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 1/9; lb., 5/6.

Half Long Blood—☉

Of much better quality than the flat or turnip beets. The roots grow to a length of about 8 inches in suitable soil.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 6/.

Obelisk

The colour and flavor of this beet leave nothing to be desired and the shape makes it particularly fine for slicing.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/6; lb., 7/6.

Silver or Spinach Beet

Silver beet, from its continuous cropping habit, has taken the place of spinach.

Lucullus—☉

Large ruffled leaves, broad mid-rib.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 6/.

Fordhook Giant

The rich blue-green leaves are very crinkled and grow up to 10 inches in width and $2\frac{1}{2}$ feet in height. The leaves are thick and fleshy and cook well. The stems are pearly white, $2\frac{1}{2}$ inches wide, thick and succulent.

Pkt., 6d.; oz., 1/6; $\frac{1}{4}$ lb., 4/6; lb., 12/6.

Dark Green Broad Rib

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 5/6.

Turnip Rooted Beet

Turnip-rooted beet may be sown in rows or transplanted almost any month of the year.

Columbia—☉

A fine early main-crop beet, turnip-rooted, smooth and free from all rootlets.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/6; lb., 7/6.

Crimson Globe

Sweet and tender.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 1/9; lb., 5/6.

Improved Detroit Dark Red (New)

A pure line strain of this remarkable market variety. Fine dark colour.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 6/.

Egyptian Turnip-rooted

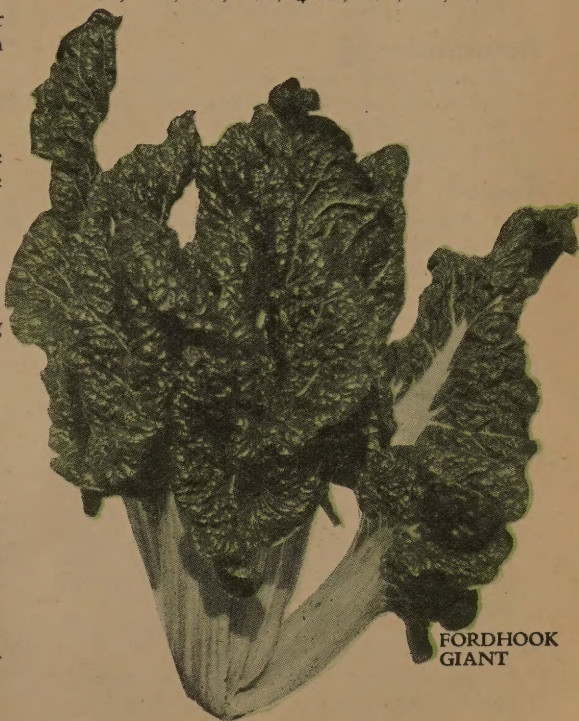

Good early, flat roots.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 6/.

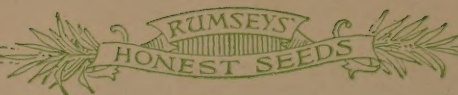

Eclipse

Early Globe shaped, small top.

Pkt., 6d.; oz., 1/; $\frac{1}{4}$ lb., 2/; lb., 6/.

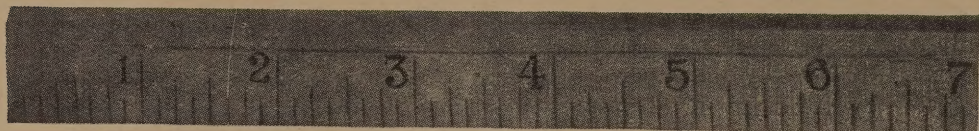

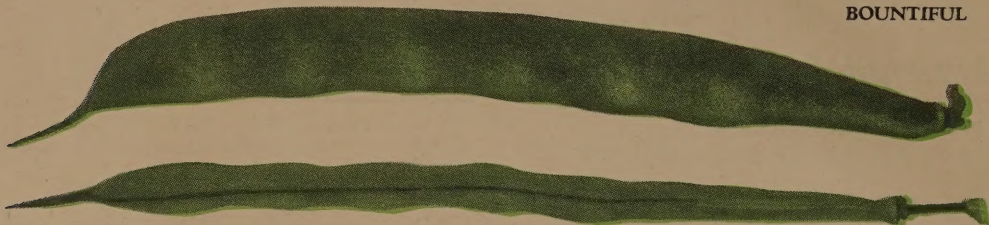

FORDHOOK
GIANT

Beans

The prices of Beans is for postage paid in N.S.W. The higher rate of postage to the other States makes it necessary to add 6d. per lb. to Interstate Orders for 1lb. or over

BOUNTIFUL

Bush French Beans

Burpee's Stringless Green Pod—

Tender, straight, fleshy pods, two weeks earlier than Canadians. The best home garden dwarf french.

Pkt., 9d.; $\frac{1}{2}$ lb., 1/6; lb., 2/9.

Canadian Wonder

Best market bean, very hardy.

Pkt., 9d.; $\frac{1}{2}$ lb., 1/6; lb., 2/6.

Bountiful—

A very good early bean. Pods brittle and stringless. One of the best allround beans in cultivation.

Pkt., 9d.; $\frac{1}{2}$ lb., 1/6; lb., 2/6.

Tweed Wonder

A disease resistant variety of Canadian Wonder, introduced by the Department of Agriculture.

Pkt., 9d.; $\frac{1}{2}$ lb., 1/9; lb., 3/. Stock limited.

Bush Butter Beans

Pkt., 9d.; $\frac{1}{2}$ lb., 1/9; lb., 3/.

Brittle Wax

The best of all the wax or butter beans, of typical bush growth, with rich green leaves. Beans round and fleshy, stringless and tender. The beans retain their yellow colour when cooked, and are of super-fine flavour.

Startler Wax

Crops heavily, bearing large, round, fleshy, stringless beans of fine flavour.

Climbing Butter or Wax

Golden Cluster—

Stringless, seeds white. Sweet, tasty, and brittle, climbs well, is hardy, vigorous and very productive. Pods $6\frac{1}{2}$ to $7\frac{1}{2}$ inches in length, perfectly straight and flat.

Pkt., 9d.; $\frac{1}{2}$ lb., 1/9; lb., 3/.

Climbing French Beans

Pkt., 9d.; $\frac{1}{2}$ lb., 1/6; lb., 2/6 post free.

Rumsey's Giant Round Pod—

Known also as Kentucky Wonder. Free-growing, prolific, deliciously flavoured, and tender.

Epicure—

A flat bean, enormous cropper, and delicious cooked.

Climbing Stringless Green-pod—

Uniformly straight pods, 6 to 8 inches in length, rich green, and very meaty, entirely stringless and of good quality. The white beans are fine for winter use. Sometimes called White Seeded Kentucky Wonder, which is nearer to correct than White Seeded Epicure, another local name.

Scarlet Runner

Bears enormous pods, 12 to 18 inches long.

Yard Long or Snake

Fleshy Beans 18 to 20 inches long.

Pkt., 6d.; $\frac{1}{4}$ lb., 2/6; lb., 7/6.

Bush Lima Beans

Fordhook Bush—

Pkt., 9d.; lb., 3/.

Beans are rather thicker and larger than any other sort; great croppers.

Climbing Lima Bean

Burpees Giant Podded—

Pkt., 9d.; lb., 3/.

Early, prolific, handsome, of delicious flavour.

Perennial Climbing Bean

Tongan Bean

Pkt., 6d.

Black seeds; runs 20 to 30 feet, broad, tender pods, stringless.

It should be understood that these beans are perennial only in a mild climate, such as the N.S.W. coastal districts.

Broad Beans

Sow Broad Beans in autumn and early winter.

Pkt., 9d.; lb., 2/3.

Early Long Pod

Best early.

Edible Podded

This is a very useful variety of broad bean, the pod being free of the fibrous cartilage, is tender and of good flavour.

Broad Windsor

Good cropper.

Leviathan Long Pod—

Large pods.

Borecole or Kale

Pkt., 6d.; oz., 1/-; ¼lb., 3/.

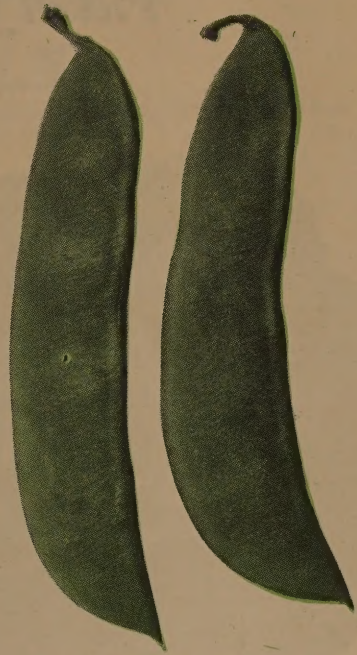

In this country where cabbages grow so freely in winter and spring the borecoles, kale and spinach are not much in demand for culinary use.

Thousand-Headed

Winter cattle feed.

Marrow Stem (Chou Mollier)

Used for poultry greens.

BUSH LIMA BEAN

New Broccoli

Perennial Nine Star

This is one of the greatest novelties for the vegetable garden that has been introduced for many a day. Plants put out from autumn to spring, will stool out and produce from five to a dozen small cauliflower-like heads that are most delicious. As the plant is perennial, crop after crop comes along giving a perpetual supply of vegetables after every rain or by regulating the water supply the succession of heads may be controlled.

Pkts., 1/-, 2/6, 5/-; ½-oz., 20/.

Broccoli

Pkt., 6d.; oz., 2/-; ¼lb., 6/-; lb., 17/6.
A cold climate winter cauliflower.

Early White

Nearly like cauliflower.

Late White

Extra fine white heads.

(See also Cauliflowers)

Brussels Sprouts

Pkt., 6d.; oz., 2/-; ¼lb., 6/.

Kelway's Prolific

A fine vegetable for the cooler districts. Sow seed in early autumn or late summer.

BEST PUMPKIN SEED

Extract of letter received from Mr. Geo. Figgins, Wagga, 6/1/30

Please forward the following pumpkin seed. That is if they are same stock as we got a few months ago, as they are the best we ever had, all true to name and splendid croppers and fully three weeks ahead of anyone else here.

Early Cabbage

Allhead Early

The earliest large market cabbage. For 25 years our sales of this variety of cabbage seed have increased year by year, until they have at last eclipsed the popular Succession cabbage. The large heads of All-head Early, grow very quickly, and form compact cabbages, free from spreading leaves.

The deep flat heads are very solid and it has proved to be one of the very best to grow for market.

Seed can be sown both in autumn and spring, in fact, at almost any time of the year. It stands the heat of early summer much better than any other variety, unless it is World-beater, which is a larger, coarser cabbage.

ALLHEAD EARLY

Queensland growers have realised £150 per acre from this variety.

St. John's Day Large

A popular home garden sort.

Pkt., 6d.; oz., 1/3; ¼-lb., 4/3; lb., 10/6.

Copenhagen Market

About 12 years ago we first introduced this cabbage into Australia as a very early large solid cabbage of fine quality. It rapidly obtained a place amongst growers who wanted a quick maturing product for marketing. It grows up to 8-lb. in weight and we have matured it as quickly as Jersey Wakefield. Pkt., 6d.; oz., 3/6; ¼-lb., 8/6; lb., 25/6.

Langport Market

A very fine, English type of Early Drumhead. Bearing enormous heads on very short stems.

Pkt., 6d.; oz., 3/6; ¼-lb., 9/6.

Early Flat Dutch

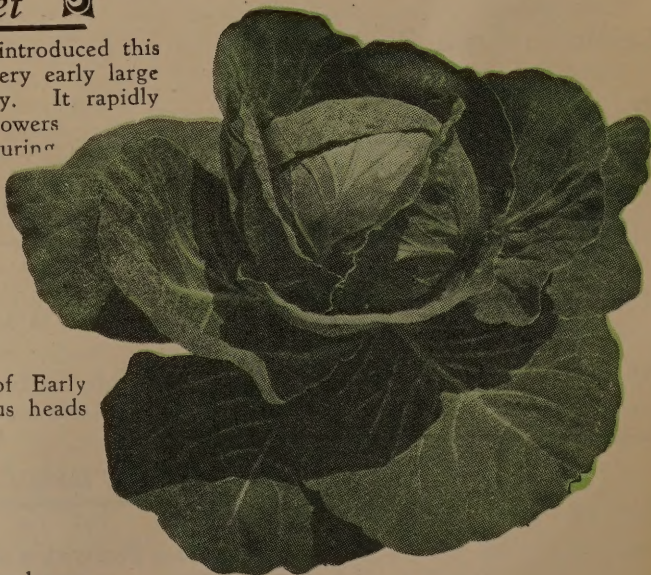

This is a popular market gardeners cabbage.

Pkt., 6d.; oz., 2/6; ¼-lb., 6/6; lb., 17/6

Prices for All-head Early.

American grown 6d. per pkt., 2/- per oz., 6/6 per ¼-lb., 20/- per lb.

Danish grown, 6d. pkt., 2/- per oz., 6/6 per ¼-lb., 20/- per lb.

COPENHAGEN MARKET

More Cabbages

Surehead ☐

SUREHEAD

This is another very popular market and home cabbage. We have grown it up to 18lb. in weight, and the quality is good. Having so few outer leaves, it can be grown closely where the soil is rich enough, and will give a very great weight of cabbages per acre. Large round flattened, extra firm. Keeps well.

Price: Pkt. 6d., oz. 2/-, ¼-lb. 6/6, lb. 20/-.

Early Jersey Wakefield—☐

The best and sweetest small early cabbage for home use.
Pkt., 6d.; oz., 1/6.

Short-Stem Drumhead—☐

A fine large cabbage. Grows close to the ground, and makes very heavy heads. A good autumn cabbage. This cabbage is also sold under the name of Early Drum-head.

Pkt., 6d.; oz., 2/-; ¼-lb., 6/-; lb., 17/6.

World-Beater or Autumn King

Very large, stands late summer heat, and matures early winter.

Pkt., 6d.; oz., 2/6; ¼-lb., 7/6.

Hundredweight Drumhead

Very large hardy, fair quality.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/3.

Danish Roundhead

A solid, keeping-cabbage of fine quality for cold climates; hearts beautifully white.
Pkt., 6.; oz., 3/6.

Danish Ballhead

About two weeks longer in maturing than roundhead, of the same type, but larger.
Pkt., 6d.; oz., 4/-.

Succession ☐

In spite of all the new cabbages introduced during the last twenty years, the sales of Succession, or Henderson's Succession as it is sometimes called, have increased from year to year.

Most market growers include Succession as one of their varieties, as it is one of the most dependable to head and makes very uniform heads. We take the greatest care to have the best strains of seed obtainable, and as a rule have found no difference in quality between the best strains of European and American seed, and we stock nothing but the best. In ordering, customers should state if they prefer American or Danish seed.

SUCCESSION

American grown: 6d. per pkt., 2/- per oz., 6/6 per ¼-lb., 20/- per lb. Danish grown: 6d. per pkt., 2/- per oz., 6/6 per ¼-lb., 20/- per lb.

PE TSAI

Chinese Cabbage

The Chinese or Celery Cabbage is coming largely into use in Australia. Its first requirement is either a cool climate or cool season. For that reason seed should be sown about February or March. In the mountains and cooler districts the seed may be sown again under shelter about July.

The plants develop quickly, forming large, tightly folded heads of tender leaves, beautifully blanched in the heart. Chinese cabbage is used sliced raw as a salad like lettuce, or is delicious when boiled.

Pe Tsai—

The variety best known to Europeans, with large leaves of a light green colour, tender stalks and heart. It makes larger and narrower heads than Wong Bok, and matures a few days later. Pkt., 6d.; oz., 4/6.

Wong Bok

A new variety of Chinese cabbage with broader and shorter heads than Pe Tsai. The leaves are tightly folded and well blanched, the ribs juicy and agreeably pungent.

Pkt., 6d.; oz., 2/6; ¼-lb., 9/-; lb., 17/6.

Red Cabbage

Mammoth Rock Red—

Solid, dark red heads, good for pickles, or for cooking.

Pkt., 6d.; oz., 5/-; ¼-lb., 15/-; lb., 45/-.

Savoy Cabbage

Perfection Savoy

Good for winter growth in the cold districts; much improved by good frosts after maturing.

Pkt., 6d.; oz., 1/3; ¼-lb., 3/9; lb., 10/6.

Sweet Corn

Pkt., 9d.; ¼-lb., 1/9; lb., 3/-. Add 6d. lb. for postage on Interstate orders.

Every garden should have a row of this delicious vegetable. Sown every two weeks in spring and early summer.

"The Burpee" (New)

Rich and sweet heavy cropper larger and earlier than our famous Golden Bantam.

Pkt., 6d.; ¼-lb., 2/-.

Golden Bantam—

Early, delicious flavoured; prolific; ripe seed is golden yellow.

Stowell's Evergreen

Grain and cob white.

Country Gentleman

Large handsome ears.

Pop Corn

White Rice—

A most prolific variety, bearing 3 or 4 little ears to a stalk. The grains are pearly white, pointed, and not unlike rice grains in shape.

Pkt., 6d.; ¼-lb., 1/-; lb., 3/-. Add 6d. lb. to Interstate orders.

Queen's Golden

The stalks grow to a height of 6 feet with a number of large ears. Pops perfectly white.

Pkt., 6d.; ¼-lb., 1/6.

Endive

Green Curled

When well blanched, makes an improvement on lettuce.

Pkt., 6d.

Table Carrots

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/3; lb., 6/6

Sow carrot seed in both spring and autumn and sow plenty, as the carrot is a wonderfully fine food plant.

Early Shorthorn

A fine variety for quick growth and for shallow soils, roots up to three inches in length and $1\frac{1}{2}$ inches in diameter, of a rich deep orange colour and sweet flavour.

Chantenay or Model

A fine half long table carrot, up to 6 inches in length, tapering from about $2\frac{1}{2}$ inches at the top to a stump root.

Early Nantes—

This is the most popular of all the carrots on our list. It is a handsome half-long variety, with a stump root and a fine tap-root. The roots average about six inches in length, and $1\frac{1}{2}$ inches in thickness. The colour is bright orange outside and a rich orange-red in the centre.

James' Scarlet Intermediate—

Has a long pointed well coloured root with stout neck, productive and a good market variety.

Celery

Golden Phenomenal (New)

Heavy, compact and full-hearted; intermediate height. A top price market variety.

Pkt., 1/-; $\frac{1}{2}$ oz., 5/-; oz., 9/-.

White Plume—

The earliest and most easily blanched of the celeries, of delicious nutty flavour. Pkt., 6d.; oz., 2/-; $\frac{1}{4}$ lb., 5/6.

Fordhook—

A new hardy variety of outstanding merit. Of dwarf type, the stalks smooth and very thick. The colour snow-white, the heart tinged with yellow. Flavour, nutty and crisp.

Pkt., 6d.; $\frac{1}{2}$ oz., 3/6; oz., 6/6.

(See Illustration)

Golden Self-branching

Attractive waxy golden colour; large nutty and crisp.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 7/6.

Celeriac

Turnip rooted, used for soups.

Pkt., 6d.; oz., 2/6.

Soup Celery

Non germinating. For flavouring only.

$\frac{1}{4}$ lb., 1/6.

St. Valery—

An intermediate carrot with long tapered roots, quite smooth and regular in growth. Two to three inches in diameter at the top and to 10 inches in length. The flesh is a deep rich orange-red, with a soft centre of rich orange-yellow.

Coreless Long Red—

A stump-rooted carrot much longer than Early Nantes, but equally symmetrical. The flesh is fine coloured, very melting and sweet, an extra fine home garden variety.

White Intermediate

Best white carrot for table use, good flavor.

Manchester Table

A good half-long medium sized variety of extra fine quality for the home garden.

Red Cored Chantenay

A new carrot of extra fine quality of rich orange colour, with core almost the same colour as the flesh and of equal quality, stump rooted, uniform and delicious.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/3; lb., 10/-.

FORDHOOK

Burpee's Best Early Cauliflower

A Fine Early Quick Growing Variety

Is a splendid variety both for market and the home garden. It is a $3\frac{1}{2}$ month cauliflower, head. It is a sure header and in good soil and sowings should be made in time to plant out not later than March or April August in the mountain and in the coastal districts, and cooler parts. The plants are of strong growth with upright pointed

grows to 8 or 10 inches in diameter. The compact curd is snowy white making the heads most attractive. Our

illustration, from a photograph, is a good representation of what may

be expected from this variety. Seed sown in March and April will mature in the warmer parts, and July and August seed will produce heads in the mountains and cooler parts.

Prices:—Pkts., 1/- and 2/6; $\frac{1}{2}$ -oz., 6/6; oz., 12/6.

Dry Weather Cauliflower—☉

This variety produces large pure white solid heads about a week later than the extra early varieties, such as Best Early. Its drought resisting qualities make it a very fine variety for Australian conditions, and many gardeners who do not as a rule succeed with cauliflowers will find it something worth while.

Pkt., 1/-; $\frac{1}{2}$ -oz., 6/6; oz., 12/6.

Early Greenleaf (or Green Glazed)

This cauliflower is quite distinct, having dark green leaves with a shiny surface. It is sometimes called "aphis proof" from its resistance to those pests. The heads are very fine, and of fair size, maturing in about 4 months. The stock of this cauliflower is again very short.

Pkt., 1/-; $\frac{1}{2}$ -oz., 8/-; oz., 15/-.
Eight

Early Cauliflowers

Cauliflower seeds should be sown from December to March in the warmer parts and January, February, August and September in the cooler districts. Manure heavily before planting out; irrigate well or apply water before they get too dry.

Boronia Giant—

This is one of the Broccoli-Cauliflower crossbreds that has proved so suitable for the coastal districts and warmer parts of N.S.W. The Chinese gardeners for many years held a monopoly of the seed and each grew his own supply and only sufficient for his own needs. We have, however, after a long series of experiments, succeeded in growing limited supplies for our customers.

Boronia Giant, planted out about the end of January or early February, will produce large snow-white heads about June, and in suitable localities, later planting will give equal results in 4 to 4½ months from planting out.

Pkt., 1/-; ½-oz., 6/6; oz., 12/6.

White Queen or Early Erfurt—

A very early dwarf; reliable header.

Pkt., 6d.; ½-oz., 5/6; oz., 10/-; ¼-lb., 30/-

Early London

Very hardy, quick growing under suitable conditions.

Pkt., 6d.; oz., 5/-; ¼-lb., 15/-.

The Latest in Gardening Aids

MULCHING PAPER:—This has proved a great success with some crops; it helps the gardener to get good results from small rainfall. See page 71.

SKINNER SYSTEM:—Most of our customers are well acquainted with this system. It has made all the difference between success and failure, profit and loss with many gardeners. See pages 72 to 75.

FLEXO-GLASS:—Our wonderful Australian winters are, in many places, almost mild enough for tender plants. A slight protection is sufficient for growth all the winter, and as the protection from insects generally means freedom from disease, good results are obtained. See page 69.

HOT KAPS:—Small paper covers that make miniature shelters for tender plants in spring. See page 69.

The Wonderful—

A good early cauliflower, with a fine white, broad solid head. Remarkable for even growth and productiveness.

Pkt., 6.; oz., 2/6; ¼-lb., 7/6.

Mid-Season Cauliflower

Gilt Edge

Handsome variety, large size; stands well.

Pkt., 6.; oz., 2/6; ¼-lb., 7/6.

Late Cauliflowers

Veitch's Autumn Giant—

The standard main crop cauliflower takes about 5 months to mature; our strain is noted for its reliability.

Pkt., 6d.; ½-oz., 2/9; oz., 5/-; ¼-lb., 15/-

Late Metropole

A very late, large and very white cauliflower; vigorous and hardy. The head is well protected by the inner leaves. The heads grow to 18 or 20lb. in weight. It takes about 7 months to mature after planting out.

Pkt., 6d.; oz., 3/6.

No grower of cabbages or cauliflowers who has water available can afford to overlook the Skinner System of Irrigation.

Cress Pkt., 6d.

Triple Curled, or Land Cress

This is used as a salad with mustard

Water

Grows well in running water.

Egg Plant Pkt., 6d.; oz., 3/.

New York Improved Large

Purple—

A fine large variety.

Burpee's Black Beauty

Rich purplish black.

White Chinese

A fine white variety.

Leek

Musselburgh—

A well-known, good, and hardy sort.

Pkt., 6d.; oz., 1/; ¼-lb., 3/; lb., 10/.

Kelway's Prodigy

A favorite for market gardens as well as home use.

Pkt., 6d.; oz., 3/; ¼-lb., 9/.

London Flag

A very popular variety.

Pkt., 6d.; oz., 1/; ¼-lb., 3/; lb., 10/.

Kohl-Rabi

Pkt., 6d.; oz., 1/; ¼-lb., 2/6.

Large Purple

A fine, tender variety.

Early White Short Top

A very select extra early strain. Excellent flavour distinctly sweet.

Herbs Pkt., 6d.

Parsley

Extra dark moss curled. Oz., 1/.

Sage

Best broad leaved. Oz., 1/.

Thyme

Best green leaved. Oz., 4/.

Marjoram

Sweet. Oz., 1/.

Thyme, Sage and Majoram,

Mixed

Pkt., 6d.; oz., 1/.

Other Herbs

The following can be supplied in 6d. packets only—Anise, Balm, Basil, Borage, caraway, Chervil, Coriander, Dill, Hysop, Lavender, Rue and Savory.

Plants of Thyme, Parsley, Sage, Marjoram and Mint, 6d. each, post paid.

Cucumber

Early Fortune

Said to be the finest type of the well known white spine varieties. Early, disease resistant, and immensely productive. Fruits grow up to 9 inches in length, and set freely.

The colour of the skin is a rich dark green and the flesh is pure white, firm and crisp; delicious flavor.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/-; lb., 12/6.

Commercial

or Fordhook White Spine—☉

A perfectly shaped cucumber of medium length and large diameter, quite smooth, and remaining green after being picked; very productive. This cucumber has by far the largest sale on the markets.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/-; lb., 12/6.

Fordhook Famous

An extra long variety of White Spine; 12 to 17 inches in length. The thick flesh is remarkably juicy, yet crisp and of a pleasing and delicious flavour.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 13/6.

Long Green Prickly

An old favourite.

Pkt., 6d.; oz., 1/9.

Livingston's Evergreen

Stands drought well; good cropper.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/-.

Short Green Prickly

Early and prolific.

Pkt., 6d.; oz., 1/9; ¼-lb., 5/6.

Fordhook Pickling

Best for pickling whole.

Pkt., 6d.; oz., 1/6.

Apple Shaped—☉

Quite distinct; best for home use; very prolific, and not indigestible. During the last few years this cucumber has obtained a place on the market, and those growers who have learnt the proper stage to market it have had fine returns. The apple shaped cucumber is at its best when the outer skin is almost white, before it starts to turn yellow.

Pkt., 6d.; oz., 2/-; ¼-lb., 6/-; lb., 18/-.

White Wonder

A pearly white cucumber of fine quality. Averages 8in. long, 2½in. thick; skin thin, but tough. Carries well.

Pkt., 6d.; oz., 2/-.

White Early—☉

A new, long, white cucumber, growing 10 to 12in. long, and 3in. in diameter. Pale green while young, turning to a porcelain white.

Pkt., 6d.; oz., 2/6.

African Horned—☉

Unique, very late, enormously prolific. Fruit while young may be eaten freely as apples; when ripe, with a spoon like passion fruit.

Pkt., 6d.; oz., 2/-.

Gherkin

A very small type of Cucumber, used only for pickling whole.

Pkt., 6d.; oz., 2/-.

Cape Gooseberry

Golden Nugget

This is the result of twenty years rigid selection. An enormous yellow fruit bursting out of the husk. It sometimes reaches two inches in diameter.

The fruit makes a splendid jam or preserve, either by itself or with Jelly Melon.

The plants are enormously prolific.

Pkt., 6d.; ½-oz., 4/-; oz., 7/6; ¼-lb., 22/-

Common Cape Gooseberry

(Physalis edulis). This variety is a biennial, and in mild climates produces its best crop of fruit during the second season.

Pkt., 6d.; oz., 2/6.

Husk Tomato

(Physalis alkikenge). Quite different from either the above or the common Cape Gooseberry. The vines are trailers, and it is very prolific. This is the best flavoured variety for eating raw. The berry is small and sweet. Pkt. 6d.

Lettuce

The Deacon

Large creamy yellow, buttery.
Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb.,
lettuces. Pkt., 6d.; oz., 1/-

California Cream Butter

The largest of the butter
lettuces. Pkt., 6d.; oz., 1/6;
3/-; lb., 9/6.

Iceberg—

Handsome curly leaves, very
solid.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb.,
3/3; lb., 10/-.

Drumhead

The old favorite.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb.,
2/3; lb., 7/-.

Paris White Cos

The Cos lettuces are quite distinct; they
require tying up to blanch the centre
leaves.

Pkt., 6d.; oz., 1/-.

Hanson

A variety that heads well in hot weather
—large, crisp and tender.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 3/-; lb., 9/6.

Mignonette

A crisp curly, small brown lettuce that
succeeds in Fiji, and very hot climates.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

BRITTLE ICE

Brittle Ice—

A fine extra crisp variety, quick growth.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 3/3; lb., 10/-.

Mushroom Spawn

Small Bricks of Mushroom Spawn
9d. each. Postage paid.

These may be planted in the open garden
in autumn and winter, or at any time in a
cave or dark place where the temperature
ranges between 50 and 60 degrees. See
"A.B.C. of Australian Vegetable Grow-
ing," price 2/1, postage paid, for full
cultural directions.

Mustard

Pkt., 6d.

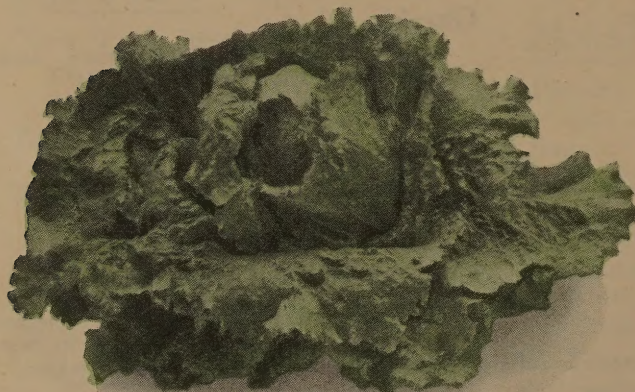

This is usually grown with
cress.

White

The old English variety;
seed used for making the
well-known condiment.

Fordhook Fancy—

The most beautifully
curled and crested leaves;
fine for garnishing.

WONDERFUL

Wonderful or New York—

The hardest and largest of head lettuces;
rich dark green; heads stand hot weather.

Pkt., 6d.; oz., 1/3; $\frac{1}{4}$ lb., 4/-; lb., 12/-.

MARGLOBE TOMATOES

Copy of letter received 20th July,
1929 from Mr. A. E. Marler,
Casino

I think you might be interested to know
that the seed procured from you last year gave every
satisfaction. I had a magnificent crop of tomatoes,
the best I have ever grown. The Marglobe variety
did particularly well. I don't grow vegetables for
market but simply as a hobby.

Twelve

Onions

Prizetaker—

This onion has done well in all parts of Australia, and in very different classes of soil; for transplanting it is one of the best. It is a very large onion, often going to 4lb. in weight, and frequently measures over four inches in diameter. The skin is a beautiful golden brown, and the flesh very white, solid, crisp, juicy and mild.

Pkt., 6d.; oz., 1/3; 1/4-lb., 4/-; lb., 12/-.

Australian Brown—

An American strain of our Early Brown
Globe. A splendid keeping sort.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Brown Spanish—

The standard keeping onion. Hard to beat for general market purposes. Best select strain.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 3/-; lb., 9/6.

Brown Globe

Another good local sort preferred by many as a market keeping onion.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 3/6; lb., 10/6.

Giant Rocca

A large reddish brown onion; a quick grower for autumn or spring.

Pkt., 6d.; oz., $2\frac{2}{3}$; $\frac{1}{4}$ -lb., 6/6; lb., 20/-.

White Queen—

A good early white onion, good for home or market.

Pkt., 6d.; oz., 1/6; 1/4-lb., 5/-; lb., 15/-.

Silverskin

The well-known white pickling onion.

Pkt., 6d.; oz., $1/9$; $\frac{1}{4}$ -lb., $5/-$; lb., $15/-$.

Silver King

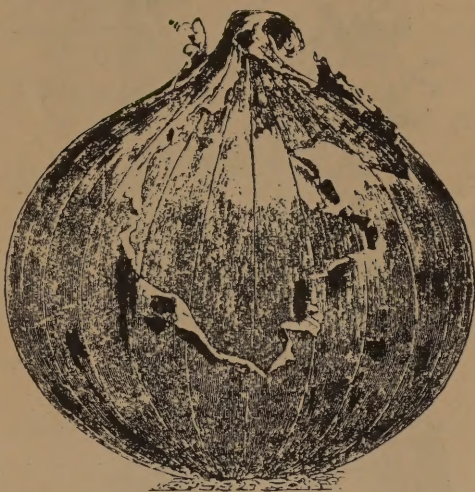

White skinned onion of excellent flavour.

Pkt., 6d.; oz., $2\frac{2}{3}$; $\frac{1}{4}$ -lb., $6\frac{2}{3}$; lb., 20/-

Odourless

A recently introduced variety of the type of Giant Rocca. A mid-season variety, producing large bulbs suitable for eating raw.

Pkt., 1/-; oz., 5/-; $\frac{1}{4}$ lb., 15/-.

PRIZETAKER

Southport White Globe—

The bulbs have a bright paper white skin, with white flesh.

Pkt., 6d.; oz., 2/3; 1/4-lb., 6/6; lb., 20/-

Southport Red Globe—

A fine bright red onion for show purposes. Flesh white, tinted with pink near the crimson skin.

Pkt., 6d.; oz., $1/6$; $\frac{1}{4}$ -lb., $4/3$; lb., $12/6$.

Southport Yellow Globe—

The colour of the skin is a rich golden yellow, and the flesh white.

Pkt., 6d.; oz., $1/6$; $\frac{1}{4}$ -lb., $4/3$; lb., $12/6$.

Scorzonera

A root vegetable not unlike Salsify.
Perennial. Pkt. 6d.

Salsify (Oyster Plant)

Sandwich Island Mammoth

A delicious vegetable grown like parsnip. The boiled roots have a distinct oyster flavor.

Pkt., 6d.

SPECIAL OFFER

1 PKT. OF EACH OF 3 SOUTHPORT ONIONS FOR	..	1/3
1 OZ. " " " " " " "	..	4/6
4 OZ. " " " " " " "	..	12/6

RICHARD SEDDON

Sugar Peas

Pkt., 9d.; lb., 3/-. Post free in N.S.W.

Tall

Requires staking like beans.

Dwarf

Very fine quality.

Winged Asparagus Pea

A most prolific pea, delicious when cooked like beans. When ripe, shelled seeds make a rich vegetable jelly.

Small packets only 6d.

Parsnips

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ -lb., 1/6; lb., 4/6.

Hollow Crowned—

The standard market variety.

Improved Guernsey

Rather shorter, but of finer quality.

Peas

Pkt., 9d. Post paid.

Quarter bushel and bushel prices on application.

In the coastal and warmer climates peas are best treated as a winter crop, sown in Autumn. In the cooler and mountain climates spring sowing is best.

Little Marvel

A fine early dwarf with large green pods, well-filled.

lb., 2/3; 5-lb., 8/-; 10-lb., 13/6. Carriage paid in N.S.W.

Richard Seddon—

The best main crop pea for market or home use. The heaviest cropper of all peas, 2ft. high.

lb., 2/-; 5-lb., 7/6; 10-lb., 12/6, carriage paid in N.S.W. Add 6d. per lb. on Interstate orders.

Yorkshire Hero

Old standard market variety; hardy and carries well.

lb., 1/9; 5-lb., 6/6; 10-lb., 11/- carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

Greenfeast—

This shares with Richard Seddon the honor of ousting the old Yorkshire Hero from the position of the market gardener's pea; it is a better pea, and always sells at a higher price than the Yorkshire.

lb., 2/-; 5-lb., 7/6; 10-lb., 12/-; carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

Stratagem

A favourite for garden and market; does well with good care.

lb., 2/-; 5-lb., 7/6; 10-lb., 12/-; carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

American Wonder (Improved)

An early home garden variety, superceded for market by Richard Seddon and Greenfeast. 1ft. high.

lb., 2/-; 5-lb., 7/6; 10-lb., 12/6, carriage paid in N.S.W. Add 6d. lb. on Interstate orders.

Okra

Pkt., 6d.

Dwarf Prolific

The young pods of this plant are very largely used in the Southern states of America as a vegetable, and for flavouring soups and stews. Also used for mixed pickles.

Cassabas or Winter

Melons

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 3/-; lb., 9/-.

Allen's Superb or Winter Pineapple

Snow white flesh, and a crepy green skin; shaped like a mason's maul.

Golden Beauty

Fine quality, said to look like a plum pudding tied in a bag; yellow flesh, and of fine flavour.

Honey Dew—

A new Hybrid Cassaba of delicious flavour; fine grained and melting; keeps for months.

The Cassabas differ greatly from the ordinary rock melons. They may be sown late and put on a big crop towards autumn. If picked when just turning, they may be put away in a cool place to keep through the winter.

Preserving Melons

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 3/6; lb., 10/6.

Colorado Citron—

An immense round melon with firm white flesh.

Red Seeded Citron

Medium size, good quality.

Long Green Pie

Very prolific.

Jelly Melon

Cooks to a jelly.

Snow Melon

The seed is contained in the central cavity like a vegetable marrow, making it very easy to prepare for jam, for which it is very fine.

Pkt., 6d.; oz., 3/-.

Peanuts

Small Spanish, White

6d. per packet.

A Standard variety; good cropper; hardy.

Peppers

6d. per packet.

Chinese Giant—

As big as a quart pot; very mild; delicious stuffed. Oz., 2/6.

Birdseye

Small, intensely hot; good for pickles and sauces.

Long Red Cayenne

Hot and pungent.

Ruby King

Sweet and mild.

Golden Queen

Large, sweet, yellow.

Sweet Genoa

Sweet and mild. Heart shaped bright red.

Mixed Peppers

A mixture of various shapes and colours.

Radishes

Pkt., 6d.; $\frac{1}{4}$ lb., 1/6; lb., 4/6.

White Icicle —

Fine long white, maturing 20 to 25 days.

Early Long Scarlet

(Short Top)—Early, crisp and fine flavour.

White Chinese—

These grow to a great size and in China and Japan are cooked like a turnip. Best sown in early autumn.

Improved Chartiers—

A dainty crimson, long radish, with a white tip, very delicious.

White Wonder

Or Three Weeks—Nice size and shape.

Mixed Turnip

Red, yellow and white.

Mixed Olive Shaped

Different colours.

Mixed Long

A good assortment of the best radishes.

Surprise Mixture

A mixture of all sorts short, long and medium.

Early Watermelons

Baby Delight

Just big enough for one; 3 to 6 pounds; early, and beautifully sweet.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/9; lb., 13/-

Fordhook Early—☉

The very best early market melon; quality good, carries well. Does well in mountains and cooler parts. Size up to 3½lb. See illustration.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Halbert Honey—☉

The melons are large. It is sweet and tasty, melting in the mouth like honey, and leaving no fibre. See illustration.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Chilian Black Seeded

The black seeded melons sell better in slices, and when cut. Medium sized melon, flesh bright red and of delicious quality. Seeds should be soaked before sowing.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/6; lb., 7/6.

Late Watermelons

Tom Watson—☉

A fine quality melon with tough skin that enables it to be shipped to distant markets. Large melons 10 to 24 inches in length and 10 to 12 inches in diameter, up to 50 or 60lb. in weight. Rind dark green.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Shaker Blue

A very large white seeded melon of fine quality, worth placing in any collection, for home or market.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Kleckley Sweets

Delicious: another home garden melon.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Sugar Stick

Almost as good as the two previous melons, but carries better.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Ice Cream

The very name is cooling. Large and prolific.

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Cuban Queen

Very large; carries anywhere.

fibre. Pkt., 6d.; ¼-lb., 2/3; lb., 6/6.

Irish Gray

A new market garden melon, with light green rind, which is very tough. The red flesh is of fine melting flavour, without

Pkt., 6d.; oz., 1/-; ¼-lb., 2/3; lb., 6/6.

Klondyke

Another new melon from California. A good home garden and local sale variety.

Flesh brittle, few seeds, shape oblong.

Pkt., 6d.; oz., 1/6; ¼-lb., 4/9; lb., 13/-

Rock Melons

Pkt., 6d.; oz., 1/-; ¼-lb., 3/3; lb., 9/6.

GREEN FLESHED VARIETIES

Montreal Nutmeg (New)

Thick flesh, light green, flavour simply delicious. Fruits 6½ inches diameter and very heavy—from 11 to 22 lb.

Pkt., 6d.; oz., 1/-; ¼-lb., 3/9; lb., 10/6.

Matchless—☉

Oval melons, about 2lbs. in weight; small seed cavity; firm sugary flesh, thin rind.

Netted Gem or Rocky Ford—☉

This is the most popular small variety of Rock Melon for packing in cases for market as well as a good home garden type. The skin is green turning to grey as it is ripe for market. Very prolific. See illustration.

Extra Early Hackensack

An old favorite, good flavor, hardy and prolific.

SALMON FLESHED VARIETIES

Pollock—

An early melon of the solid netted type. A splendid keeper, carries well—fine quality.

Pkt., 6d.; oz., 1/-; ¼-lb., 3/9; lb., 10/6.

Spicy Canteloupe—☉

Fine large melons of exquisite flavour; stringless. Prolific and of vigorous growth.

Sydney Market

Fruit of medium size, with a fine heavy netting, and fairly distinct ribs. Averages about 5lb. in weight. The flesh is bright salmon pink, and of excellent flavour.

Emerald Gem

A handsome small melon carries well; early and prolific.

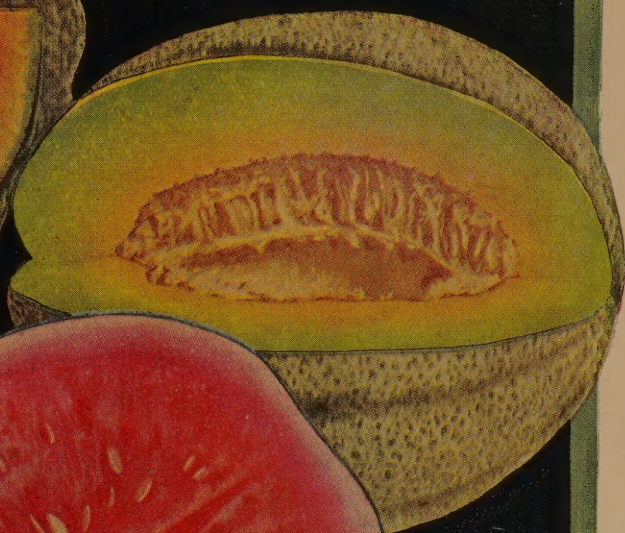

Fordhook—☉

A most delicious variety, for market and home use. Round, flat, well ribbed and heavily netted; the skin is thin, but strong.

Our Tomato Specialities

Sunnybrook Earliana ☼

Produces large smooth fruits of great Uniformity. It has all the good points of the original Spark's Earliana without its failings. The new strain may be relied upon for a market gardeners crop. It has gained a name for ripening fine smooth tomatoes similar to that depicted on coloured plate, five days before the ordinary strain. Like all earliana tomatoes, Sunnybrook Earliana ripens its whole crop within a few weeks, allowing the beds to be cleared promptly for another crop. The fruit is of high quality being fleshy, and juicy.

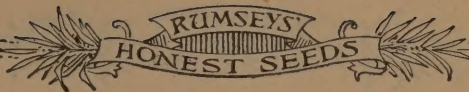

Pkt., 6d.; oz., 3/-; 4oz., 10/6; lb., 30/-.

EARLY MARKET
VARIETY

SUNNYBROOK
EARLIANA

MATCHLESS
BEST LATE
(See Page 20)

Extra Early Tomatoes

The extra early tomatoes of the cluster fruiting type are a fair marketable size, though not large.

Helvetia

This tomato is gaining in popularity every year.

Helvetia is a red cluster tomato producing fruit of a commercial size, up to two or three inches in diameter. It is an enormous cropper and if the fruit is systematically thinned they reach a fair size. Helvetia has proved not only a good early spring crop, but in the coastal districts it is unsurpassed for autumn planting, and may be put out several weeks later than Earliana and Early Pride class of tomato.

Helvetia is thus concisely described by an enthusiastic gardener. "It is a most prolific setter of fruits at any old time and under any old conditions."

Though Helvetia is not placed under the heading of wilt-resisting varieties, we have found it more resistant than most sorts.

Pkt., 6d.; $\frac{1}{2}$ oz., 3/6; oz., 6/- post paid.

Walker's Selected Recruit

This tomato is of a similar type to the Helvetia. It is a large fruiting prolific sport from an English tomato, known as the Recruit.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6; lb., 30/-.

Victoria Whole Salad

As many as 373 tomatoes have been counted on one plant at a time. The size is from two to two and a half inches in diameter, and the weight up to three to four ounces each.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Commercial

The variety has proved very popular, and is being largely grown for early and late markets.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/-.

Burbank

We have grown a number of plants of this tomato and find it to be the earliest large tomato and one of the most productive. Most of the fruits are quite round and smooth. The flesh is firm and of good quality.

Pkt., 6d.; oz., 3/-; 4 oz., 10/6; lb., 30/-.

Adelaide Dwarf Or Chinese

This is the variety that is largely grown in South Australia for the early market. The colour is a bright red.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ lb., 10/6.

Early Tomatoes

Early Pride

A pink Earliana, but better than any Earliana, more prolific, better fruit, more even in shape and size. Three-quarters of an acre yielded 7 tons, and sold for £180 at Inverell.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/-.

Avon Early

An early scarlet fruited tomato of the Earliana type, differing very slightly from that well-known variety.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/-; lb., 30/-.

Bonny Best

An early smooth scarlet tomato of good size, solid, meaty, and of good flavour. A good cropper. Since we first introduced this tomato in 1915 its popularity has increased every year.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/-.

John Baer

Practically the same as Bonny Best.

Pkt., 6d.; oz., 2/6.

Chalk's Early Jewel

One of the best acquisitions of recent years. Fruit, red, meaty. Very good cropper.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/-.

Earliana

A very productive, even-shaped red variety.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/-; lb., 27/6.

Kondine Red

Extra early of bunch type, grown largely under glass.

Pkt., 6d.; oz., 3/-.

Eldorado

A very large English show tomato with skin like enamel, good under glass.

Pkt., 1/-; oz., 10/-.

MARGLOBE TOMATO

Mr. O. Thomas, of "Coedcanlas," Tweed Heads, who is a tomato enthusiast writes:

"I don't suppose that any other tomato ever was the success that Marglobe seems to be, in such a short time. It caused a great sensation at Bowen when first grown there, for June transplanted plants were still producing furiously in February, in spite of tropical rain (and weeds). An absolutely unique performance."

Second Early Tomatoes

Burwood Prize

Our specially selected strain of this tomato is very fine, yielding fine fruit very free from blight. The potato leaved foliage makes it very handsome as a plant.
Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/.

Livingston's Manifold—

Said to be the earliest of the big red sorts, and is red both inside and out, red to the very core. It ripens five or more to the cluster.
Pkt., 6d.; oz., 5/-; $\frac{1}{4}$ lb., 16/.

Fordhook First

Large round, deep purple; does well on heavy soils.
Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/-; lb., 27/6.

Livingston's Beauty

Large, solid smooth purplish pink.
Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/.

Late Tomatoes

Matchless

This is the largest and best of the late red tomatoes. The illustration on page 18 gives a true representation of this tomato at its best. It is a heavy cropper, and a good market variety, ripening very evenly if picked when commencing to change colour. Specimens frequently reach 12 to 18 ounces in weight.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/.

Ponderosa

This tomato may be relied upon to give some enormous specimens, large late red tomatoes, probably the largest of any sort, but it is hardly to be classed as a reliable market sort.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 3/-; $\frac{1}{4}$ lb., 10/6.

Livingston's Stone—

The standard late sort for canning and jam factories. Immense cropper, fine flavoured, bright red, perfectly smooth.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 2/6; $\frac{1}{4}$ lb., 9/-; lb., 30/.

Dwarf Stone

A bush type of the above well-known tomato.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 2/6; $\frac{1}{4}$ lb., 9/6.

San Jose Canner

A super-selected strain. Bred for smoothness, weight, solid flesh, and brilliant scarlet fruits.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/.

Buckeye State

The largest perfectly smooth tomato; fruit forms and ripens in large bunches; skin tender, making it liable to crack with changes of weather.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 3/-; $\frac{1}{4}$ lb., 10/6.

Trucker's Favourite

Fine large, purplish-red, best for northern climates.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; oz., 2/6; $\frac{1}{4}$ lb., 9/6; lb., 30/.

Burpee's Dwarf Giant

A dwarf ponderosa, fruit large and meaty; rich purplish crimson.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/.

Ignotum—

A large attractive red tomato, fine for show purposes, very meaty.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 3/-; $\frac{1}{4}$ lb., 10/6.

New Tomato Oxheart

A large meaty tomato, quite distinct from any other sort.
Pkt., 1/-; oz., 7/6.

Livingston's Globe

Of distinct Globe shape, and occasionally slightly elongated. A beautiful early purple variety, fine for slicing, smooth, firm, and ripens evenly.
Pkt., 6d.; $\frac{1}{2}$ oz., 1/9; oz., 3/-; $\frac{1}{4}$ lb., 10/6.

Colossal

Is a large red tomato more prolific than Ponderosa, and of even large size, very solid, and free from core.
Pkt., 6d.; oz., 3/.

Livingston's Coreless—

About the finest flavoured dessert tomato. Good for slicing; very solid; good market sort.
Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ lb., 10/6; lb., 30/.

TOMATOES UNDER SHELTER

Mr. Seddon of Junee writes:

"In reference to my experiment with the cheese-cloth house suggested by you in the first edition of your 'Tomato Book,' I think it a very good way of growing tomatoes under cover. I had some trouble with the cloth I used as I could not procure cheese cloth down here. I used butter cloth and it was rather weak for the job—the winds played havoc with the roof, but the sides are still as good as ever. I put the roof on like a huge tent-fly with weights on each side. The total cost of the house (30 x 15ft.) eaves 5ft. high, was £7/16/8. I grew 30 plants in the house, and also a lot of plants in boxes. The plants I sold netted me £3, and I also sold 268 pounds of ripe tomatoes at an average of 9d.—£10/1/-. Allowing for the cost of seeds used, I made about £5 on the experiment. I don't know how many pounds of fruit were taken off the vines altogether, because we used a lot for sauces and jams and also gave a lot away. I was perfectly satisfied with the trial and if my job would give me more time at home I would certainly build another house."

Resistant Tomatoes

The following varieties have been bred for their resistance to Fusarium wilt—one of the most troublesome of the tomato pests. So far no varieties have been found entirely resistant to Bronze or spotted wilt.

Rumsey's Greenhouse Special

A variety for growing under glass. In shape, similar to Bonny Best and said to be 100 per cent. resistant to Fusarium wilt. The vine is vigorous, without a super-abundance of foliage.

Pkt., 1/-; $\frac{1}{2}$ -oz., 5/6; $\frac{1}{4}$ -lb., 10/-; lb., 30/-.

Marvana

The earliest of the varieties of tomato, specially selected for their resistant properties. The vine is similar to Earliana being rather open and flat, and not large. It is claimed to be a cross between Marvel and Earliana.

Pkt., 6d.; oz., 3/6; $\frac{1}{4}$ -lb., 10/6; lb., 30/-.

Bowen Buckeye

A Queensland variety which is a prime favourite with growers in that state and largely used for shipping in early spring.

Pkt., 6d.; oz., 6/6; $\frac{1}{4}$ -lb., 20/-.

Dennisonia

Another production of the Queensland Agricultural Department which has proved to be a wilt resister and very prolific; it is almost apple-shaped.

Pkt., 6d.; oz., 6/6; $\frac{1}{4}$ -lb., 20/-.

Color True Seeds

These resistant varieties are being stained on the colour-true plan. The seed is stained while being washed from the pulp, so that any mixing of the seed or substitution of sort is evident.

This method is protection to the gardener, and to the merchant. If the seeds are not of the colour indicated on the package please return.

Marglobe—☉ (Tan)

A variety specially bred for resistance to fusarium wilt. A main crop scarlet smooth solid and globe shaped. A very fine variety for market.

Pkt., 6d.; $\frac{1}{2}$ -oz., 1/9; oz., 3/-; $\frac{1}{4}$ -lb., 10/6; lb., 30/-.

Norton—☉ (Rose)

This tomato is causing a lot of attention in America on account of its wilt-resisting qualities. It is a variety very similar to "Livingston's Stone" tomato that has been greatly in favour amongst our customers.

Pkt., 6d.; oz., 3/-; $\frac{1}{4}$ -lb., 10/6; lb., 30/-.

Yellow Tomatoes

Pkt., 6d.; $\frac{1}{2}$ -oz., 1/9; oz., 3/-; $\frac{1}{4}$ -lb., 10/9.

Livingston's Golden Queen—☉

This is a fine, large, smooth variety, of a bright yellow colour, and fine flavour.

Yellow Prince

Dwarf type. Fruits large and smooth

Yellow Ponderosa

A large yellow tomato, of the Ponderosa type, having a very meaty fruit.

Small Fruited Tomatoes

Pkt., 6d.

King Humbert

Immense bunches of prune-shaped fruit; disease resistant.

Pkt., 6d.; oz., 2/6; $\frac{1}{4}$ -lb., 7/6.

Yellow Pear

Red Pear

Yellow Cherry

Yellow Plum

Red Peach

Red Cherry

MALABAR MELON

(or Angel's Hair)

(*Cucurbita ficifolia*)

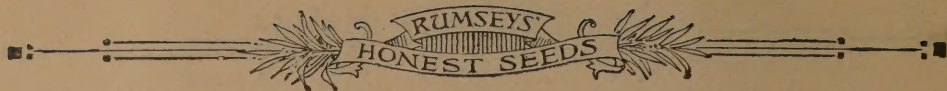

This quaint squash or gourd is not edible, or at any rate sufficiently tempting to warrant it being grown as a food plant. It is, however, an interesting novelty.

The fruit is oval, from eight to ten inches in length, and six to seven inches in diameter, with a very smooth, glossy skin of a dark green colour, striped and mottled with greenish white.

After being boiled, the thread-like pulp, or skeleton of the fruit, may be dressed in different ways. In the Spanish American countries of South America, it is largely grown under the name of "Cabellos de Angel" or Angel's Hair.

This is a very interesting plant for the children to grow, it would induce them to take an interest in growing things, which, once implanted in them, will probably stick to them through life.

Per pkt., 6d. Post paid.

Marrows and Marrow Squashes

All the summer squashes and vegetable marrows should be cooked while the outer skin is tender enough to scratch with the finger nail, and should be cooked without peeling.

VEGETABLE MARROW

Long Green (Trailing)

Tender and prolific.

Pkt., 6d.; oz., 1/3; ¼-lb., 4/; lb., 12/.

Italian Green Striped (Bush)—☉

Very prolific, and one of the best of marrows for cooking while young.

Pkt., 6d; oz., 1/3; ¼-lb., 3/9; lb., 10/6.

Long Cream (Trailing)—☉

Good cropper.

Pkt., 6d.; oz., 1/; ¼-lb., 2/9; lb., 8/6.

Long White (Trailing)

A fine variety, tender.

Pkt., 6d., oz., 1/3; ¼-lb., 4/; lb., 12/.

Long White (Bush)

Very prolific.

Pkt., 6d.; oz., 1/3; ¼-lb., 3/6; lb., 10/6.

SUMMER SQUASH

Fordhook—☉

If gathered while still immature, no marrow or squash can approach this for delicious flavour; very prolific.

Pkt., 6d.; oz., 1/; ¼-lb., 3/3; lb., 9/.

Bush Fordhook—☉

A bush form of the above.

Pkt., 6d.; oz., 1/; ¼-lb., 3/3; lb., 9/.

Early White Bush Scalloped—☉

Pkt., 6d.; oz., 1/6; ¼-lb., 4/6; lb., 12/6.

Golden Custard (Bush)

Small flat marrows in profusion.

Pkt., 6d.; oz., 1/3; ¼-lb., 4/; lb., 12/.

Mammoth White Bush—☉

Very tender.

Pkt., 6d.; oz., 1/3; ¼-lb., 4/; lb., 12/.

Mixed Scalloped

A mixture of the patty pan type of marrow or summer squash.

Pkt., 6d; oz., 1/3; ¼-lb., 3/9; lb., 10/6.

Pumpkins and Pumpkin Squashes

Crown

A standard table variety.

Pkt., 6d.; oz., 1/; ¼-lb., 3/3; lb., 9/6

Small Button

Very good; keeps well.

Pkt., 6d.; oz., 1/; ¼-lb., 2/9; lb., 8/.

Triamble—☉

Triangle or Shamrock—A very small pumpkin, but the best table pumpkin now grown.

Pkt., 6d.; oz., 1/3; ¼-lb., 3/6; lb., 10/6.

Small Sugar

The earliest of all pumpkins, ready three months from seed.

Pkt., 6d.; oz., 1/; ¼-lb., 3/; lb., 9/6.

Turk's Cap

A red skinned variety of good quality.

Pkt., 6d.; oz., 1/; ¼-lb., 2/6; lb., 7/.

Queensland Blue

A new table pumpkin cheese shaped, of fine quality and flavour, of the type of the old ironbark.

Pkt., 6d.; oz., 1/3; ¼-lb., 3/6; lb., 10/6.

Hubbard Squash—☉

Equal in quality to ironbark pumpkin.

Pkt., 6d.; oz., 1/; ¼-lb., 3/9; lb., 10/.

Red or Golden Hubbard

Very good. Pkt., 6d.; oz., 1/.

New Blue Hubbard

A new Hubbard squash, with a rich blue-green skin and the quality of an ironbark pumpkin. Pkt., 6d.; oz., 1/.

Warted Hubbard

Equal if not superior to original Hubbard. Pkt., 6d.; oz., 1/; ¼-lb., 3/9.

Banana

A fine flavoured winter squash.

Pkt., 6d.; oz., 1/; ¼-lb., 3/9; lb., 10/6.

Trombone or Rio Gramma—☉

Best of all pie pumpkins or squashes.

Pkt., 6d; oz., 1/6; ¼-lb., 5/; lb., 15/.

Japanese Pie

Similar to the above; very solid.

Pkt., 6d.; oz., 1/; ¼-lb., 3/9; lb., 10/.

Golden Oblong

Fine oblong pie pumpkins, about 10 inches in diameter and 15 inches long.

Pkt., 6d.; oz., 1/; ¼-lb., 3/3.

Delicious and Jonathan also stocked.

Large Pumpkins

Pkt., 6d.; oz., 1/; ¼-lb., 3/3; lb., 9/.

Globe Mammoth

Hundredweight

Mammoth Whale (Squash)

Rhubarb

Pkt., 6d; oz., 1/6; $\frac{1}{4}$ lb., 5/-; lb., 15/-.

Sydney Winter—☉

The wonderful winter growing rhubarb, treated as an annual, sown in February or March, yields all winter in coastal districts, and very early spring in colder parts.

Victoria

The large standard summer rhubarb.

For roots see vegetable plant list

Rosella

The Rosella is a hot climate plant, much more tender than the tomato, and requires about four months' hot weather to mature. The beautiful red seed bracts are used for making jelly and summer drinks.

Pkt., 6d.

Spinach

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 1/6; lb., 4/-.
(See also Spinach Beet).

Round Seeded

For Spring planting.

Prickly Seeded

For Autumn planting.

New Zealand or Sydney Harbour

Large leafed; hardy.

New Zealand Blue Lupins

The Ideal Green Manure for Autumn
Sowing

These annuals which are specially recommended for our cooler districts, usually do best sown in early Autumn, but may be also sown in early Spring. They are quick growers and produce an enormous crop which is estimated at 12 tons per acre.

The tests of one German scientist reveal that a good crop of Blue Lupins is equal to a dressing of 16 tons of the best stable manure per acre and that this land will retain 8 tons more moisture per acre. 1cwt. of seed will sow one acre of land.

GIVE THEM A TRIAL

3lb. (enough to sow 100 sq. yards) will be sent post paid in N.S.W. for 3/9. Add 6d. lb. postage to Interstate orders. Price.—9d. lb.; 28lb. lots 6d. lb.; 56lb. or over, 45/- cwt.

PRICES FREIGHT EXTRA

White Turnips

Pkt., 6d.; $\frac{1}{4}$ lb., 1/9; lb., 5/-.

White Stone—☉

Good early sort.

White Nepaul

Early, flat-shaped.

Early White Model

Small tops, a perfect gem.

Jersey Lily, or Snowball

Perfectly round, snow-white, and very early.

Orange Jelly—☉

The best of all this class of turnip, flesh yellow, and not strong flavoured.

The Favorite

Flesh white firm, and sweet.

Swede Turnips

Special quote for larger quantities.

Laing's Garden Swede—☉

Best and sweetest. A small swede for home use.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

Danish Bangholm—☉

The best flavoured and most nutritious of the swedes. Purple top.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/-; lb., 6/-.

Imperial Purple Top

Large size, and good quality.

Pkt., 6d.; $\frac{1}{4}$ lb., 1/6; lb., 4/-.

Champion Purple Top—☉

Yellow flesh, first class quality.

Pkt., 6d.; $\frac{1}{4}$ lb., 1/6; lb., 4/-.

Elephant or Monarch

Very large heavy cropper.

Pkt., 6d.; $\frac{1}{4}$ lb., 1/9; lb., 4/6.

Kelway's Perfect Model

A very fine English variety of Swede turnip, good for table or stock use, very tender.

Pkt., 6d.; oz., 1/-; $\frac{1}{4}$ lb., 2/9; lb., 8/6.

Vine Fruit

Under this heading we are placing several more or less different things that are often grown in the vegetable garden.

Strawberry Seed

It is very interesting to raise strawberry plants from seed, but as plants carry anywhere by mail, it is of no advantage for the average grower. We have seed in stock of the following varieties, all grown in France:—

Large Fruited, Mixed.

Alpine Bush, Red; Alpine Bush, White.

All 6d. packet post paid.

Passion Fruit

The passion fruit has become a very important commercial crop. As a money maker the common passion planted out in frost free localities, in late spring for a winter crop is unrivalled. Our seed stock is the best available for this purpose.

Common Passion

(*Passiflora edulis*).—Best winter fruiting strain.

Pkt., 6d.; oz., 2/6.

Plants:—1/- each, 3 for 2/6; 7/6 doz., post paid in N.S.W.

Mammoth Passion

These are free-growing vines, producing enormous fruit, but are not so much in demand as the common passion.

Pkt., 1/-; ¼-oz., 3/6; Plants 2/- each, 3 for 5/-, post paid in N.S.W.

Banana Passion

(*Tacsonia mollissima*).—This fine popular fruiting vine produces large crops of white fruit, that are greatly in demand for fruit salads. It is doubtful if the large quantities sold of the common passion will be equalled by this fruit, but so far it is a paying proposition. Banana passion is quite as hardy as the common passion.

Pkt., 1/-; ¼-oz., 2/6; Plants 1/6; three for 3/6, post paid in N.S.W.

Improved Banana Passion

(*Tacsonia Taylori*).—Much harder than the ordinary Banana passion, and suitable for really cool localities; the fruit is larger than the ordinary Banana and very fine. Seed when available.

Pkt., 1/6; ¼-oz., 5/-.

Plants 2/6 each, post paid in N.S.W.

The Choko

A climbing vine of the cucumber family, doing well in the warmer districts. The fruit is somewhat like a rough lemon. It can be used boiled or baked as a vegetable, or with fruit flavouring for jam or tarts. We had over 300 fruits from one plant in one season.

The plants die down in winter and shoot again from the roots in early spring, lasting in this way for several years. The whole fruit must be sown to get a plant. Ready MAY to AUGUST.

Price 1/3 each, post paid.

ORDER EARLY.
Twenty-four

Gourds

Mixed Ornamental Gourds

There are in some cases useful as well as ornamental.

Pkt., 6d.

Pipe Gourd, or Calabash

This is the gourd from which the Calabash pipes are made.

Pkt., 6d.

Loufa

The fibrous skeleton of this gourd is used as a bath sponge.

Pkt., 6d.

Gauda Bean

Not a bean, but a cucumber-like gourd, growing to a great size in warm situation.

Pkt., 6d.

Melon Peach

Not unlike a Rock Melon, may be sliced and fried like Egg Plant, or made into preserves. Pkt., 6d.

THE CHOKO

Vegetable Plants and Roots

Postage extra to other States

All prices on this page are post extra unless otherwise stated.

It is always safest and best to grow vegetable garden seedlings on the spot, so that they may be transplanted in suitable weather without risk. However, for the convenience of those customers who have not suitable conditions for raising their own seedlings, we try to keep a stock of the most popular varieties ready to send out by mail or rail. We pack these as carefully as possible, so that in most cases, they arrive in good order. If, however, from delays in the mail, rough handling or any other cause, they are not delivered in good order we take no responsibility, and cannot undertake to refill orders without charge.

Artichokes

(Jerusalem).—May to August.
1/6 per lb., post paid.

The value of the artichoke for both human consumption, and as a stock feed is becoming yearly more recognised. Its sugar contents are so great that before long it will be very extensively grown for the extraction of levelose which is of much more concentrated sweetness than cane sugar.

Asparagus

June, July, August, 25 for 3/6. Seedlings, 7/6 per 100, post paid in N.S.W.

Beet

(January to August).
Turnip Rooted, Spinach Beet.
2/3 100, post paid.

Cabbage

(January to December).
2/6 per 100, post paid.

Copenhagen Market.
Succession.
Surehead.
Mixed (Early and late).

Allhead Early.
Drumhead.
Red Cabbage.

Quotations given for large quantities.

Cape Gooseberry

Golden Nugget. (November to January).
1/6 doz., post paid.

Cauliflower

(December or January to May)
2/6 per 100, post paid.

Autumn Giant.
White Queen.

Early London.

Celery

(October to January). Good sorts, 9d. per doz.;
2/9 per 100, post paid.

Chokos

(See Vine Fruit). 1/3 each, post paid.

Dasheen and Taro

Tropical plants for wet places. Yield heavy crops of tubers, which are cooked like potatoes.
1/6 each, post paid.

Eschallots

During winter and spring.

LARGE RUSSIAN

The most popular variety, very hardy and prolific.
Good for pickles. 2/3 lb., post paid.

Herbs

Majoram, Thyme, Sage and Mint.

3d. per clump, 2/6 per doz. Postage 3d. each.
1/- dozen extra.

Parsley

2/- doz., post paid.

Horse Radish

6d. each; 4/6 per doz.; postage 3d.; each, 1/- doz., extra.

Lettuce

(Jan. to Dec.), Drumhead, Wonderful, Iceberg.
2/3 per 100, post paid.

Onions

2/3 per 100, post paid.

Brown Spanish.

White Onions.

Prizetaker.

Southport Globe.

(Special quote for thousand lots.)

Tree Onions

Tops and bottoms, usually available about February and March. 2/3 per lb., post paid.

Sweet Potatoes

Rooted cuttings, 1/6 doz.; 8/6 100. Post paid.
These may be planted in moist ground or holes filled with water any time up to January in the warmer parts. Hardy plants available November to January.

Winter Rhubarb

Seedlings for the new Rhubarb culture are available from March to June.
Seedlings, 1/6 doz.; post paid. Large roots, 4/- to 6/- doz., freight extra.

Summer Rhubarb

The large roots of this are obtainable all the year round, but are best planted from May to November. Roots 6/- doz., freight extra.
Seedlings (May to August), 1/6 doz. Post paid.

Tomato Plants

Tomato plants are tender, and only carry safely by post when outdoor grown, and very hardy. We prefer not to send any by mail before early in September. Clients ordering to be sent before that time take extra risks of plants arriving in poor condition.

The extra early Tomatoes mature in 90 days from planting; early sorts, 100 days, second early, 125 days; late take 150 days.

We usually have plants in season of Helvetia, Sunnybrook Earliana, Early Pride, Chalk's Early Jewel, Livingston's Coreless, Burwood Prize, Marglobe, Golden Queen and Matchless.

(August and September). 1/3 doz., 7/6 per 100 post paid. Oct. to Jan. 1/- per doz. 6/- per 100, post paid.

Quotations given for large quantities.

NEW ZEALAND FLAX

Used for tying bunched vegetables. Grows very quickly in a moist situation. Good, strong, pot-grown plants. 2/6 each. Post paid in N.S.W.

We do not supply flower garden seedlings.

Some Farm Seeds

Freight or postage extra

Until recently we have not catalogued grass and agricultural seeds, but as so many of our customers ask for small lots of these with their vegetable and flower seeds, we are now keeping small stocks of some of the lines mostly in request.

The prices in this annual catalogue are those in April, but as some of them change from month to month, it is advisable to ask for a quotation when large lots are required.

Grasses and Clovers

Hunter River Lucerne

This is by far the most valuable fodder plant we have and should be grown everywhere. It requires lime and plenty of water to succeed. In fact, in few parts of Australia is there sufficient water from annual rainfall to get the best results this plant is capable of.

Nearly five hundred poultry farmers and others have installed Skinner system on small plots of lucerne for feed purposes. The results have been almost phenomenal. A few larger growers have also realised the value of the system for securing six or seven cuts of lucerne per annum.

BEST BROADLEAF GIANT

4/- lb., post paid in N.S.W.; by rail 3/- per lb., 25lbs., at 2/9, freight extra.

Clovers

White 1/10, Perennial Red 1/7, Crimson 1/4, Alsike 2/6, Egyptian 1/6 Sweet 1/6.

Sudan Grass

Guaranteed free of Sorghum hybrids, etc. 6d. lb.

Sorghum

From 1/- lb.

Mangold

The use of mangolds as a stock food is not nearly so popular as their feed value deserves. 2/- per lb.

Millets

Japanese 4d., French 5d., Hungarian 5d., Broom Millet 6d. lb.

Pasture Grasses

Rye, Perennial, 9d.; Rye, Wimmera 1/3; Cocksfoot, 1/3; Prairie, 1/-; Rhodes, 1/9; Paspalum 2/-; Phalaris, 6/6; Kentucky Blue, 2/6; Fescue, 1/6 to 3/9; Timothy, 1/- per lb. Other grasses on application.

Other Leguminous Crops

Cow Peas, 1/- lb.

Soy Beans 1/6 lb.

Velvet Beans 1/3.

Field Peas, grey or blue 4d. lb.

Kudzu Vine, 6d. packet.

Lupins, New Zealand Blue, 9d. lb., 28lbs., 6d. lb.

Other Farm Seeds

Oats

Algerian, 8/6; Mulga 9/-; Guyra 8/6 per bushel.

Rape

Very useful for poultry, and green feed for stock. 9d. per lb.

Seed Wheat

Florence, 9/-; Thew, 9/9; Federation, 8/6; Canberra, 8/6 per bushel.

Barley

Cape, 7/6; Skinless, 10/-; English, 7/6, per bushel.

Sugar Beet (Wanzleben)

Best variety for commercial sugar production. 2/- lb.

Sunflower

1/6 per lb.

Seed Maize

Price on application.

Seed Potatoes

As Dundas district is not suitable for growing seed potatoes, we obtain supplies for our requirements from cooler locations, and can usually quote in season for Up-to-date and other popular varieties.

Flower Seeds

LEAFLET ON HOW TO RAISE SEEDLINGS ON REQUEST

- H.A.—Hardy Annual; sow February to April, and August to October.
 H.P.—Hardy Perennial; sow March to May, and September to November.
 T.P.—Tender Perennial. Plants for bush-house and verandah culture. Sow in Spring.
 H.B.—Hardy Biennial, sow March to May, and September and October.
 T.A.—Tender Annual; sow September and October, and later in warm climate.

Abronia, H.P. (Trailer). 6d.
 Verbena like flowers, sweet scented. Sometimes called "Sand verberna."

Acroclinium, H.A. 3d.
DOUBLE—Dwarf, mixed colours.
DOUBLE WHITE—Useful for wreaths.

Ageratum, H.P. (Border Plant). 6d.
MEXICANUM—Showy plants growing up to two feet in height, with clusters of lavender blue flowers.
TOM THUMB—Dwarf mixed. A fine bedding variety.

Amaranthus, T.A. (Foliage Plant).
TRICOLOUR (Joseph's Coat)—Yellow, red and green. Pkt. 3d.
COLEUS LEAVED—Very brilliant colors. Pkt 6d
CAUDATUS—(Love lies bleeding). Pkt., 3d.
COMBUSTION—The latest and most showy of all the Amaranthus tribe, with iridescent fiery rosy crimson foliage. Pkt., 6d.

Alyssum, H.A. (Sweet Alice). 3d.
LITTLE GEM—Bedding Plant, white fragrant.
LILAC QUEEN—Beautiful soft lilac flowers changing to white as they age. A free and continuous bloomer of trailing habit. Pkt. 6d.
COMPACT YELLOW—Fine for edging. Perennial.

Ammobium, H.P. (Everlasting). 6d.
ALATUM—Large white flowers.

Anemone, H.P. (Windflower). 6d.

CORONARIA—Well-known spring bulb.
ST. BRIGID—The Irish Poppy Anemone.

Antirrhinum—See Snapdragon.

Aquile, H.P. (Columbine)
Mrs. SCOTT ELLIOT HYBRIDS—An exceptionally fine, free blooming strain of varied colours. Pkt., 1/-.
LONG-SPURRED HYBRIDS—Wonderful profusion of colours from blue to chocolate, pink and scarlet. Pkt. 6d.
CHOICE MIXED—Very fine double variety. Pkt 3d.

Arctotis, H.A. Blue-eyed African Daisy
GRANDIS—White, centre blue, bud lilac-blue. About two feet high, stands dry weather.

Balsam, T.A. (Ladies' Slipper).
DEFIANCE—The finest strain of large double flowers. Good for borders or verandah plants. Pkt 6d
CAMELLIA FLOWERED—Large size, and fine form. Mixed pkt., 3d.

Asters

CREGO GIANT or IMPROVED COMET—Very vigorous, producing flowers of immense size, up to four or even five inches in diameter, and long stems, up to twelve inches. Their season is between the early and late varieties.

Crego flowers keep well, and are very fine for table decoration. The petals are curled and twisted like chrysanthemums.

The colours are, shell-pink, rose, lavender, white, purple, light blue, and mixed. Six separate colors 2/-. Pkt., 6d.; Trade Pkt., 2/6.

AMERICAN LATE BEAUTY—A distinct type they are more dahlia-like in form, and make a fine rounded bush from 2½ to 3 feet in diameter. They are, most of them, much later than other varieties of aster, and come into bloom after the others have finished. The wonderfully fine blooms are carried on strong stems, making them invaluable for cut flowers.

The colours are carmine, rose, purple, shell-pink, white, lavender, peach blossom, crimson, azure, and mixed. Pkts., 6d. or 1/-.; Trade Pkts., 2/6. Six separate colors for 2/-.
TASMANIAN BRANCHING—These are a selection of varieties that have proved to do well in the Tasmanian climate, and produce seed that proves very vigorous. These aster plants are well branched as their name implies, growing to two feet or more in height and covered in blooms of the short straight petalled type. The colours are pink, rose, purple, pure white, crimson, lavender, blue or mixed. Packets, separate colors or mixed, 6d. Trade packet, 2/6 six separate colors, 2/-.
ROCHESTER MIXED—These are an early flowering strain of the comet type. Pkt., 6d. Trade pkts, 2/6.

IMPROVED CALIFORNIA GIANTS—This is an extra robust strain. It is noted for its immense flowers on long stems. The colours offered are peach-blossom, deep rose, light and dark blue, white, light and dark purple and mixed. Price 1/- and 2/6 pkt. Three colours (our selection) for 2/6.

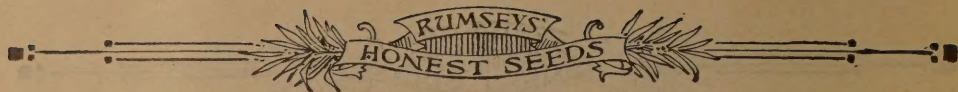

AMERICAN LATE BRANCHING, MIXED.
 A splendid upright growing type, 2 to 3 feet tall, branching freely, forming fully double large round blooms, almost globular. Very fine for cutting. Pkts., 6d. and 2/6.

HEART OF FRANCE—A ruby-red aster, flowers of excellent size and perfect formation. Flowering on long and strong stems. Plant two feet high. Pkt., 6d.

KING ASTERS—Flowers of large size good substance with long narrow petals. The plants are very erect and two feet high. They are good for cutting and last a long while in water. White, Violet or mixed. Pkt., 6d.

SINGLE ASTERS—Flower lovers are fast realising the value of the single flowers for decorative purposes, and large numbers of single asters are being grown for their graceful beauty. The single flowers vary from white, rose, pink, purple and crimson. Mixed. Pkt. 6d.

BORONIA MIXTURE—This is a special mixture made up of most of the best varieties of aster for the small cut-flower grower or the home gardener, who wants a big bed for cutting. Pkt. 6d. Large Pkts. 2/6 and 5/-.
FORDHOOK FAVORITES—An American selection of all the best types and colours of double Asters. Pkts. 6d.; Florists Pkts. 2/6.

Bartonia, H.A. (Gold Star). 3d.

AUREA—Thistle-like downy leaves, yellow flowers, two and a half inches in diameter.

Begonia, T.P. (Bedding, Mixed).

Beautiful everblooming herbaceous plant, suitable for bushhouse or verandah. Pkt., 6d.

Boronia, H.P. (Scented). 1s.

MEGASTIGMA—The well-known Brown Scented Boronia, sometimes called "Melbourne Boronia" though it is a W. Australian native.

Brachycombe, H.A. (Swan River Daisy). 6d.

IBERIDIFOLIA—Blue and White Flowers.

Calceolaria

HYBRIDA MIXED—Pkt., 2/6.

Calendula, H.A. (English Marigold).

ORANGE KING—Rich orange flowers, fully double, well rounded. Pkt., 6d.

LEMON QUEEN—Double to the centre, on long stems. Pkt., 6d.

DOUBLE MIXED—Golden striped flowers. Pkt., 3d.

Calliopsis, H.A. (Coreopsis). 3d.

Fine single flowers for cutting, blooms for many months. Plant out in shaded positions.

DWARF COMPACT—10 to 12 inches high.

DRUMMONDI (Golden Wave)—Dark Brown centre.

CORONATA—Bright yellow, maroon spots.

Campanula, H.B. (Canterbury Bells).

SINGLE MIXED—Various colors; free bloomers. Pkt., 3d.

DOUBLE MIXED—Very showy. Pkt., 6d.

CALYCANTHEMA—Cup and Saucer. Mixed colours. Pkt., 6d.

Candytuft, H.A.

GIANT HYACINTH FLOWERED—Magnificent spikes of pure white flowers. Pkt., 6d.

GOOD MIXED—A fine assortment. Pkt., 3d.

Canna, Herb. P. (Indian Shot). 6d.

CROZY'S DWARF—Handsome ornamental foliage plants. A fine assortment may be grown from seed.

Centaurea, H.A.

IMPERIALIS—Beautiful for cut flowers; plants three feet high. Graceful and beautiful. Fine mixture. Pkt., 6d.

AMERICANA—Unique, thistle-like flowers, light lilac colour; very desirable for table decorations. Pkt., 6d.

SAUVOLENS—Brush-like, large yellow flowers. Pkt., 6d.

CYANUS (Corn Flower) Double Blue—Pkt., 3d.

MARGUERITE—Double white, deliciously scented. Pkt., 3d.

Celosia, T.A. (Plumed). 6d.

MAGNIFICENT—Each branch or stem of this beautiful shrub is tipped with a pointed head of richly coloured bloom which later develops into a loose, plumed head of the most brilliant colours; shades of orange and yellow, pink, scarlet and crimson.

DWARF FEATHERED VARIETIES, MIXED—A fine collection.

PLUMOSA, or CHINESE WOOLFLOWER—We first saw this quaint new celosia at Floral Park, near New York, and greatly admired the beautiful ball-like heads of flower produced in profusion every tip of every plant.

We can now supply this beautiful annual in three colors. Pink, Crimson or Yellow. Pkt., 6d.

Celosia, T.A. (Cockscomb). 6d.

MAGNIFICA CRISTATA—Immense velvety heads very suitable for borders.

Carnations, H.P. (Marguerite)

The Marguerite Carnations are the most satisfactory variety to grow from seed; they flower in from three to four months, and quite a large percentage are double.

CHABAUD GIANT IMPROVED—A new carnation of the marguerite type coming into bloom 6 months from seed and producing very large flowers highly clove scented. About 90 per cent of the flowers come double. Pkt., 1/-.

CHOICEST MIXED—A very fine strain of American seed. Pkt., 6d.

GOOD MIXED—A fine selection. Pkt., 3d.

CHABAUD GIANT IMPROVED

Chrysanthemum. (Annuals)

INODORUM—Double white flowers; fine for cutting. Pkt., 6d.

TRICOLOUR, Annual—Single "Painted Daisies." Pkt., 3d.

CORONARIUM—Double Mixed annuals various colours. Pkt., 6d.

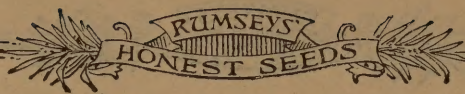

Chrysanthemum. (Perennial)

The results of growing the double Chinese and Japanese Chrysanthemum from seed are usually so poor that we advise customers to purchase plants of named sorts.

Cineraria

These were at one time looked upon as plants for the Greenhouse, but in our genial coastal climate they make fine bedding plants.

HYBRIDA CHOICE MIXED—Seed from a very fine collection of this beautiful flowering plant. Pkt., 1/6.

Coleus, T.A.

These also do as well in the garden, especially during summer, but as pot and house plants they may be grown indoors or on sheltered verandahs during the winter.

FINE MIXED—Various colours. Pkt., 6d.

FANCY FRINGED—Beautiful large leaves, cut and fringed on the borders. Pkt., 1/.

Corn—Burbank's Rainbow, T.A.

Leaves are beautifully striped like ribbons, in crimson, yellow, white, green, rose, and bronze. They retain colour when dried and pressed. Pkt., 6d.

Cosmos, H.A.

GIANT MIXTURE—Large, graceful flowers on immense bushes. Pkt., 6d.

EARLIEST MIXED—Fine, large, very early flowers, with a large number of colours and shades. Pkt., 6d.

DOUBLE CROWN—The flowers come in all types of double and semi-double, some like miniature dahlias, others like asters, and any of them forming the daintiest decorative flowers imaginable. Some of the best of these set so few seeds that it is almost impossible to reproduce them in quantities sufficient to offer separately. Pkt., 6d.

Clarkia, H.A. 6d.

DOUBLE MIXED—Rosy purple, rose, salmon white, etc.

Cleome, T.A. (Spider Flower). 6d.

These make a delightful annual hedge when planted out in spring about four feet apart. They are wonderful honey plants.

MIXED—Purple and White.

Cyclamen, P.B.

Beautiful verandah plants. Pkt. 1/.

Dahlia. (Perennial Bulb)

Dahlias give very satisfactory results when grown from seeds. The little plants nearly all flower the first season, but it is not until the second season that they reach full perfection.

DECORATIVE MIXED—Choice strain; best show types. Pkt. 1/.

POM POM—Small, neat, double flowered. Pkt. 6d.

CACTUS FLOWERED—Choice strain from double flowers. Pkt. 1/.

COLLARETTE—Doubles and semi-doubles; very handsome. Pkt. 6d.

PAEONY FLOWERED—A choice strain of this popular type. Pkt. 6d.

SINGLE MIXED—Useful for cut flowers. Pkt. 3d.

BORONIA MIXED—All types in mixture. Pkt. 6d.

Daisy, H.P. (Bellis Perennis). 6d.

FINE DOUBLE MIXED—Fine for borders.

Daisy, H.P. (Shasta). 6d.

ALASKA—Best florists strain. Fine large flowers with small centres. Pkt., 6d.; ½ oz., 3/; oz., 9/.

Datura, H.A. (Angel's Trumpet) 6d.

CORNUCOPIA (Horn of Plenty)—The Mouth of the trumpet is a creamy white, and the outside marbled with deep purple. Double mixed, Pkt. 6d.

Delphinium, H.P. (Perennial Larkspur)

Most beautiful spikes of flowers, ranging from white through all shades of blue to the deepest indigo, some of them with shadings of bronze. Once established they are a thing of beauty and a joy for ever.

HOLLYHOCK STRAIN MIXED—Wonderful type with stately spikes of large single, semi-double and double blooms. Pkt., 2/.

BELLADONNA IMPROVED—Greater than the old strain of this popular blue variety. Flowers larger and brighter. Pkt., 1/.

GOLD MEDAL MIXTURE—A splendid assortment, including the fine indigo blues, as well as the lighter colours. Best New Zealand seed in mixture. Pkt. 1/.

BLUE BUTTERFLY—A new neat and distinct class of delphinium, free blooming and a great acquisition. Pkt. 1/.

Dianthus, H.A. & P. (Pinks)

Some of the old favourite pinks have been improved, and new ones added to the list, making a wonderful variety of these deliciously scented flowers.

LACINIATUS MIRABILIS—Deeply fringed petals, two or three inches across; blotched and fringed. Pkt. 3d.

PICOTEE—A sweetly-scented, old fashioned type of Dianthus or Carnation. Very free flowering. Pkt. 1/.

CHINENSIS (Chinese Pinks)—Clusters of small flowers mostly edged with white. Pkt. 3d.

SNOWBALL—Large white double flowers with a delicious fragrance. Double, Pkt. 6d.

FORDHOOK FAVOURITES—An American selection of the largest and best single and double flowers. Pkt. 1/.

ALLWOODII—A recent English introduction of perennial double carnation-like dianthus, that blooms right through the season. All the flowers, which are of many colours, are deliciously scented. Pkt. 2/.

Diascia Barbarae, H.P.

A lovely dwarf plant with flower spikes 12 to 18 inches high. Rose pink blossoms with tint of salmon. Yellow throat dotted with apple green. Pkt. 1/.

Didiscus (Blue Lace Flower), H.H.A.

COERULEUS—A native of Western Australia. Very dainty. Pkt., 6d.

Digitalis, H.P. (Foxglove). 3d.

FINE MIXED—Immense spikes carrying a solid mass of beautifully spotted flowers.

Dimorphotheca, H.A., 6d.

AURIANTIACA—The Golden Orange Daisy. Large daisy-like flowers of a coppery gold colour.

AFRICAN DAISY HYBRIDS—A score of new colours of the above.

Dolichos (Bush). 6d.

WHITE—This is a true bush form of the beautiful "Daylight" climbing vine.

Eschscholtzia (California Poppy)

SUNSET MIXTURE—A blend of all the most recent colours and shades, including orange-king, rose cardinal, scarlet and yellow, yellow and orange-red, primrose and pure white. Beautiful new colours. Pkt. 6d.

Freesia (Hardy Bulb). 6d.
LORENYIANA HYBRIDS MIXED—A beautiful selection of color. Easily grown.

Forget-Me-Not, H.A. (Myosotis)
DWARF MIXED—Pkt. 6d.
PALUSTRIS—The true Forget-me-not. Pkt. 1/-.

Gaillardia, H.P. (Blanket Flower).
PICTA LORENZIANA—Large, gay-coloured double flowers. Pkts., 3d.
FINE MIXED—Large single flowers in blendings of red, scarlet, yellow and orange. Pkt. 3d.
KELWAY'S EXHIBITION—This variety is entirely distinct from the old race of Gaillardia. It has an enormous flower on long stems, and is very fine for cut-flower work. Our collection is saved from 12 different varieties. Mixed, 1/- per packet.
PORTOLA HYBRIDS—A new type of Gaillardia, golden yellow, marked with rich scarlet. Strong growth; free flowering. Pkt., 1/-.

Geranium, H.P.
FLORADALE FANCY—The flower trusses of this fine variety are from 4 to 6 inches in diameter, and the individual flowers are often 1½ inches across. This stain is one of the finest obtainable, and the variation in colours is very large. Pkt. 1/-.

Geum, H.P.
MRS. BRADSHAW—A pretty perennial shrub, with orange-scarlet flowers. Pkt. 1/-.
LADY STRATHEDEN—Beautiful semi-double bright yellow flowers carried on well branching plants. Pkt. 6d.

Godetia, H.A. 3d.
FINEST MIXED—Charming annuals with flowers like azalias in lovely shades of rose, carmine, pink, and white.

Gomphrena (Globe Amaranth)
GLOBOSA, Mixed—Purple everlasting flowers, often used for edging. Pkt. 3d.
DWARF COMPACT—A superior strain. Flowers of many colours. Pkt. 6d.

Gilia, H.A.
TRICOLOUR—Dwarf free-flowering plants. Pkt. 3d.

Gloxinia, T.P.
GRANDIFLORA HYBRIDS MIXED—Finest selection. Large blooms. Must be grown in bushhouse or frame. Pkt., 2/6.

Gladiolus (Hardy Bulb).
FORDHOOK HYBRIDS—A most glorious collection of these beautiful flowers. We have flowered them in four months, from seed; most of the seedlings flower the first year, but the blooms improve in the second year. We could occupy a whole page in describing these flowers without doing full justice to them. Pkt. 1/-.
 SEE COLOURED PLATE PAGE 47.

Gypsophylla, H.A. (Baby's Breath)
ELEGANS—Rose-coloured flowers. Pkt. 6d.
COVENT GARDEN—Sprays of wee, white flowers used for making up bunches of sweet peas and other lowers. Pkt. 6d.

Heliotrope, H.P. (Cherry Pie)
LEMOINE'S GIANT HYBRID—Of wonderful size and rare beauty. Colours from white through all shades of violet and blue to deep indigo. Pkt. 1/-.

Helianthus (Sunflower)
NEW RED—Chestnut red, tipped with yellow. Pkt. 6d.
CHRYSANTHEMUM FLOWERED—Perfectly double. Pkt. 6d.
SEEDLINGS OF STELLA—Diversified in form and habit; fine markings, primrose and lemon. Pkt. 6d.
MULTIFLORA, Double—Very showy; tall. Pkt. 6d.
SILVER LEAFED—Pretty foliage. Pkt. 6d.
MINIATURE—Useful for cut flowers. Pkt., 3d.
LARGE RUSSIAN—Pkt. 3d. For large lots see farm seeds.

Helychrysum, H.A. (Everlasting).
MONSTROSUM, Mixed—Hardy, free blooming useful. Pkt. 3d.

Hibiscus, H.P.
GIANT MIXED—Moscheutos hybrids are very hardy and form large flowers on canes, 4 to 6 feet long. Bloom throughout summer. Pkt., 6d.

Hollyhock
SINGLE MIXED—The single varieties flower more continuously than the doubles, and are very showy in the border. All colors mixed. Pkt. 6d.
CHATERS DOUBLE—Beautiful long spikes, crowded with double flowers, three to four inches across, all of the brightest colours. White, light pink, maroon, rose, scarlet and yellow mixed Pkt. 6d.
ALLEGHENY MIXED—Flowers are distinct in having edges of the petals finely fringed. They are large sized, semi-double, and show effectively the fringed character of the petals; a good range of soft rich colourings. Pkt. 1/-.

Honesty, H.B. (Satin Flower). 6d.
 The silvery centre of the seed pods is used for decorative purposes.

Hunnemanian, H.P. (Santa Barbara Poppy) 6d.
FUMARIAEFOLIA—Single, poppy-like flowers. Fine for cut flowers.

Iris (Hardy Bulb). 6d.
KAEMPFERI—The beautiful Japanese Iris.

Kaulfussia, H.A. 6d.
AMELLODES—Blue; good for edging.

Kochia, H.A. (Mexican Fire Plant).
TRICOPHYLLA CHILDSII—A larger, bushier form, staying green much longer. Pkt., 6d.
TRYCOPHYLLA—An annual shrub; very decorative. Pkt. 6d.

Lobelia, H.A. (Edging Plant). 6d.
 Lovely bedding plants with blue flowers.

Leptosyne, H.P. (Yellow Marguerite) 6d.

MARITIMA—Showy border plant; large flowers.

Linaria, H.A. (Toad Flax). 6d.

EXCELSIOR MIXED—New hybrids of this remarkable Lobelia-like flower.

Linum, H.A. & P. (Flax). 3d.
GRANDIFLORUM RUBRUM—Annual crimson flax; beautiful and very showy.

PERENNIAL MIXED—Various colours. Pkt.

Lynchnis, H.P. (Chinese Catchfly)
CHALCEDONICA—Bright scarlet; good for borders and shrubberies; also for cut flowers. Pkt., 6d.

Mesembryanthemum, H.P.
CRYETALLINUM—Ice Plant.—Used for hanging baskets. Pkt., 6d.
TRICOLOUR MIXED—Trailers, having flowers of various shades of pink, carmine and red. Excellent for rockery work, and are at their best during hot weather. Pkt., 6d.; ½ oz., 3/6.

Larkspur, H.A.

DOUBLE DWARF ROCKET—The branching spikes are thickly set with fine double flowers in varied colours. Pkt., 3d.

TALL BRANCHING—Double stock flowered. The old larkspur with its rather straggly flower spikes has never been very popular as a cut flower, but by careful breeding and selection new varieties have been evolved which are a great improvement. The colours are more varied and the individual florets larger and more beautiful.

Separate Colours—Dark blue, Lilac, Lustrous Carmine, Exquisite Pink Improved, Sky Blue and White, all at 6d. per packet.

Mixed Colours—Small packets of all the above colours mixed. 3d. packet.

Collection.—1 packet of each separate colours for 2/.

LARKSPUR TALL-BRANCHING

African Marigolds, H.A. (Tall). 6d.

LEMON BALL—Petals heavily rolled, and flowers ball-like in form; very beautiful.

ORANGE BALL—A rich, brilliant orange.

French Marigolds, H.A.

GIANT TREE—(4ft. High). Hardy and very free flowering. Good cut flower line. Pkt., 6d.

LEGION OF HONOR—Bright single flowers. Pkt. 6d.

DOUBLE MIXED—All colours. Pkt. 3d.

Matricaria, H.A. (Snowball) 6d.

EXIMIA—Double White.

GOLDEN BALL—Fine yellow variety.

Marguerite Daisy, H.P. 6d.

CHRYSANthemum FRUTESCENS—Bushy perennials; showy flowers.

Mathiola Bicornis (Evening Scented Stock). 3d.

Fragrant pink and lilac flowers, opening at night.

Mignonette, H.A.

WHITE PEARL—Large, white sweet scented trusses. Pkt., 6d.

GOLIATH—Robust growth, spreading form; the large spikes frequently measure five inches in diameter. Pkt. 6d.

MACHET—Deliciously scented grey flowers. Pkt. 3d.

GOLDEN QUEEN—Florets golden yellow; scented. Pkt. 3d.

FORDHOOK MIXTURE—Embracing some of the finest types. Pkt. 6d.

Mimulus (Musk), Tender Pot Plants. 6d.

MOSCHATIS—Well known perennial.

TIGRINUS—Monkey Musk; annual; flowers tiger spotted and blotched.

Dwarf Nasturtiums

DAVID BURPEE—Quite a distinct type of the dwarf Nasturtium. The plant makes a symmetrical bush of perfectly round formation. Pkt., 6d.

GORGEOUS MIXTURE—Dwarf; brilliant flowers. This mixture includes all the showy varieties of dwarf Nasturtiums with both light and dark foliage. Pkt., 6d.

Tall Nasturtiums, H.A.

FORDHOOK FAVOURITE MIXTURE—A truly giant race, comprising a large variety of colours in flowers of fine size.

Pkt., 6d.

IVY LEAFED—Distinct in both flower and leaf. Mixed. Pkt. 1/.

ORNAMENTAL LEAVED—Foliage yellow, white and green; flowers many bright, charming colours. Pkt. 1/.

Nemesia, H.A. 6d.

Dainty, compact growing annuals, flowering freely in many colours—white, pale yellow, purple, blood-red, rich orange, carmine, pink, rose, red, scarlet and crimson, spotted and blotched.

Nemophila, H.A. 3d.

MIXED—Shade loving plants, dainty sky-blue flowers.

Nigella, H.A. (Love-in-a-mist) 6d.

MISS JEKYLL—A beautiful double cornflower blue.

DOUBLE WHITE—The best white, flowers peeping from beautiful graceful foliage.

Oenothera (Evening Primrose) 3d.

MIXED—Free flowering bright flowers.

Pentstemon, H.P.

FLORADALE FANCY—A most beautiful collection of this Gloxinia-like flower, producing large flower spikes of beautiful colours, both light and dark, and twice the size of the older strains. Pkt. 1/.

GOOD MIXED—A choice assortment. Pkt. 6d.

Perilla, H.A. 6d.

Beautiful dark-leaved foliage plants.

Phacelia, H.A. 6d.

CAMPANULARIA—Beautiful blue flowers.

Pansies, H.A.

MASTODEN MIXTURE—The Mastoden Pansies are of enormous size, and of great variety. They include white and dark centre, dark blue centre, and light blue centre, pure white, black, lavender, violet, blue, bronze, Royal purple, rose, cerise red, red with silver rim, mahogany, yellow, wine-coloured, red and gold, lavender and gold, with many varieties in each colour. Packets at 1/- and 2/6.

MASTODEN MASTERPIECE—A race of giant ruffled pansies, in rich, dark shades, blotched and marbled. Pkts., 2/- and 5/-.

LARGE FRENCH STAINED—A fine strain of exhibition pansies with beautiful markings and rich colours. Pkt., 1/-.

EXTRA FINE BEDDING MIXED—Bloom profusely, and for a long time. Includes a large range of colours. Pkt. 6d.

GOOD MIXED—A fine mixture. Pkt. 3d.

Iceland Poppies

This beautiful variety of perennial poppy has proved very suitable for bedding, and cut flowers in our climate.

SUNBEAM—An extra fine strain of Iceland Poppy, particularly fine for cut flowers. The long stems and large blooms are quite distinctive. Pkt., 1/-.

COONARA PINKS—An Iceland Poppy of exceptional value to florists. Colour bright pink. Pkt. 1/-.

SUNBEAM GIANT ORANGE—A fine new cut flower-growers poppy, not only larger than ordinary, but the stems are long, and the flowers have up to eight petals, giving them a double appearance. There are various shades of orange blending well together. Pkt., 1/-. Florists pkts., 2/6.

GOOD MIXED—Special giant flowered strain. White, Pink and Yellow, mixed. Pkt., 6d.

Poppies, H.A. & P.

AMERICAN LEGION (New Shirley)—The bright scarlet-red blossoms are most brilliant in full sunshine, a popular shade. Pkt., 6d.

DANISH FLAG—Striking single red flowers with attractive fringed edges, four white spots in centre form a white cross on a scarlet field. Pkt. 6d.

SHIRLEY (Re-selected)—All who have admired the delicate beauty of the Shirley Poppy will be delighted with this re-selected strain, of the finest colour. Pkt. 6d.

TULIP—Intense scarlet; enormous. Pkt. 3d.

DOUBLE CARNATION FLOWERED—Of dazzling richness, and in great variety of colours, white rose, scarlet, lilac, steel blue, and mahogany. Mixed, Pkt. 6d.

FORDHOOK FAIRIES—Beautiful Double Poppies. Pkt. 6d.

PERENNIAL HYBRIDS—Fine flowers for cutting shades of yellow and white, keep well in water. Pkt. 6d.

Physalis Francheti, H.P.

CHINESE LANTERN PLANT—This ornamental variety of Cape Gooseberry is very useful and bears numerous fruits carried in a red husk giving them the appearance of Chinese Lanterns.

Polyanthus, H.P.

The old favourite of English gardens. Mixed colours 6d.

Portulacca, H.H.A.

DOUBLE ROSE FLOWERED, MIXED—A fine strain, with very brilliant flowers in many colours. Fine for bedding. Pkt. 1/-.

GIANT PARANA—A quite distinct colour from other portulaccas. Bright bluish rose, making a most effective display through the summer. Pkt. 6d.

SINGLE MIXED—Various colours Pkt. 3d.

Primula, H.H.A.

MALACOIDES—This half-hardy Primula has been largely used as an edging or bedding in the garden, particularly in the coastal and warmer portions of New South Wales. It makes a very fine, showy bed, and does not grow too large. Mixed colours. Pkt., 6d.

SINENSIS—The Chinese primula is harder than the English primrose in our warm climate and makes a very fine pot-plant for winter flowering or for bedding. It does best in a shady position. Mixed colours. Pkt. 6d.

SINENSIS STELLATA MIXED—A very pretty starred form of the Chinese Primula. Pkt., 6d.

Petunias, H.P.

DEFIANCE PETUNIA

SELECTED DOUBLE—A good, French strain. Showing a small percentage of doubles which should be propagated from cuttings when proved. Pkt. 1/6.

LARGE FLOWERING DEFIANCE—Flowers up to 5 inches in diameter, indescribably rich and varied. Pkt. 1/6.

ROSY MORN—A beautiful flower with a silvery white throat shading to rose pink on the edges. Pkt., 6d.

ENCHANTRESS MIXTURE—A mixture of all the best varieties of bedding petunia. Pkt. 6d.

GOOD MIXED—Ordinary petunias in good mixture. Pkt. 3d.

Pyrethum, H.P.

AUREUM (Golden Feather)—Pretty foliage plant. Pkt. 3d.

ROSEUM—Pretty single flowers of various colours. Pkt. 6d.

ROSEUM DOUBLE—A magnificent collection of new types of the hybrid perennial double pyrethums. Pkt. 1/-.

Ranunculus. (Hardy Bulb).

GIANT MASSY MIXED—A beautiful new strain of this splendid spring flowering bulb. 6d.

Rhodanthe H.A. 3d.

MIXED—Everlastings in various colours.

Rudbeckia, H.A. (Cone Flower). 6d.

SPECIOSA BICOLOUR—Large flowers on long stems.

Salvia, H.P. (Flowering Sage) 6d.

The well-known, startlingly brilliant hedge plant or border bush.

FARCINACEA—Blue.

SPLENDENS—The most vivid scarlet.

We can also supply **Blood Red**, 6d., and **Bonfire**, 1/- pkt.

Salpiglossis, H.A. (Velvet Flower)

EMPEROR—Very large, petunia shaped flowers with brilliant veinings. Many colours. 6d.

GOOD MIXED—Various colours. 6d.

Sanvitalia Procumbens

A very charming little annual of dwarf growth, producing double flowers not unlike yellow zinnias. Pkt. 6d.

Schizanthus (Butterfly Flower)

"The poor man's orchid."

WISSETONIENSIS HYBRIDS—Most beautiful pot plants for the verandah or bush house; great variety of flowers. 1/-.

DWARF HYBRIDS—About 12 inches high fine colours. 3d.

Scabiosa H.A. & P. (Pincushion)

The Pincushions or Mourning Bride are amongst the most useful and hardy of cut flowers

PEACH BLOSSOM—Pink, 6d.

SHASTA—White, 6d.

TALL DOUBLE ROSE—A delicate shade of rich rose, an unusual colour in scabious. 6d.

DOUBLE BLACK—A tall variety with deep bluish purple flowers and white pistils, very free bloomer. 6d.

DOUBLE RED—A very rich red, large and double. 6d.

AZURE FAIRY—Beautiful double flowers of a sky-blue colour. 6d.

TALL DOUBLE MIXED—Pkt., 3d. and 2/6.

DOUBLE DWARF MIXED—Fine for bedding. 6d.

CAUCASIA—A perennial with flowers of a very pleasing light blue in colour. Plants 2ft. high. 6d.

Sidalcea, H.P.

STARK'S HYBRIDS—Does best in cool districts Pkt., 1/-.

Stevia, H.P. 6d.

SERRATA—Tiny star-shaped, pure white flowers.

Statice, H.P. (Sea Lavender). 6d.

Everlasting flowers; fine for cutting. We can supply Rose, True Blue and White.

Large Flowering Stocks

We do not offer any cheap seed of this favourite flower, it is difficult enough to secure a supply of doubles from the best seeds without spending time and money on what may prove a disappointment.

Ten Weeks Varieties—

We are stocking three separate strains American, English and French, the best available of each, and would advise customers who want to secure a fine assortment of the best doubles, to get a packet of each.

LARGE FLOWERING AMERICAN DWARF, Double—Including White, Canary-Yellow, bright pink, blood red, light blue and purple. Packets 6d and 2/6.

KELWAY'S SPECIAL—A special selection of the best English variety of double ten weeks stock in a large variety of colours, 1/- and 2/6.

LARGE FLOWERING FRENCH DOUBLE TEN WEEKS—A mixture from a collection containing blood red, bright rose, brown, red, carmine red, chamois, cropper carmine, copper rose, dark blood red, dark violet, grey red, light violet, pure white, rose, rosy white, and violet rose. 6d. and 2/6.

MAMMOTH NICE SELECTION

1 packet each of the 6 separate colors for 2/6

Perpetual Varieties—

DOUBLE PERPETUAL BRANCHING—A fine group, especially for florists. Very early and free blooming. Produces a high percentage of doubles. We can supply Rose, Silvery Lilac, Canary Yellow, Blood Red, Snowdrift, Flesh, Violet, and mixed. 6d. packet.

PERPETUAL BRANCHING COLLECTION

1 packet each of the above seven separate colors for 2/6

INTERMEDIATE VARIETIES

MAMMOTH BEAUTY OF "NICE"—These are the finest of all the stocks for cut flowers; they produce a very large percentage of double flowers, and although they will frequently flower the second year, they are best treated as annuals.

Colours—White, Rosy Lilac, Light Blue, Flesh Pink, Crimson, Canary and mixed. 6d. packet.

BROMPTON—Extra choice. Some of the best varieties for flowering for several years in succession. 6d.

Snapdragons (*Antirrhinum*)

TALL LARGE-FLOWERING GIANTS

BURPEE'S GIANT—We have tried to give some idea of the grace and beauty of these wonderful snapdragons in the colour plate on the opposite page, but although it depicts the natural colours as well as the artist can paint them, nothing but the flowers themselves will give any idea of the great improvements made recently in these most useful flowers.

Our sales of this snapdragon have been phenomenal. We have not only sold hundreds of packets to private gardeners, but such varieties as Sunnysbrook and Fordhook Rose have been in great demand for the cut-flower trade.

Apple Blossom

A delicate apple blossom pink with a contrasting yellow lip. A magnificent variety with well shaped flowers of immense size. Borne in long, solid spikes. Pkt., 1/- Florists pkt., 2/6.

Sunnysbrook

One of the richest and brightest of the giants. A blend of deep golden yellow, salmon and light orange. Solid and heavy spikes of massive blooms. 1/- pkt. Trade packet, 2/6.

Fordhook Rose

A beautiful pink with a yellow spot on the lip. 1/- pkt. Trade packet, 2/6.

Canary Bird

A popular and showy variety. Bright canary yellow, with a golden touch on the lip. 1/- pkt. Trade packet, 2/6.

Orchid

A unique shade of lovely mauve-pink, with a touch of yellow on the lip. 1/- pkt. Trade packet, 2/6.

Ruby

The darkest of this series. A distinct shade of deep glowing ruby-red. The tube is shaded with deep purple-carmine. The rich colours give it quite a velvety appearance. 1/- pkt. Trade packet, 2/6.

Wallflower

Rich coppery crimson and yellow, reminding us of its namesake. Giant flowered and free blooming. 1/- pkt. Trade packet, 2/6.

Giant Mixture

A fine blend of all the colours illustrated and many others. Quite satisfactory as the named sorts for the small garden. 1/- pkt. Trade packet, 2/6.

Splashed and Striped Mixed—Very pleasing variety of colours. Pkt., 6d.

COLOR PLATE COLLECTION

One packet of each of the named sorts illustrated, 6 six packets for 4/6.

INTERMEDIATE VARIETIES

Philadelphia Pink

This ranks among the best of the Intermediate varieties. Massive spikes covered with rich silver-pink flowers. Florists variety.

1/- pkt. Florists pkt., 2/6.

Half Dwarf Fancy Mixed—Includes beautiful rich scarlet, fiery vermilion, rich rose, soft pink, salmon, buff, yellow, golden chamois and others, flowering profusely. The half-dwarf varieties are about the best for bedding and bordering purposes, and produce stems of flowers long enough for cutting, though not as large as the giant varieties. Our mixture contains nearly thirty varieties of shade and colour. 1/- per pkt. Bedding packet, 2/6.

Kelway's Up-to-Date—A new strain of intermediate snapdragon of uniform height, and habit of growth. The range of colours is very varied, and the blossoms very fine for cut flower work. 6d. per packet.

DWARF MIXED—Compact habit, brilliant flowers. 3d. per packet.

BEAUTIFUL STOCKS

Copy of letter received from Mrs. W. Green, "Highclere," Old Prospect Rd., Wentworthville, December 13th, 1929

"Dear Sir,

I am writing to ask you to send me 4 1/- packets of the Beauty of Nice Stock seed. I had some seed from you last year and I had the most beautiful stocks around here. I only had 1/- packet, but I got about 14 different colours and only 6 single plants. My sister-in-law wants 2/- worth, and I will have 2/- worth myself. Everyone was asking me where I got the seed from, I gave them your address, so I hope you will get a few orders for seed. They were the tall branching Nice stocks I had."

Giant SNAPDRAGONS

*Canary
Bird*

Orchid

Ruby

Wallflower

Sunnybrook

PINK PEARL

Giant Hybrid Lupins

Pkt., 6d.; oz., 2/-.

Pink Pearl.—One of the best things in cut flower line we have ever introduced. Sown about February, this beautiful annual will flower right through the winter in all but the colder localities.

White Pearl.—Equal to Pink Pearl for size of bloom.

Blue Pearl.—Similar in size and form to the Pink Pearl, but blue in colour.

MIXED.—Pink, Blue and White

Lupin, H.A. & P.

YELLOW TREE.—A distinct variety, very hardy. Pkt., 6d.

ANNUALS MIXED.—Fine for cutting. Pkt. 6d.

PERENNIALS, MIXED.—Producing fine spikes of flowers. Pkt. 6d.

PHLOX DRUMMONDI

Fordhook Finest Mixed

A blend of the tall annual phloxes on the opposite page as well as other shades. Pkt., 6d.

Drummond Choice Mixed

A good assortment of the older type of phlox in various colours. Pkt., 3d.

Starred and Fringed

A large variety of these quaint hairy looking flowers in many colours. Pkt., 6d.

LUPIN COLLECTION

Our special collection. One packet of each. Pink, Blue and White Pearl for 1/-, post paid.

Phlox (Continued)

COLOURED PLATE COLLECTION

Apricot

A truly glorious shade of chamois-rose with a pure white eye in the centre.

Fordhook Crimson

A beautiful shade of crimson which combines well in mixed beds with other colours. Immense flower heads.

Fordhook Lilac

A bright soft lilac, set off by a white eye in centre of the flower.

Splendens

A brilliant variety of bright rich red with a contrasting small white eye in the centre of each floret. Excellent for bedding or cutting.

Giant White

Magnificent heads composed of many white flowers. A very useful variety.

Violet

Large flowers of a uniformity coloured bright violet. A free and continuous bloomer.

Colourplate varieties 6d. and 2/6

Oriole

Stokesia, H.P. 6d.

CYANUS (Cornflower Aster).—A very fine plant producing an abundance of lavender flowers.

Sunflower—See Helianthus.

Sweet Peas—See pages 40 and 41.

Sweet Sultan—See Centaurea

Sweet William, H.P. (Dianthus Barbatum)

The old fashioned Sweet Williams should be in every garden, and particularly in the cooler districts, where they are very hardy. They produce the greatest variety of colour imaginable, and keep on flowering for a long time.

CHOICE SINGLE—Mixed colours. Pkt., 3d.

DOUBLE MIXED—Many colours. Pkt., 6d.

Thalictrum (Herb. P.) 6d.

DIPTEROCARPUM (Lavender shower bush).—Herbaceous perennial shrub, with ornamental leaves and lavender or purple flowers on long stems. It makes a good showy verandah plant.

ADIANTIFOLIUM—The flowers are pale yellow, with dainty fern like foliage.

Tithonia

SPECIOSA (Mexican Sunflower), 6d.

Torenia, Fournieri: T.A.

A very charming plant seldom seen, but very useful for beds or borders, or even for pot culture. The flowers are a velvety blue, with three large spots of darkest blue, and a bright yellow throat. 1/6 packet.

Viola, H.A.

The old-fashioned Heartsease or Viola has come back into favour again, it makes a fine winter flowering bedding or border plant and does well in summer in the highlands. Mixed colours. 6d.

Verbena H.P. (Trailing Plant) 6d.

FORDHOOK FAMOUS—A fine American collection of seeds in many colours, and of very fine size and brilliancy.

CHOICE MIXED—Large flowers of various colours, with white centres.

NEW VERBENAS OF EXCEPTIONAL MERIT

HYBRIDA GRANDIFLORA ROYALE—Rich deep royal blue large creamy yellow eye. Enormous size individual florets, measure up to 1½ ins. across. Pkt., 1/6.

HYBRIDA GRANDIFLORA ETNA—Large trusses of intense geranium red, small creamy yellow eye. Pkt., 1/6.

Virginia Stock, H.A. (Hesperis)

MIXED—Red and white, 6d.

Vinca, H.P. (Periwinkle) 6d.

Splendid bedding or verandah plants.

Viscaria, H.A.

MIXED—Suitable for beds or borders. Showy five petalled flowers in many colors. Pkt., 6d.

Wallflower, H.B.

KELWAY'S—Magnificent—Prize Double 1/.

SINGLE MIXED—Various shades of yellow, red and brown. Pkt., 6d.

DOUBLE MIXED—A very fine collection. 6d.

AURICULA EYED—Distinct and beautiful. 6d.

ANNUAL NEW—An entirely new type of Sweet William. Blooms freely first year from seed sown in early spring. Includes a wide range of colours. 6d.

Zinnia, H.A.

GIANT DAHLIA FLOWERED—Flowers of immense size, born on good sturdy stems. Plants make a compact bush 2ft. tall. A decided improvement on old types of Zinnia.

Separate Colors—See Color Plate. Exquisite rose; Dream, deep lavender; Canary Bird, primrose; Polar Bear, white; Crimson Monarch; Oriole, golden orange. Pkts. 1/ and 2/6; ½ oz., 7/6; oz., 13/6.

Special Mixed—A fine assortment of the best colors. Pkts., 1/ and 2/6; ½ oz., 4/9; oz., 9/.

NEW GIANTS OF CALIFORNIA—A magnificent new strain of Zinnias having large symmetrical flowers differing from the Giant Mammoth type, in that they are more loosely petalled, and more flattened in the centre. A very vigorous type, bushes growing 3 to 4 feet tall and 2 to 3 feet in diameter.

Enchantress—Rose-pink, Scarlet Gem, Rose Queen, Orange King, Purity-white, Lemon Queen. Pkt., 1/ ½ oz., 4/6; oz., 7/6. Mixed, Pkt., 6d.; ½ oz., 2/6; oz., 4/6.

GIANTS OF CALIFORNIA COLLECTION

1 packet each of above 6 separate colors for 4/6.

GIANT MAMMOTH MIXED—Glorious huge flowers in bright colors. Fine for cutting. Pkt., 6d.; ½ oz., 3/6; oz., 6/6.

CHOICE DOUBLE MIXED—Various colours. 3d.

DOUBLE STRIPED or ZEBRA—Fine large blooms. 6d.

DOUBLE POMPOM—Mixed colours; choice. 6d.

MEXICAN—This is quite a new race of small Zinnias of great beauty. For bedding and bordering purposes they are unsurpassed. While sufficiently of the form of the old Zinnias to indentify them, they are dwarf, and quite distinct from them and they vary in colour and markings, being mostly yellow and orange, but many having quite distinct purple markings. Pkt. 6d.

JUMBLE PACKET—A mixed packet of flower seeds containing over 200 varieties. Suitable for children's gardens and waste corners. Pkt., 6d.

Copy of letter received from Mr. J. O., Mascot
6/2/30

Can you please send me two trade packets of Giant Dahlia Flowered Zinnias, the same seed that you sent me before, as they are the best that has been seen round here. If you can send that same sort will you let me know, and I will send money as I will keep them for next year.

Sweet Peas

Early or Winter Flowering Spencers

For best results sow from January to June
and have blooms throughout Winter and Spring

Outstanding

Introductions for 1930

1 Packet of each for 10/6

BLUE BONNET—Large fine deep blue. Not the slightest trace of mauve. Vigorous, long stemmed with many fours. Pkt., 2/; oz., 10/.

MRS. HERBERT HOOVER (The California Blue)—True blue colour, even better than Bluebird. Introduced by Burpee this year. Awarded gold medal, two silver medals, and certificate of merit. Pkt., 2/; oz., 7/6.

SUNRAY—Soft orange cerise on cream ground; stems long; well into season. Pkt., 2/; oz., 10/.

VALENCIA—Bright orange. Differs from other varieties of this colour in being vigorous, and large flowers are on long stems. Claimed to be sunproof. Pkt., 2/; oz., 10/.

MARINE—Largest true blue introduced. Standard, over 2½ inches; good stems; certificate of merit. Pkt., 2/; oz., 10/.

BURPEE'S LAVENDER—Combination of length of stem, size of flower, purity of colour, and vigor, makes this great for cutting. Pkt., 2/; oz., 7/6.

ORIENTAL—Clear, deep cream blooms on long stems; many fours. Many standards are duplex, so that smaller number necessary to make a bunch. Pkt., 2/; oz., 10/.

Recent Introductions

1 Packet of each for 5/-

DUPLEX GEM—A soft rose pink on flesh ground, made more lovely by the duplex effect. Enormous flowers. Pkt., 1/6; oz., 4/6.

DUPLEX PIONEER—Another rose pink double flower with a profusion of flowers on long stems. Pkt., 1/6; oz., 4/6.

SPRINGSONG—A rich rose pink flushed with salmon. Beautifully waved or frilled. Pkt., 1/; oz., 4/.

AMERICAN CHARM—A rich rose pink with sheer of salmon. A florists flower. Pkt., 1/; oz., 4/.

GLEAM—Large flowers of Geranium pink with an effusion of cherry pink. Pkt., 1/; oz., 4/.

General List

ORANGE KING—A beautiful glowing orange, and practically sunproof. The flowers are produced in bunches of four on long stems. A spray of this variety under artificial light is glorious. The richest and deepest orange-coloured winter sweet pea yet introduced. Pkt., 6d.; oz., 4/.

SUPERIOR PINK—Beautiful rose pink, slightly flushed with salmon and without blue tints. Pkt., 6d.; oz., 3/6.

SNOWSTORM—This is by far the finest of all white winter flowering varieties. The flowers are extra large and of fine form. Pkt., 6d.; oz., 3/6.

MISS LOUISE GUDE—The colour of this lovely variety is a charming shell-pink throughout. Pkt., 6d.; oz., 3/6.

CHEVALIER—A true rose colour with just a suspicion of yellow toward the base. The flowers are of extreme size and well waved. Pkt., 6d.; oz., 3/6.

BLUEBIRD—This is a charming shade of blue, large and exquisitely waved. Blooms freely and continuously. Pkt., 6d.; oz., 3/6.

LAVENDER KING—A rich true deep lavender throughout. The fragrant flowers are of large size and beautifully waved form. Pkt., 6d.; oz., 3/6.

GLITTERS—Glitters and scintillates, with a fire-like sheen radiating over the flowers. The standard is a bright fiery orange and the wings are deep orange. Pkt., 6d.; oz., 3/6.

FLAMINGO—The broad and well waved standard is light orange with a suffusion of bright salmon. The wings are orange-pink. Pkt., 6d.; oz., 3/6.

VULCAN—Dazzling scarlet cerise—a colour sure to become very popular on account of its richness. The whole flower is suffused orange. Pkt., 6d.; oz., 3/6.

CRIMSON QUEEN—The best of all crimson varieties. Pkt., 6d.; oz., 3/6.

GRENADIER—Large flowers of rich poppy scarlet—long stems. Pkt., 6d.; oz., 4/.

BEST 12 COLLECTION

1 packet of each of the above for 5/-

½-oz. of each of the above for 11/6

PINK CHEROKEE—A variety of surpassing beauty; a fine pink suffused with salmon on a deep cream ground of vigorous, robust habit. Pkt., 6d.; oz., 4/.

WHITE HARMONY—Stems long, flowers large and pure white, of grand substance. Pkt., 6d.; oz., 4/.

BRIGHT LIGHT—Flaming self scarlet, sun proof. Pkt., 6d.; oz., 4/.

GIANT ROSE—Immense rose coloured flowers, as many as 5 on a stem. Pkt., 6d.; oz., 4/.

SUNLIGHT—Bright rose-pink on cream-ground. The standard is an intense pink with a slightly richer tone in the wings. A most admirable flower. Pkt., 6d.; oz., 4/.

Sweet Peas—continued

Winter Flowering

Sweet Peas

AUSTRALIAN WINTER MIXED—Packets 1/- oz., 3/6.

AMERICAN WINTER MIXED—Packets 1/- oz., 2/6.

MASCOT MIXTURE—6d. oz., 2/6.

SPENCER
SWEET PEA

SUMMER FLOWERING COLLECTION

1 packet of each of six separate colours for
2/-. (Post Paid).

SWEET PEA CULTURAL LEAFLET
SUPPLIED ON REQUEST

Summer Flowering

Spencers

These are still the best sweet peas for spring sowing in the mountains and cooler parts of Australia.

Will produce magnificent flowers right up to Christmas from Spring planting. From later planting they will keep a succession until late Autumn.

Price:—Pkt., 6d.; oz., 1/6.

King White

Remarkable for the glistening purity of its whiteness and perfect finish of its mammoth size flowers.

Picture

A charming combination of cream and pink shades with a deeper flush on the wings. Large, well rounded, and beautifully waved blooms.

Mrs. Tom Jones

A bright Delphinium blue with flowers of large size and substance.

Powerscourt

A pure lavender variety with flowers of mammoth size yet refined and well placed on long stems. We recommend this as one of the best.

Royal Scot

A popular sweet pea with brilliant and lustrous orange-scarlet flowers with a deep cerise sheen. Large, well waved of good proportions.

Charity

The blooms are rich brilliant crimson, a colour which does not fade in the sun.

Burpee Blend

Summer flowering Spencers. A very fine mixture of all the best sweet peas of this type. There are hundreds of varieties in the collection from which this mixture is made. 6d per packet. Oz., 1/6.

Sunset Mixture

A good assortment of different colours. 6d. per packet. Oz., 1/6.

Say It With Flowers . . .

If you have friends sailing from Sydney, or if you wish to send greetings, there is no finer way of expressing your feelings than to give flowers.

To aid country clients, we have made arrangements with reliable City florists to deliver our orders.

Just post us 7/6, 10/6, 12/6, 15/6 or 20/6 and instructions. We will see to the rest.

Seeds of Climbing Plants

Aristolochia, Siphon

DUTCHMAN'S PIPE—Pretty climber, yellow and purple. Pkt., 6d.

Asparagus

Fern-leaved, a mixture of several of these hardy foliage plants. Pkt. 6d.

Balloon Vine

CARDIOSPERMUM or "Love in a Puff"—A graceful climber of rapid growth. Pkt., 6d.

Bignonia Tweediana, H.P.

CHICKEN'S CLAW—Large yellow trumpet flowers and long seed pods. Evergreen. Pkt., 6d.

Cardinal Climber. (Ipomea cardinalis.)

The most beautiful annual that has been introduced for many a year.

The vines grow rampantly, and are always covered with a wealth of the beautiful blossom; as fast as one flower dies, there is another to take its place. Seed, Pkt. 6d.

Plants, from October to January, 6 for 1/6, post paid.

Canary Bird Creeper

A handsome climber with handsomely fringed yellow flowers and delicate foliage. Pkt., 6d.

Centrosema

BUTTERFLY PEA—A graceful creeper with pretty sweet pea like flowers. Pkt., 6d.

Coboea Scandens

A rapid growing climber, with large bell-shaped flowers of a deep purple colour. Pkt., 6d.

Convolvulus

MINOR—Pretty low trailing plant. Pkt., 3d.

MAJOR—A very showy annual. Pkt., 3d.

Cypress Vine

A pretty creeper with delicate fern-like foliage, and beautiful star-shaped flowers. Pkt., 6d.

Clianthus

DAMPIERII—This is the well-known Desert Pea. Its huge, unique flowers are particularly striking. Pkt., 1/6.

PUNICEUS—New Zealand Glory Pea. Pkt., 1/6.

Dolichos

DAYLIGHT—Fine spikes of snow white flowers. Pkt. 6d.

DARKNESS—Flowers reddish violet; pods same colour. Pkt. 6d.

LIGNOSUS—About the most rampant perennial climber and freest bloomer there is; useful for covering sheds.

Pink and White. Pkt., 6d.

Eccremocarpus

A very fast, free-flowering creeper, graceful and beautiful. Pkt., 6d.

Ipomea

Mixed kinds, free flowering, convolvulus-like climbers. Pkt., 6d.

Kennedy Monophylla

A native trailer with sarsaparilla-like leaves and blue flowers. Perennial and hardy. Pkt., 6d.

Kudzu Vine, H.P. 6d

Grows to a great height; both useful and ornamental.

Lathyrus Latifolius

Perennial Pea. Live year after year, bearing beautiful clusters of flowers; mixed. Pkt., 6d.

Lathyrus Pubescens

A beautiful blue perennial pea. Free climber. Pkt., 1/6.

Linaria Cymbalaria

Kenilworth Ivy. Trailing perennial. Used for hanging baskets. Pkt., 6d.

Lopospermum Scandens

One of the most beautiful climbing annuals; graceful fox-glove like flowers, rich rosy purple. Pkt., 6d.

Mandevilla

A hardy climber, with large snow-white jessamine like flowers, deliciously scented. Pkt., 6d.

Maurandia

Elegant alike in flower and foliage; suited for vases hanging baskets and light trellises. Pkt., 6d.

Mediola Asparagoides

SMILAX—A very graceful climber, the foliage useful for cut flowers. Pkt., 6d.

Mina Lobata

A truly gorgeous flowering annual vine; flowers cream and red. Pkt., 6d.

Moonflower. (Sky-Blue). 6d.

Immense sky-blue flowers cover the plant from top to bottom in a very short time from planting.

Morning Glory. (Double Snow Fairy)

6d.

The flowers appear like beautiful snow-white tassels, sometimes inside and sometimes outside the cone of the old single flower.

Fripped and Fancy Morning Glory, H.A.

6d.

Fancy ruffled and fringed flowers in great profusion.

Passiflora

Varieties of passion flower, various coloured flowers. Pkt., 6d.

Snail Creeper

A free growing, hardy useful vine; covers fences with a leafy growth, and curious snail-like flowers. Pkt., 6d.

Tecoma (Wonga Vine)

Native climber, Pkt., 6d.

Thunbergia Alata

BLACK EYED SUSAN—Mixed colors, white, yellow and buff, with black centres. Pkt., 6d.

Virginia Creeper

The well-known deciduous vine which enlivens the autumn landscape with its gay coloured leaves. Pkt., 6d.

Wistaria Sinensis

This favourite creeper is easily grown from seeds; flowers lavender. Pkt., 6d.

Mixed Climbers

A generous packet, containing a good assortment of beautiful climbers. Pkt., 1/6.

Ferns and Palms

Hardy Ferns

There are a number of ferns that will be found useful for verandah and Bush house cultivation. These may be taken indoors for a day or two occasionally, but it should be the aim of the gardener who uses his ferns and palms for indoor work to have sufficient specimens to change daily. The dry atmosphere of the house will then do the plants no harm.

The price of ferns includes postage except for tree ferns, which are freight extra.

Adiantum

Gracillimum.—A fine frond hardy maiden-hair fern, 1/6.

Cuneatum.—A beautiful maiden-hair fern, 1/6.

Asplenium

Nidus.—The bird-nest fern. A most useful and hardy variety. Will grow in a hollow log or bucket. 1/6 to 10/.

Bulbiferum.—Though closely allied to the nest fern it is quite different. The young fern-lets grow from the tips of the old fronds. 1/6.

Cyrtomium Rockfordii

The Holly Fern. Beautiful dark green foliage, very hardy. 1/6.

Davallia

The haresfoot fern. A hairy climbing or clinging fern. 1/6.

Pteris

Winsetii.—The tassel fern. Hardy. The fronds split and branch at the tip. A handsome fern. 1/6.

Major.—The large pteris or Covent Garden fern. These are sold very largely in England. 1/6.

Nephrolepis

Amerpohli.—Philadelphia Lace Fern. The Nephrolepis ferns are obtainable in a wonderful variety, all obtained by selection from the original Boston Fern.

Marshalli.—Very fine fronds.

Lycopoides.—Even more graceful than the above.

Rockfordii.—Dark green, beautiful for baskets.

The Nephrolepis ferns are obtainable at from 1/6 to 5/- each, according to size.

Alsophila

Tree Fern Trunks:—These are obtainable at prices from 2/6 upwards according to size. Freight extra.

Platycerum

grande.—The Staghorn fern. Single ferns that cling to trees and rocks from 2/6 to 7/6.

Alcicorne.—The Elkhorn. These grow in clumps which in the bush get to enormous size. 2/6 to 7/6.

Useful Palms

The use of palms in the garden adds to the scenic effect. They make good bush-house and verandah plants, and for indoor decoration they are unequalled.

Kentia Palms

These are commonly known as Lord Howe Island Palms. They are used the world over for decorative purposes, and are very hardy.

Small plants from 2/- post paid. Larger plants from 2/6, freight or postage extra.

Out Door Palms

Price of Palms, postage extra

Corypha Australis

The N.S.W. Cabbage Tree Palm; they are hardy and look well in the garden. From 2/6.

Cocos Yatay

The Wine Palm. A very beautiful and hardy variety for planting in the mountain and cooler districts. The dwarf palms, with their silvery green leaves, are particularly suited to small gardens. From 2/6.

Macrozamia Spiralis

Burrawang Dwarf, with long fernlike leaves, well suited to decorative work. From 2/6.

Phoenix Canariensis

The Canary Island Date Palm. A fine palm for street and avenue planting. From 2/6.

Seaforthia elegans

The Bangalow palm. Fine for gardens in coastal or warmer locations. From 2/6.

Brahea filifera

The Railway or cotton palm. one of the hardiest in coastal districts. From 2/6.

Chamerops excelsa

Fan Palm. The hardiest and most suitable palm for gardens in the mountain districts. From 2/6 each

Hedge Plants

Please remit sufficient to cover Freight and Postage which is extra.

A neatly trimmed hedge improves a home garden very much. We can supply well-rooted plants ready to plant as follows:

Bougainvillea

SANDERIANA—Splendid flowering hedge. Plant 2ft. 22/- doz.; £8 per 100.
MAGNIFICA TRAILL—28/- doz.; £10/10/- per 100.

Coprosma

LUCIDA—Most suited for sea coast planting. 3ft. apart. 16/- doz.; £5 per 100.

Duranta

EVERGREEN HEDGE PLANT—Purplish blue flowers. Plant 2ft. apart; 16/- doz.; £5 per 100.

Eugenia

SMITHII (Lilli Pilli)—Excellent for a tall hedge; plant 3ft. 22/- doz.; £8 per 100.
LUEHMANNI—The small Lilly Pilly. Grown for the delightful colours of the young foliage, which is quite as beautiful as any flowers. The leaves are pale pink, growing purple, and later green. Plant 3ft. apart. 28/- doz.
PENDULA—22/- doz.; £8 per 100.

Hibiscus

Sorts—A grand ornamental hedge for warm climates; plant 3ft. apart. 18/- to 22/- doz.

Laurel

ENGLISH—Splendid hedge plant for cool climates. 16/- doz.; £5 per 100.

Ligustrum (Privet)

LUCIDUM—Large leaved; makes an excellent hardy hedge; disease and drought resistant; plant 12 inches apart. 17/6 per 100.
PUBESCENS—Small leaved, a good hardy hedge; plant 12 inches apart; 17/6 per 100.
AUREUM (Golden Privet)—This forms a very beautiful hedge if kept neatly trimmed. 16/- per doz.; £5 per 100.

Olive

COMMON—Plant 2ft. apart; pot-grown plants. 16/- doz.; £5 per 100.

Pittosporum

UNDULATUM—The native Daphne; planted 2ft. apart it makes a splendid hedge; 18/- per dozen.

Raphiolepis

INDICA (Indian Hawthorn)—Without exception, we consider this the finest evergreen flowering hedge obtainable. The plants are fairly fast growing, and when once established at the required height need less attention than any other hedge. Price, 18/- doz.

Tecoma

CAPENSIS—2ft. apart; orange red flowers. 16/- doz.; £5 per 100.

Purple Guava

GUAVA—A splendid hedge for garden; covered with fruit from June to October; 18/- per doz.

Viburnum

TINUS—2ft. apart. 2/- each; 18/- dozen; £7/10/- per 100.

Flower Garden Seedlings

SINCE April 1929 we have omitted the list of garden seedlings carried for so many years. The long experience we have had in sending these out has shown us that for such a nation-wide trade as ours is, it is too unsatisfactory to handle such ephemeral things as flower garden seedlings.

The seedlings are not fit to stand the journey through the post until they are well grown, and if not sent out just as that time soon become spindly and drawn. When a gardener goes into a shop and buys seedlings he knows what he is getting, and would often take a risk, but if the plant merchant takes that risk for him he naturally writes back criticising the rubbishy little seedlings or the overgrown stuff, and if the plant merchant does not fill the order there is a worse state of affairs.

These unsatisfactory orders not only cause a lot of correspondence of which the stamp is only a fraction of the cost, but often lose us customers for seeds, which we think we can supply better than any other firm.

Climbing Plants

Remit extra for Postage. 1 plant, 9d; 3 plans, 1/6; 6 plants, 2/6; any balance will be sent in seeds or refunded.

(Postage extra at prices quoted).

Pure white—fragrant, Single or Double, small clumps, 1/- each, 7/6 doz. Post paid.

Gladiolus

FORDHOOK HYBRIDS (See Illustration).

The flowers are of every colour, and every shade of colour, from white to deep chocolate—almost black, light heliotrope to deep purple, flesh pink to deepest red, creamy white to sulphur yellow, dainty salmon pink and terracotta with yellow splashes or stripes in the throat.

If the spikes are cut just as the first bloom is opening all the buds will open and the flower will keep, in water, for a week.

Seedling bulbs: Small bulbs not larger than small peas; most of these, if planted out from July to January, will produce flowering spikes from November. 1/6 per dozen, 25 for 3/-, 10/6 per 100, post paid.

Flowering bulbs: Larger bulbs, most of which have already flowered, and will form fine spikes in two or three months from planting out. 5/6 per dozen, 25 for 11/-, post paid. 30/- per 100 post extra. No special colours can be supplied, as all are grown in mixture.

WATSONIAS (Feb. to May).

Boronia.—New Hybrid. Beautiful pink shade. 1/-.

Sydney.—Mauve. 6d. each, 5/- doz.

Melbourne.—Salmon Pink. 6d. each, 5/- doz.

Adelaide.—Orange Scarlet. 6d. each, 5/- doz.

Brisbane.—Orange Salmon. 6d. each, 5/- doz.

O'Brieni Alba.—White. 3d. each, 2/6 doz.

COLLECTION OF 1 BULB OF EACH OF WATSONIAS FOR 2/6.

VALOTTA PURPUREA (Any time).

Scarborough Lily.—Rich orange scarlet. 1/6 each, 16/- doz.

BULB FIBRE.—

For growing bulbs in bowls, lb., 1/6; 3lb., 3/-; 7lb., 5/6. 6d. lb. extra postage on interstate orders.

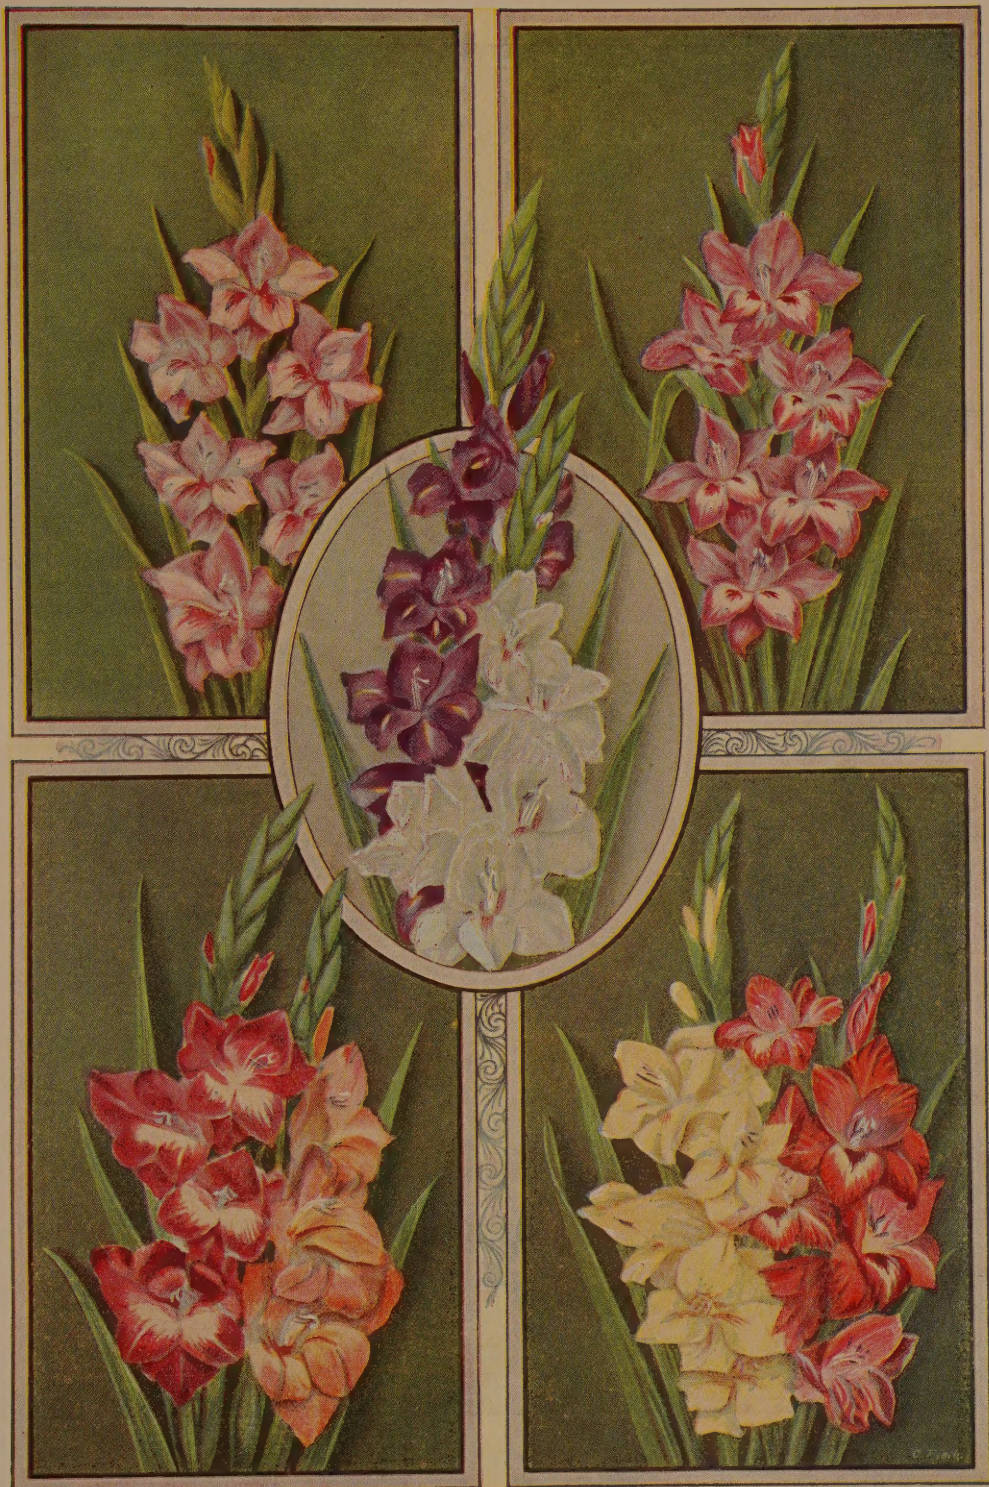

SPECIAL HOME GARDEN COLLECTION

All of the above for 10/-. Post paid.

5/- & 20/- COLLECTIONS
(Our selection) also made up.

FORDHOOK GLADIOLUS—FROM NATURE.

WARATAH—TELOPEA SPECIOSISSIMA

Three Fine Australian Shrubs

The Waratah

(*Teloepa speciosissima*)

One has only to drive round the northern suburbs of Sydney in July and August to see how well this plant adapts itself to cultivation. Each bush can be made to bear scores of the immense red flowers.

The Waratah grows naturally right up into the mountains so that it is quite hardy against frost to the extent we get it in Australia, but until it gets well up from the ground it should be sheltered in winter from cold winds. With plenty of leaf mould and an occasional saturation with water it makes a wonderfully fine flowering shrub.

We have again this season thousands of fine plants well rooted at 2/6 each, or well packed and postage paid, 4/6. 28/- per dozen, freight extra.

Special quotation for large plants

The Christmas Bush

(*Ceratopetalum gummiferum*)

Another very distinctive and unique Australian plant. In early summer it produces small insignificant white flowers, that as they die swell their sepals, which as they enlarge turn into a glorious rich reddish pink, and remain, contrasting with their most ornamental dark green leaves, a glorious sight right through the Christmas season. Like the Waratah the critical time with these plants is while the seedlings are very young, and as we have found the secret of carrying them through their babyhood and into hardy youth, you may rely on their growth with ordinary garden treatment.

PRICE: 2/- each. Post paid 3/6. Large specimen plants from 15/- upwards.

Eleocarpus Cyaneus

The common name sometimes applied to this beautiful tree is fairly descriptive—"Lily of the Valley tree"—as, in early November of each year the tree is smothered from head to foot with a solid mass of sprays of fringed flowers, very much like the Lily of the Valley. As a rule the flowers are white, but our best tree has a lilac tint in the flowers, and we are growing our plants from seed saved from it, in the hopes that the colour will be perpetuated. The tree grows to a height of 25 feet, and its beauty is enhanced by the deep Prussian blue colour of the berries and the occasional red leaves among the foliage.

Plants 2/6 each, posted 4/-.

Ornamental Trees & Shrubs

Remit Extra for Postage or Freight, 1 plant, 1/-; 3 plants, 2/-; 6 plants, 3/-; 12 plants, 5/-, any balance will be sent in seeds or refunded.

The height is given in feet when grown under average conditions. Australian trees and shrubs marked (A.).

Acacia

- BAILEYANA (A.)—20. Cootamundra. Wattle, 1/6, 16/- doz.

LARKINI—A Queensland variety of the giant
lily. The flowers are larger, more highly col-
oured and showy. Hardy everywhere. 2/6 each.

Duetzia

WEDDING BELLS—2/- each.

Duranta

PLUMIERA—Blue and white, 1/6 each.

Erithrina

CHRISTA GALLA—8. Coral Tree. 2/- each.

Escallonia

MACRANTHA—6. Pink; recommended for
hedges, quick growing. 2/- each.

Eucalyptus

BOTRYOIDES (A.)—50. Bastard Mahogany.

1/6 each.

CALOPHYLLA ROSEA (A.)—25. Beautiful

pink flowering gum. 2/- each.

CORYNOCALYX (A.)—100. Sugar gum. 1/6

FICIFOLIA (A.)—15. The magnificent scar-

let flowering gum of W.A. 2/- each.

GLOBULUS (A.)—150. Blue gum. 1/6 each.

SIDEROXYLON ROSEA (A.)—20. A Pink

Ironbark, having a graceful weeping habit. Narrow

leaves about 4 inches long, giving a very pleasing

effect. 2/- each, 22/- per dozen.

Eugenia

SMITHII (A.)—25. Lilli-pilli. 2/- each.

LUEMANII (A.)—20. A most beautiful shrub.

2/6 each.

Euonymus (4 varieties)

Variegated leaves. 1/9 to 2/- each.

Exochorda

GRANDIFLORA—6. Pearl Bush. Considered

one of the most beautiful white flowering shrubs

in cultivation. Hardy. 2/- each.

Fagus

ENGLISH BEECH—50. For cool climates only.

3/- each.

Ficus

AUSTRALIS (A.)—60. Port Jackson Fig. 2/- ea.

HILLI—50. Beautiful variety. Specially suit-

able for tall hedges or street planting. 2/- each.

MACROPHYLLA (A.)—60 Moreton Bay Fig.

2/- each.

Gardenia

(3 Varieties)—Pure white, 2/- each.

Genista

ANDREANA (Crimson and yellow)—A very

pretty flower like the yellow broom in shape. 2/-

Graptophyllum

EARLI—6. A Queensland shrub. 2/6 each

Grevillea

BANKSII FOSTERI—6. Crimson Spider Flow-

er. 2/6 each.

HILLIANA (A.)—20. White flowers. 2/- each

ROBUSTA (A.)—40 Silky Oak. 2/- each.

Grevillea Dallachiana

A dwarf shrub, bushy habit of growth and dainty

small foliage. Flowers in great profusion, rich

rosy red tipped with cream. 2/- each.

Gynerium

ARGENTEUM—10. The well known Pampas

Grass. The plumes may be cut and dried. 2/- ea.

Habrothamnus

ELEGANS—6. Showy scarlet flowering shrub,

nearly always in bloom. 2/- each.

Hakea

EUCALYPTOIDES (A.)—Red flowering shrub;

strongly recommended. 2/6 each.

Heliotrope

(4 Sorts)—Dark and light. 2/-.

Hibiscus

EVERGREEN (16 varieties)—Warm climates
only. 2/- each.

The old red-flowered Hibiscus was one of the
best shrubs used in garden work around the first
settlement of Sydney. It proved quite hardy
and very free in flowering, and is often used as
a flowering hedge.

SELKIRK HYBRIDS—These have been raised near
Sydney and are a distinct improvement on exist-
ing sorts. 2/- each.

H. Aureole, Apricot suffused Pink.

H. Gloria, Chinese Orange veined madder lake.

H. Rosy Morn, Old Rose.

The set for 7/6; postage 2/- extra

CAMDEN—A fine hardy variety; useful for

hedges in coastal districts. Red, 2/-.

SYRIACUS—A hardy deciduous species that will

succeed in the cool mountain climates. Double

or single 2/- each.

A very large collection of other varieties at 2/-

Hydrangeas

Although we recommend these, no guarantee can
be given as to colour of flower, except as to the
whites. Colour depends on soil ingredients.

IDEAL—Large and free blooming. 3/-.

LANCELOT—Large trusses of slightly fringed

flowers. 3/-.

MARECHAL FOCH—Large trusses. Very free

bloomer. 2/6.

MATADOR—Very attractive. 2/6.

NEIGE ORLEANAISE—White. 3/-.

TRIUMPH—Large trusses. 2/6.

Hymenoporum

FLAVUM (A.)—20. A fragrant tree; yellow,

2/- each.

Ilex

ILEX—English Holly. 2/- each.

GRAFTED (Berry bearing)—3/6.

VARIEGATED—Gold and silver. 3/6.

Inga

PORTORICENSIS—6. White tassel flower.

2/- each.

Jacaranda

MIMOSAEOFOLIA—30. Lavender bell-shaped

flowers. 2/- each.

Jasminum (4 sorts)

White and yellow. 2/- and 2/6 each.

Juniper

Various sorts. 2/6 each.

Lagerstroemia

CREPE MYRTLE—Pink, red, mauve. 2/6, 3/6

and 5/- each.

Lantana

CHELSEA GEM—4. Orange and red. 1/6 each,

16/- per doz.

DRAP D'OR—4. Yellow. 2/- each, 18/- per doz.

SELLOWIANA—4. Mauve. 1/6 each, 16/- doz.

SNOWFLAKE—4. Pure white. 2/- each, 18/-

per doz.

Lasiandra

Beautiful showy flowering shrubs; should be well

pruned after flowering.

EDWARDSII—A new variety raised in Victoria.

Of compact growth and has larger flowers than

macrantha. 2/- each.

MACRANTHA GRANDIFLORA—Extra large

flowers, deep purple. The best of the varieties.

2/6 each.

ROSEA—Pink. Very free flowering. 2/- each.

Laurus

NOBILIS—Sweet Bay. 2/- each.

Some Popular Roses

All the roses in this list are specially recommended by the Nurserymen's Association of N.S.W. as being most suited for general utility purposes.

EXPLANATION OF NOTES

T.—Tea Rose.	Per.—Pernetiana.
H.—Hybrid.	S.—Show.
G.—Garden.	B.—Bedding.
D.—Decorative.	Pol.—Poliantha.

1/9 each, 18/- per dozen, post extra.

POSTAGE ON ROSE PLANTS

Roses may be sent by parcels post to any part of Australia. The postage is 6d. on one plant; 1/6 on six; 2/6 on a dozen. To other States is:—One plant 8d.; six plants about 2/3; dozen, about 3/9.

Pink Roses

Alice Amos

Dwarf American Pillar, single flowers, beautiful cherry pink, white eye, large trusses.

Cecil Brunner

Miniature, delicate salmon pink, with coppery centre.

Columbia (H.T.)

Rich deep pink, very sweetly scented. Requires plenty of water to grow it well.

Dame Edith Helen (H.T.)

Rose pink, sweetly scented.

Ellen Poulson (Orl.)

Brilliant pink Orleans, large, fairly full, sweetly scented.

Ethel Somerset (H.T.)

Shrimp pink, free blooming.

Gustave Grunerwald (H.T.)

Bright china pink with apricot centre.

Jonkheer J. L. Mock

Large size; perfect formation, perfumed; color carmine, changing to imperial pink.

Konigen Carola (H.T.)

Immense double blooms, satiny rose, reverse white.

La Tosca (H.T.)

Soft pink, shaded rosy white.

Lady Ashdown (H.T.)

Rich, silvery pink, free flowering.

Madame Butterfly (H.T.)

A deeper coloured sort of Ophelia. Sweetly scented, and very beautiful.

Madame Abel Chatenay (S.G.B.D.)

Clear bright China rose. Long bud.

Madame Jules Grolez

Brilliant China rose, vigorous grower.

Madame Segond Weber (H.T.)

Rosy Salmon double blooms of very large size. Most beautiful in bud, a splendid variety.

Maman Cochet (S.G.B.D.)

Flesh rose, shaded salmon yellow; fine long bud.

Maman Turbat (Poly)

China rose, shaded pink.

Mrs. Bryce Allen (H.T.)

Rosy carmine. Sweetly scented.

Mrs. C. J. Bell (H.T.)

Shell pink, sport of Radiance.

Mrs. George Shawyer (H.T.)

Brilliant clear rose.

Oliver Mee (H.T.)

Deep salmon with heavy flush of clear fawn, changing to salmon pink. Flower large, semi-double, sweetly scented.

Radiance

Inside of petal silvery pink, outside carmine. Vigorous grower, free bloomer. Sweetly scented.

Rose Marie (H.T.)

Rose pink free blooming. One of the best garden roses grown.

Salmon Spray

Rich salmon-pink, borne in sprays, sweetly scented, lasts well.

Shot Silk (H.T.)

Bright cherry-cerise over shot with salmon orange, flushed rose.

Sunny South (H.T.)

A splendid semi-double rose. Pink flushed carmine on a yellow base.

Light Roses

Frau Karl Druschki

Finest white H.P. extant.

K. A. Victoria (H.T.) S.G.B.D.

White centre shaded cream; good show rose.

Madame Jules Bouche (H.T.)

Semi-double creamy white, tinted pink. Good garden variety.

Mrs. H. Stevens (H.T.)

Semi-double white. One of the best.

Phoebe (H.T.)

Creamy white, slightly deeper in centre, buds long, semi-double.

W. R. Smith (T.)

Creamy white, pale Maman Cochet. Robust.

White Ensign (H.T.)

Pure white, slightly flushed cream.

White Maman Cochet (S.G.)

Creamy white, sometimes tinted blush or pink.

Red Roses

Charles P. Kilham (H.T.)

Brilliant Orient red, which fades to Lincoln red.

Earl Beatty (H.T.)

Deep crimson, sweetly scented; may be styled an improved General Macarthur.

Etoile de Hollande (H.T.)

Dark red semi-double. Very sweetly scented.

General Macarthur (H.T.)

Flowers richest crimson, shaded scarlet.

Hadley (H.T.)

Dark red with beautiful scent. One of the best.

Hoosier Beauty (H.T.)

Glowing crimson. Very sweetly scented.

Ideal (Orl.)

Beautiful dark crimson, best dark poly.

K. of K. (H.T.)

Single scarlet.

Lady Helen Maglona (H.T.)

Bright crimson red with dark markings.

Laurent Carle (H.T.)

Brilliant velvety carmine, very large, perfect form.

Lord Castlereagh (H.T.)

Rich deep crimson, sheen on petals, semi-double, growth strong, sweet scent.

Lord Charlemont (H.T.)

Clear crimson. Sweetly scented.

Miss E. Cavell (Poly.)

A good crimson sport of Orleans.

Mrs. Henry Winnet (H.T.)

A beautiful double red rose, not quite so dark as Hadley. Good grower and free flowering.

Orleans Rose (Pol.)

Flowers freely produced in immense trusses, of a bright geranium red, with white centre.

Padre (H.T.)

Coppery scarlet flushed yellow at base, semi-double.

Red Radiance (H.T.)

A serise red sport from Radiance.

Rufus (Orl.)

Crimson, occasional white stripe.

Sensation (H.T.)

Scarlet crimson, very large, double, lasting.

Souvenir de Maria de Zayas (H.T.)

Deep carmine, of perfect form

Souvenir De Georges Pernet (Pern.)

Beautiful orient red, end of petals cochineal-carmine, shaded with yellow. Oval bud on erect stem, vigorous grower.

Una Wallace (H.T.)

Beautiful soft cherry-rose, free blooming and double.

Yellow Roses

Emily Gray (Wich.)

Golden yellow, double flowers.

Duchess of Wellington (H.T.)

Intense saffron yellow.

Fontanelle (H.T.)

Large, immense petals, beautifully formed flowers on long stems. Fine garden variety.

Golden Ophelia (H.T.)

Golden yellow. Not large, but very free blooming.

Irish Fireflame (H.T.)

Orange fleshed crimson. Single.

Lady Hillingdon (T.)

Deep apricot yellow, long pointed buds; very fine.

Margaret Dickson Hamill (H.T.)

Deep golden yellow.

Miss Willmott (H.T.)

Soft sulphur, cream centre, semi-double, dainty.

Mrs. Harold Brocklebank (H.T.)

Creamy white, buff centre.

Mrs. Mackellar (H.T.)

Large, semi-double, primrose-yellow flowers, high centre, strong stems.

Rev. F. Page Roberts (H.T.)

Soft buff shading to rich yellow. Very good.

Richard E. West (H.T.)

A grand addition to the yellow shades. Free blooming.

Roselandia (H.T.)

Improved sort of Golden Ophelia.

Souv. de H. A. Verschuren (H.T.)

Large, fairly full, singly on stiff stems. Cadmium yellow.

Souv. de Claudius Pernet (Per.)

A rich sunflower, yellow.

Souv. de Madame Boulet (H.T.)

Sunburst (H.T.)

Superb cadmium yellow with yellow-orange centre.

W. F. Dreer (H.T.)

Deep golden yellow shaded peach and old rose.

Coppery & other Roses

Angele Pernet

Vivid orange yellow shaded fiery red, semi-double.

Betty Uprichard (H.T.)

Pink on outside of petals, salmon pink inside.

Goldlachs (Dw. Pol.)

Fiery golden salmon of wonderful beauty.

Irish Elegance (H.T.)

Single, long buds of coppery salmon shade.

Lady Pirrie (H.T.)

Coppery salmon semi-double.

Margaret McGredy (H.T.)

Orange scarlet, flowers large and full, borne freely.

Mevrouw G. A. Van Rossem (H.T.)

Dark orange and apricot.

Mrs. A. R. Waddell (H.T.)

Reddish salmon. Free bloomer.

Mrs. Dunlop Best (H.T.)

Reddish apricot with coppery yellow base.

Climbing Roses

American Pillar

Single, rich pink, with a well defined white eye.

Blackboy (H.T.)

Deep velvety crimson, semi-double.

Climbing Cecil Brunner

Delicate salmon pink, coppery centre.

Clb. Columbia (H.T.)

A vigorous climbing pink, sweetly scented.

Clb. General Macarthur (H.T.)

Fragrant, mildew proof red climber. Sweet.

Clb. Golden Ophelia (H.T.)

A welcome addition to the yellow climbers.

Climbing J. J. L. Mock (H.T.)

Imperial Pink, satisfactory variety.

Clb. K. A. Victoria

Free blooming; generally admitted one of the best

Clb. Lady Hillingdon (H.T.)

Orange yellow.

Clb. Los Angeles

Rich flame pink with coral and gold shadings.

Clb. Madame Abel Chatenay (H.T.)

Pale salmon pink.

Clb. Madame S. Weber (H.T.)

Rosy salmon

Clb. Maman Cochet

A strong climbing form of Pink Maman.

Clb. Mrs. G. Shawyer

One of the very best pink show varieties.

Clb. Mrs. Herbert Stevens (H.T.)

Fairly full snow white.

Clb. Perle des Jardins

A climbing sport from dwarf of that name.

Climbing Radiance (H.T.)

Carmine pink, sweetly scented.

Clb. Sunburst (H.T.)

Deep yellow.

Climbing Sunstar (H.T.)

Orange and yellow, veined and splashed with crimson and vermillion.

Clb. White Maman Cochet (H.T.)

One of the best climbers.

Cloth of Gold

Pale sulphur yellow with deeper centre.

Dorothy Perkins (Wich.)

Rich soft rose.

Excelsa (Wich.)

Double, bright scarlet.

Flying Colours (Hy. Gigantea)

Large single flowers, 5 inches across, deep cerise.

Jessie Clark (Hy. Gigantea)

Extra large rich pink single flowers, disease proof foliage, very decorative.

Kitty Kininmonth (H.T.)

Bright carmine rose, semi-double.

Mermaid

Single, sulphur yellow.

Miss Marion Manifold (H.T.)

Climber, a rich, velvety scarlet, crimson shaded.

Noella Nabonnand

Deep crimson flowers. Semi-double scented.

Paul's Scarlet Climber (Wich.)

Vivid scarlet, shaded bright crimson, semi-double.

Sachsengruss (H.T.)

Delicate flesh, very large blooms.

Sanders White (Wich.)

The best white Wichuriana.

Souv de Leonia Viennot

Very strong grower; coppery shade pink.

Walter C. Clark (H.T.)

Deep maroon crimson. Growth like a pillar.

Always write "Clb." where climbing variety is required.

Standard Roses

Standard Roses are budded on tall briar stems, and are largely used for decorative effects on lawns and borders. They do not make large bushes, but are free flowering.

We can supply most of the popular varieties of roses as standards at the following prices:—

30 and 36 inch, 4/- each; 45/- per dozen
Freight Extra.

Popular Flowering Plants

Fine assortment, 4/- each. (Post Paid).

Carnations

Price, 1/3 each, 12/- per dozen. (Post Paid).

ADELINE CARTER—Beautiful shade of mauve, edged plum red.

ADMIRAL BEATTY—White edged, and pencilled purple.

APSLEY—Salmon centre, shading lighter towards edge.

AVIGNON—Yellow ground, marked red.

BEATRICE—Yellow, heavily edged and pencilled purple.

BELGIUM—Large, bright scarlet.

CHALAYER—Pink, dark red striped.

DELICIE CAPEWELL—Yellow, marked maroon.

DENET—Large, pale pink, deeply serrated.

DESERT GOLD—Best, smooth edged yellow.

FLORA HILL—White, good winter bloomer. Young, vigorous plants of this will provide suitable bloom for Mothers' Day, the second Sunday in May.

NABOB—White and maroon.

SALAMANDER—Lovely salmon pink.

SUMMIT—Very large, pale pink; erect growth. crimson.

Coleus

(August to February).

Beautifully ornamental leaved plants can be bedded out, and grown out of doors during the summer, require the protection of a bush or glass house during the winter. Plants, 1/6 each, 12/6 per dozen. (Post Paid).

Chrysanthemums

(September to November).

Named varieties, 1/6 each, 12/6 per doz. (Post Paid).

A. J. WITCHER—Indian red. The largest dark-reflexed.

ALICE BENSON—A beautiful white Japanese, coloured Chrysanthemum yet introduced.

BESSIE COOK—Pink, with silvery reverse. The largest and easiest grower we have.

BESSIE ROBINSON—Old Gold, heavily marked orange; of the form of Golden Champion.

DR. I. M. INGLIS—Purple amaranth, silvery reverse, broad petals, slightly in-curved.

EDITH CAVELL—Light chestnut, with gold reverse.

EDITH S. QUITTENDON—Pure white; a good exhibition variety.

E. L. CAHILL—Colour, vieux rose; Japanese; perfect growth and stem. A most desirable variety for exhibition, being extraordinary large, and a good keeper.

EVELYN FERGUSON—Reddish salmon bronze of a reflecting type.

GOLDEN CHAMPION—Golden yellow, with bronzy centre; very large.

H. V. WEST—Deepest yellow, broad, long petals whorled and in-curved.

LOUISA POCKETT—Large white.

MRS. D. SYME—White.

MRS. A. J. WELLER—Chestnut and gold.

PINK POCKETT—Pink, silver reverse.

SULPHUR QUEEN—Sulphur yellow.

Daisy Shasta

(*Chrysanthemum leucanthemum*). Best large flowered strain. (2/- each. (Post Paid).

Delphinium (Butterfly)

Most beautiful and gorgeous spikes of deep and light blue flowers, 3/6 per dozen. (Post Paid).

Erica (The Heath)

Large assortment, 3/- each, 30/- per dozen. (Post Paid).

Fuschia

A fine assortment of single and double, 2/- each, 17/6 per dozen. (Post Paid).

Pelargoniums

Regal, 3/- each, 30/- per dozen. (Post Paid).

Geraniums

Show and Ivy-leaved, 2/- each, 17/6 per dozen. (Post Paid).

ASCANIUS—Dark blue, single. 9d. each, 6/- per dozen. (Post Paid).

COUNT BRAZZA—White double. 9d. each, 6/- per dozen. (Post Paid).

KING OF DOUBLES—Blue double. 9d. each, 6/- per dozen. (Post Paid).

MASTODEN PANSY

Copy of letter received from Mr. Arthur J. Jones, Senr., Wellington Rd., Lindfield, 17/6/29

"The Mastoden pansy seed I got from you last season was very good, and one border of seedlings I put out were a picture and the admiration of many flower lovers who saw them. They had stems 6 and 7 inches in length, and their colourings were wonderful. Will surely place another order for same variety."

Choice Dahlias

POST PAID AT PRICES LISTED

Tubers will be supplied while they last, and are available from September. After tubers are sold out green plants will be supplied, available from the middle of November until January. All orders filled in rotation as booked.

D—DECORATIVE

H.C.—HYBRID CACTUS

C—CACTUS

1930 Speciality—5/- each; 3 for 12/6

Fordhook Bridesmaid (D)

A really beautiful flower of a lovely amaranth pink colour, shaded white with light lemon yellow centre, carried on rigid stems. Greatly admired at shows.

Novelties and Recent Introductions

3/6 each, 36/- per dozen

Jersey's Beacon (D)

An outstanding flower of enormous size carried on thick sturdy stems. The deep heavy flowers are a particularly bright Chinese scarlet with a lighter reverse.

Fordhook Marvel (D)

Giant flowers, peach red shading to strawberry pink with salmon orange sheen. Stems strong and cane-like.

Fordhook Pearl (H.C.)

Deep creamy white with base of inner petals viridine yellow. Large, graceful blooms carried on long stiff stems.

Fordhook Spray (D)

Gorgeous tyrian pink flowers with a gleam of silver shading to white towards the base.

Halvella (D)

A beautiful mellow pink with Gold sheen. Stems good.

Fordhook Arlington (D)

Blooms of large size on strong stems. Mellow old gold shaded amber and yellow.

SI-29

A new seedling worthy of a place in any garden. Large bright pink flowers shaded lemon. Vigorous grower and long wiry stems.

Other Choice Varieties

2/6 EACH, 25/- PER DOZEN

Doris May (D)

Purple maroon—large flowered—free blooming variety.

Eldorado (D)

Golden orange, large flowers.

Fordhook Crawfish (H.C.)

Very novel flower of exquisite form. Deep pink flushed white in centre.

Fordhook Erecta (D)

Beautiful shade of rosy mauve. Plants only.

Fordhook Gold Crest (D)

Bright red toned salmon pink, with gold centre petals.

Fordhook Model (D)

Enormous well shaped silvery lilac blooms.

Fordhook Radiance (D)

Peach red, suffused bronze—large, with good stems.

Fordhook Sunshine (D)

Magnificent salmon blooms shaded with fawn and lemon. Award of merit, American Dahlia Society.

Jersey's Beauty (D)

An outstanding variety of remarkable growth, producing perfect rich pink blooms on long stiff stems. One of the best.

Lady Stonehaven (D)

An exceptionally fine rich yellow variety of Australian origin.

Lolita Velasco (C)

Very erect growing—pure white waxy flowers.

Margaret Masson (D)

Fine silvery rose pink flowers.

Margaret Woodrow Wilson (D)

Creamy white shaded pink. Wonderful in size and form.

Mariposa (H.C.)

Delightful shade of pink deeper centre. Very free bloomer.

Mrs. I. de Ver Warner (D)

A great favourite and worth a place in any garden. Well shaped mauve pink flowers on long strong stems.

Sagamore (D)

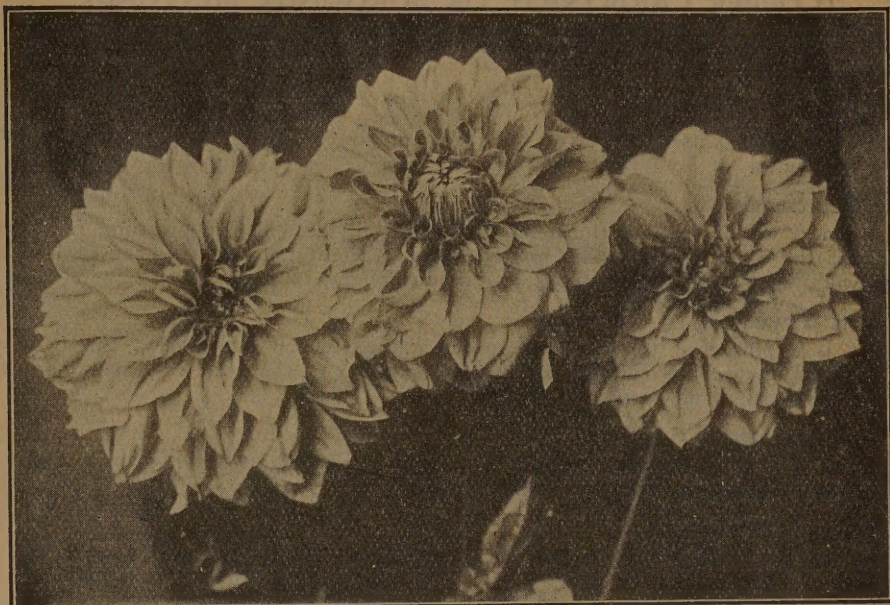

Bright amber gold with a slight touch of orange buff.

Thomas Hay (D)

Giant clear lilac. The blooms are carried on good stems.

Valhalla (D)

Best of the deep maroon varieties—will always be popular.

General List

2/- EACH, 20/- PER DOZEN

Bashful Giant (D)

Enormous drooping heads. Apricot shaded yellow.

Champagne (D)

Golden chamois, good size.

Daddy Buttler (H.C.)

Deep velvety rose carmine.

Francis Lobdell (H.C.)

Mallow pink, shading to white centre.

Garden Glow (H.C.)

Fiery orange scarlet, flowers produced on long stiff stems.

Insulinde (D)

Very choice flowers of a beautiful golden orange buff shade. Plants only.

Kitty Dunlop (D)

Deep rose colour. Stiff stems.

La Mascotte (D)

Rather novel. Petals white with reverse side violet red.

Marion Christine (D)

Small sized blooms bright salmon pink, suffused red. Specially recommended for home gardeners.

Mrs. Louisa Finger (D)

Large white blooms great for decorative work.

Mrs. E. Spencer (C)

Stiff stems free flowering. Flowers white overlaid with delicate heliotrope.

Octopus (C)

Free flowering—petals incurved orange shading to yellow.

Picotee (C)

Deep bronzy yellow—petals edged crimson.

Torchlight (C)

Yellow at centre suffused reddish bronze.

Tryphinne (D)

Bright shell pink, with lighter tips. Very sturdy.

Winsome (C)

Fine free flowering pure white cactus dahlia of good form.

Pompones

1/6 EACH, 15/- PER DOZEN

Bacchus

Bright crimson scarlet.

Blackball

Deep Maroon.

Clarissa

Pale Primrose.

Canary Bird

Yellow.

Rosa

Deep Rose.

Snowclad

Pure White.

"Blighty"

(COPPER CARBONATE OR BURGUNDY MIXTURE)

We have obtained the sole rights to manufacture this very efficient fungicide for Australia and N.Z.

For Wheat

Blighty has proved itself to be the best fungicide on the market for treating wheat for Bunt and Smut.

For Other Seeds

If gardeners would get into the habit of dusting all seeds before planting, in the same way that the wheatgrower treats his wheat with Blighty, he would hear of less losses from wilts, spots, and other results of fungous blights.

For Fruit Trees

Blighty is a powdered form of Burgundy mixture, which has proved the best spray for fungous diseases in fruit trees. It does no harm to the fruit or leaves, and is the most economical of all sprays for fungus.

For Potatoes and Tomatoes

Blighty is the most effective spray for preventing Irish Blight, fusarium wilt, black spot and all other fungous diseases of these plants.

For Other Vegetables

Blighty has been used with success on celery, beet, pumpkins, melons, squashes, and many other varieties of vegetables.

PRICES:—1lb., 1/9 (post paid 2/9); 5lbs., 8/-; 10lbs., 15/- (post or freight extra).

DESCRIPTIVE CIRCULAR—FREE

"Snuffotine"

For about 25 years we have been supplying our customers with "Snuffotine." Very little advertising has been done outside our annual seed catalogue, yet the sales have increased year by year until very few cabbage growers on a large scale attempt to get on without it.

For Aphis, Slugs, Snails, Thrip and similar insects it means death. Many other insects dislike it so much that they will not come near it to lay their eggs. For the Bush-house flower garden and nursery it is indispensable.

Protection for Nothing

The most extraordinary thing about "Snuffotine" is that its protection against insect pests costs nothing but the labour of putting it on, as its manurial value in the garden equals its cost.

"Snuffotine" which is a tobacco waste specially treated, is the richest natural fertiliser known in plant form. It contains 2 to 3 per cent of nitrogen, 3 to 5 per cent phosphoric acid, and 3 to 8 per cent potash. Much richer than low grade fertilisers, and being in rich organic matter, has a greater value than most of them.

"Snuffotine" for Tomato Wilt

We do not pretend that "Snuffotine" will cure tomato wilt, it will not, but as it has been proved that the wilt is carried from plant to plant by the thrip insect, and the thrip is kept away by "Snuffotine," there is every chance of keeping the wilt away by using it freely.

"Snuffotine" should be dusted on while the plants are wet with dew in the early morning, or 1½lb. boiled in a gallon of water may be sprayed on plants.

PRICES:—3d. per lb.; 28lb. for 4/-; 1 cwt. 12/-; half ton £5/0/0, on rail at Dundas or Sydney.

Trial packet 4lb., post paid in N.S.W. for 2/9; other States 4/-.

DESCRIPTIVE CIRCULAR POST FREE

HERBERT J. RUMSEY & SONS LTD. Dundas

Fruit Trees

Remit extra for Postage or Freight. 1 tree, 9d.; 3 trees, 1/6; 6 trees, 2/6; 12 trees, 4/-.
Any balance will be sent in seeds or returned.

Plant Deciduous trees June to August.
Citrus August and September, March and April.
For full planting instructions see A. Z. of Australian Fruitgrowing.

Special quotation for larger quantities.

Apples

1/9 each, 9/6 per half doz., 18/- per doz.

Carrington

A very early apple for coastal districts only.

Cleopatra (N.Y. Pippin)

This is a fine prolific green apple, turning yellow as it ripens. It is earlier than Granny Smith, and will be superseded by that variety.

Delicious

This comparatively new apple is fast climbing the list for popularity. We introduced this variety to Australia about 25 years ago, and when once it became known it was very largely planted. The fruit is very handsome, a good keeper, and of fine rich spicy flavour. In a few years this apple is likely to rival Jonathan for second place.

Dunn's Favourite (Munroe's)

This is a good export and market apple for the highlands, and worth the place it has gained.

Fameuse (Fanny or Snow)

This is a very handsome desert apple good for market, fine white flesh and red skin.

Granny Smith

This apple was first grown at Ryde and has gradually grown in popularity until it heads the list. It is the best cooking apple, "The Australian Dumpling Apple." The best to cook at any stage, and the best keeping apple. The fruit is green, turning yellow as it is kept, with a red cheek when quite ripe. Granny Smith is a good cropper, and makes a fine tree. No collection should be without it.

Gravenstein

This apple is known as Carpenter in many orchards. It is the earliest commercial apple in the highlands. It is a beautiful waxy looking fruit of a creamy colour with bright stripes. The crop ripens just after Christmas, and carries well.

Jonathan

Just as the Granny Smith is the best late apple for export, Jonathan is the best early export apple. It is a beautiful looking striped apple, and is also good for local sale. It fruits as well in the coastal districts as in the highlands, though it does not keep as well.

King David

This is a fine showy dark-red apple, good for local sales and fair for export. It does well in both the coastal districts and the highlands.

London Pippin (or Five Crown)

Under its popular name of Five Crown, this apple is a great favourite, but although, as a young tree, the fruit is large, it takes good feeding to get market grades on old trees.

Northern Spy

Its greatest value is its almost complete resistance to woolly aphis. Bears first crop in 9 or 10 years.

Rome Beauty

This is the most precocious of all apples, quite a crop of large fruit being obtained from three or four year old trees. It is one of the best export apples, with its dark red streaks and fine cheek.

Scarlet Nonpareil

Medium size striped red.

Statesman

Gold and stripes, good bearer.

Sturmer Pippin

An apple largely grown in Tasmania for export.

Tasma (Democrat)

This is a local apple that has come into prominence of late, as an export and market apple. It is a fine coloured fruit, and a good tree.

Yates

A good looking apple, but inclined to run small

Pears

1/9 each, 9/6 ½ doz., 18/- doz.

Buerre Bosc

A very large long pear, with a rich russetty skin, a good keeper.

Clapp's Favourite

A fine pear for early districts, ripens about 'Xmas on the coast.

Howell

Large, waxy yellow pear, heavy bearer.

Josephine de Malines

A medium-sized, late fine flavoured juicy pear.

Kieffer

A hybrid between Williams and the China pear.

Packham's Triumph

A fine locally raised pear, one of the most popular. The earliest to bear, and a fine cooking or eating pear.

Williams (Bartlett)

This with us, as with other parts of the world, is the most popular pear because it is a good canner and carries well. It is an early pear.

Winter Cole

A good medium size, greenish yellow pear, a good keeper and prolific. Late, dessert.

Winter Nelis

One of the finest flavoured medium-sized dessert pears. Late, the skin is well russetted.

Apricots

1/9 each, 9/6 ½ doz., 18/- per doz.

Camden Early

A new apricot from the Penrith district; very early, and a good cropper. Said to be a great improvement on Allen's Early.

Colorado

Very large, handsome, and of good quality, heavy bearer; a splendid new apricot from the United States.

APRICOTS—Continued.

Hemskirk

Large, good bottler, flattened both sides, deep orange, middle December.

Moorpark

Large, juicy, reddish orange, end of December.

Newcastle

Early; a Californian variety; ripening end of November; large fruit of a fine yellow colour.

Trevatt's

A new apricot from one of the irrigation areas, and highly recommended by the Department of Agriculture; fruit very large and sugary; good for drying and canning purposes.

Persimmons

2/- each, 10/6 $\frac{1}{2}$ -doz., 20/- doz.

Dia Dia Maru

Fruit of large size, square or four-sided, rather flattened; skin deep orange; flesh yellow; almost seedless; a fine variety; late.

Haycheya

Fruit very large, oblong, rather pointed; skin light red; an excellent and highly-flavoured variety.

Jubilee (Seedless)

A very fine variety; raised in New South Wales; large, square shaped; picked when ripening, and stored late.

Tenanashi

A large heart-shaped seedless persimmon, early; very good.

Yemon

Large, flat, clear yellow, fresh orange; no seeds.

Plums and Prunes

1/9 each, 9/6 $\frac{1}{2}$ -doz., 18/- per doz.

Cherry

The earliest of all.

Coe's Golden Drop

Yellow slipstone, best in cool districts.

Damson

Heavy cropper, fine for jam and sauce.

Diamond

Very large oval plum, slipstone, good cropper; midseason.

Evan's Early

Very early, enormous cropper, oval, purple.

Excelsior

A more prolific strain of Angelina Burdett. Large dark purple free stone.

Giant

Enormous yellow plum, good cropper; midseason.

Grand Duke

Very large blackish purple plum, fine flavour, late.

Greengage

Splendid dessert, yellowish green.

Lutherborrow (Jam Plum)

Very large, prolific almost black (C.).

Plums and Prunes (Contd.)

Pond's Seedling

The Hungarian Prune. Large red slipstone, good cropper in some localities; midseason.

President

The fruit is large, oblong-shaped, over two inches long, beautiful purple colour, pretty bloom, and covered with white minute dots, flesh firm and sweet, and fruit perfect freestone.

Prune de Agen

The popular preserving variety.

Robe de Sergeant

Very similar to d'Agen in shape and colour, but larger and ripens ten days earlier.

Japanese Plums

1/9 each, 9/6 $\frac{1}{2}$ -doz., 18/- per doz.

Beauty

It is the largest of the early plums, ripening early in December. Fruit beautiful oval, crimson, with amber-crimson flesh.

Blood (Long)

A very large preserving plum. Early, heart shaped.

Burbank

Fruit large, round, skin yellow, fine flavour.

Early Jewel

A good black purple fruit, ripens in December.

Kelsey

Large heart-shaped purple plum, heavy bearer, good carrier, suits cool districts.

Paterson Late

The latest of all plums.

Santa Rosa

One of the best ever produced by Burbank. Deep purplish crimson coloured flesh, averaging six inches in circumference; clear golden skin shaded purple.

Satsuma

Rich, dark, red coloured flesh, medium size.

Shiro

Early. Fruit medium to large, clear light yellow, flesh firm and juicy.

Wickson

One of the best of this race; good flavour.

Wright's Early

The earliest Japanese Plum extant; fruit identical with Wickson

Peaches

1/9 each, 9/6 $\frac{1}{2}$ -doz., 18/- per doz.

Aunt Becky

Raised in Ryde, said to be an improved Royal George slipstone.

Blackburn

Yellow flesh, ripening before Elberta; highly recommended at Yanco as a first-class canning peach; splendid colour.

Brigg's Red May

Earliest market peach.

Peaches (continued)

Carman

A large early free stone peach of good colour and quality

Devlin's Red

A very fine early red.

Early Crawford

Large yellow, a beauty, freestone, good canning.

Edward VII.

Good market variety, medium size, ripens early in November.

Elberta

Queen of Peaches, fine for cooking or dessert, freestone.

Flat China

Fruit flat, freestone.

Golden Queen

A promising late canning peach, a good cropper; Fruit yellow to stone, cling.

Hale's Early

Large, bluish red, good flavour, early. Requires good cultivation.

High's Early Canada

This peach may be described as an improved Briggs' Red May; it is better than Briggs' in many respects, and comes in in the cool districts in time for the Christmas market..

J. H. Hale

Larger than Elberta; round, uniform shape; rich yellow, overlaid carmine; flesh texture of the cling, yet freestone, fine-grained; delicious flavour; grand shipper; first-class canner; ripens a week earlier than Elberta; Good bearer.

La France

A deep carmine juicy peach, ripe for Christmas,

Mayflower

A new very early peach, ripening three weeks before "Briggs," fruit medium to large, very attractive colouring, a good packing peach, cling.

Mountain Rose

A large early peach of good colour.

Phillips Cling

Large late yellow fleshed canning peach; 120.

Pullar's Cling

Highly coloured, magnificent, very large, heavy bearer and hangs late; one of the best canning, end of January.

Ray

This peach has had a chance to prove itself in Australia and has earned its place on the list. It is a white fleshed peach, with a beautiful Red cheek, the colour extending right into the flesh. Ray ripens much earlier than Elberta, and has proved to be a fine market peach.

Red Bird Cling

A new early clingstone, ripe before Christmas, highly coloured.

Rowe's Champion Freestone

A distinct mid-season variety by its good constitution and productiveness; large and handsome, with a brilliant crimson skin, highly flavoured.

Royal George

Old favourite freestone.

Ruby Red

A splendid peach, coming in for Christmas market; bright red colour; good shipper.

Shanghai

Very large rich clingstone, third week in January.

Watt's Early Champion

Local production of great merit, raised by Mr. C. Watts, of Dundas. It is red freestone, ripening in favourable seasons before end of October. It is the first peach of the season in the Sydney market, and commands top prices. The tree is a strong grower and very prolific.

Tuscan Cling

The earliest yellow clingstone, good for canning. Ripe middle of January.

Wiggins

A large, fine quality slipstone yellow fleshed, regular cropper, late.

Nectarines

1/9 each, 9/6 1/2 doz., 18/- per doz.

Albert Victor

Large midseason slip, bright crimson, good flavour.

Early Rivers

Large bright red slipstone very early good.

Elruge

Large, roundish, rich, juicy, freestone, early in January.

Fertile du Poitou

Enormous fruit for a nectarine, attaining about 8 inches round; skin smooth, yellow ground, marbled with purple red, and entirely red on the sunny side; flesh white, very fine, juicy, sugary, aromatic, free-stone.

Goldmine

A New Zealand seedling, and said to be the largest nectarine grown.

Lady Carrington

Large, very showy, clingstone, early in January.

Lee's Seedling

Large slipstone, streaked red; midseason.

New Boy

Large juicy slipstone, brilliant crimson; midseason.

Precoce de Concel's

An early large fruited French Nectarine. Skin yellowish, with dark plum colouring.

Cherries

ON MAZZARD STOCKS
2/- each; 20/- per doz.

Biggareau Napoleon

Large heart-shaped amber, juicy.

Early Lyons

Very large and solid, ripening early.

Florence

Large pale amber, bright red cheeks, late.

Ramen Oliver

Dark glossy red; flesh firm and sweet, very large, measuring up to 1½ in diameter; called the up-right Lyons by some growers.

St. Margaret

The finest of all cherries, late, black purple flesh, very large.

Berries

Currant

Black, white and red. 1/- each.

Gooseberry

A dozen varieties. 1/- each.

Logan Berry

This has the appearance of a cross between Blackberry and Raspberry, but for Australia it is better than either. It has the raspberry flavour with the colour of the blackberry, makes a delicious preserve, and is fine for pies.
1/- each; 9/- per dozen.

Raspberry

Several varieties. 6d. each, 5/- per doz.

Other Fruit Trees

Bananas

Several sorts, 2/1 to 2/6 each.

Chinese Raisin

Flavour like raisin. 2/- each.

Custard Apple

Delicious large fine flavour. 2/6 each.

Figs

Black Genoa, Blue Province, Brown Turkey and others. 1/9 each.

Guava

Yellow and purple. 2/- each.

Loquat

Herd's Seedling, very large. 2/- each

Mulberries

English, Cape, and others. 2/6 to 3/6 each.

Pomegranate

Flourishing in Sydney and northwards. 1/6 each.

Quinces

Large Portugal, Missouri Mammoth Pear. 1/9 each.

Tree Tomato

A valuable fruit; keeps well, evergreen. 2/-; postage 6d.

Grape Vines

Grape vines may not be sent out of the county of Cumberland. We have arranged for a few varieties to be grown at a country nursery for despatch direct to our clients, but the numbers available this season are very limited.
Price:—1/6 each, 12/- doz. (Post Paid).

Home Garden Collections

These varieties have been specially selected for their suitability to average soils and to home gardens.

2.—CHERRIES, Early Lyons & St. Margaret.

1.—APRICOT, Moorpark.

1.—NECTARINE, Goldmine.

2.—PEACHES, Elberta & Briggs Red May.

1.—QUINCE, Large Portugal.

1.—FIG, Blue Province.

1.—MULBERRY, Black English.

1.—PLUM, President.

15 trees, 25/- Post and Packing free in N.S.W. To other States add 2/6 extra.

Citrus Fruits

Freight or Postage Extra. For Rates see Page 61.

BUD SELECT STOCK

Realizing that organised improvement in varieties by selection of propagating wood, would be better than the individual efforts of a few nurserymen. The N.S.W. Nurserymen's Association last season formed, together with representatives of the growers and the Department of Agriculture, a committee of experts to carry out this work, and Late Valencia orange was the variety with which a start was made. We now have pleasure in quoting our customers this improved line as follows:—

Late Valencia

Worked with selected buds, 3/6 each, 36/- doz., freight or postage extra.

Oranges

2/3 each; 24/- per doz.

Joppa

A large oblong fruit with thin skin, a thornless tree and good bearer.

Late Valencia

Large oblong fruit, rich fruit of best quality.

Mediterranean Sweet

Remarkable for its early bearing and excellent flavour; very prolific.

Parramatta

Grown in this district for eighty years, most productive.

Siletta

Large, round, hardy, enormous cropper, juicy.

St. Michael

Large, smooth thin skin, juicy, profitable.

Washington Navel

Finest orange grown seedless.

Lemons

2/6 each; 24/- per doz.

Common

Hardy, persistent bearer.

Lisbon

The favourite market variety.

Sweet Rind

A variety well liked for its quality, fruit, skin, and growing to a good, even size.

Grape Fruit

IMPROVED POMELO

2/6 each; 27/6 per doz.

Marsh Seedless

Medium size, thin rind. 2/6. Used largely as a breakfast delicacy, but makes delicious preserves.

Triumph

A fine variety, preferred to Marsh Seedless by many.

Mandarins

2/3 each; 24/- per doz.

Beauty of Glen Retreat

An enormous cropper, of large size and delicious flavour; recommended for warm localities.

Canton, or Scarlet

Very large, flat, deep red colour.

Ellendale Beauty

Huge size, with thin skin, pale in colour.

Emperor

Largest tree, spreading, market variety.

Fewtrell's Early

Flavour more like an orange; thin skinned and very heavy cropper.

Jacob's Special

Fruit firm, sweet, and juicy; ripens very early.

Oonishu

Hardy, stands frost, suits mountain districts.

Thorny

Best flavoured, flat, medium sized.

PRESERVING AND OTHER VARIETIES

2/6 each; 27/6 per doz.

Seville

This is considered much the best variety for preserves; the fruit is large, rather flat and solid, and makes excellent marmalade.

Shaddocks

Used principally for preserving; the fruit is large size and rich in juice.

SHELL LIME

For years we have been recommending the use of this form of lime. Lime is necessary for maximum crops and a dressing of up to 1 ton per acre should be given at least one year in every three.

Tomatoes and similar crops specially benefit.

Shell lime is finely powdered and easily applied.

Can also be used mixed with equal part of "Snuffotine" for control of cabbage moth and other pests.

4lb. trial packet for 2/9, post paid in N.S.W. 4/- to other States.

28lb. 4/-. Cwt. 12/6 $\frac{1}{2}$ -ton £6. Ton £11/15/0.
On Rail Freight Extra.

Almonds

1/9 each, 18/- per dozen.

Burbank—Medium size, good bearer; bearing a late bloomer it usually escapes damage by late frosts.

Early Jordan—An upright growing variety, growing thin shelled nuts.

Eureka—Similar to Jordan.

Nonpareil—Thin shell, weeping habit.

Chestnuts

The Chestnut is a nut that does well and produces good crops in the mountains and southern districts. Price, 2/6 each.

Japanese—This is a quick growing tree that fruits in about three years after planting out.

Spanish—A more slow growing variety than the Japanese.

Korean—Medium sized tree, shell breaks easily; a good grower.

Barless Mammoth—Large, bears well, a strong grower.

Filbert or Hazel

These are tall bushes that produce the small cob nuts of commerce. Seedling trees, 2/- each.

Pecan Nuts

Trees are well established and giving fine crops of nuts on the Clarence and Richmond, as well as in Queensland. At Dundas trees bear good crops annually, and on the mountains the trees are doing well. The best situations for Pecan nut trees are on deep loamy soils where plenty of moisture is available or can be applied. The tree is very ornamental and is useful for places where too much shade is not desirable in winter.

The nuts of the Pecan are of great commercial value; though the shells are hardly as large as a walnut, they are so thin and well filled that there is much more meat in them.

On account of the difficulty of budding, only a limited number of trees of named sorts are available. Seedlings usually produce very heavy crops of smaller nuts.

Price of trees, named sorts, Success and Frotcher, 10/6 each. Small seedlings, 2/6 each. Two-year-old seedlings, 3/6 each. Freight or postage extra.

Seedling Walnuts

Prices of walnuts, 2/3 each; 24/- per dozen. Freight or postage extra.

Japanese Walnut (*Juglans Sieboldi*)

Large, hard-shell nuts of good flavour.

English Walnut (*Juglans regia*)

Large common walnuts, well-known.

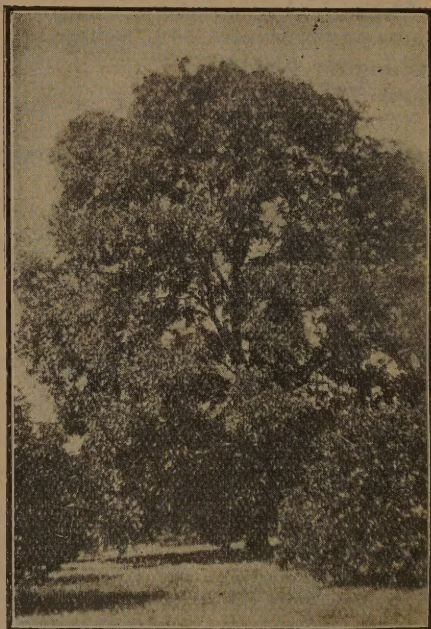

Californian Black Walnut (*Juglans Californica*)

Large hard-shelled. A good timber tree.

Collection of Nuts

We will send a collection of 12 assorted nut trees to suit any climate, post paid, for the sum of 27/6 in N.S.W., and 2/6 extra to other States.

Lovers of nuts should not fail to get Mr. Herbert J. Rumsey's book, "Australian Nuts and Nut-growing in Australia," which may be obtained from us or from booksellers through Australia for 2/-, or post paid for 2/1.

PECAN NUT AT GRAFTON

Australian Nuts

Macadamia Ternifolia

An Australian Nut bearing tree that has been proved to produce one of the World's best food nuts. In Honolulu the value of this tree is so highly estimated that all lands used exclusively for growing it, has been freed from taxation for five years. Apart from its value as a Nut bearing tree, the Macadamia is one of our finest ornamental plants, growing in suitable positions to a height of 25 feet and with a fine bushy head. On the coast to the north of Sydney the growth is quick, and Nuts are produced in four to six years. In the cooler parts the trees require protection while young, and come into bearing in about seven years.

Seedling trees 2/- each, post paid in N.S.W. 3/6, add 1/- extra to other States.

Macadamia Integrifolia

During our travels of investigation, in reference to the Australian Nut, we have discovered a variety or rather a species which has smooth edged leaves, and a different habit of growth to the common species, in native habitat, producing two distinct crops of nuts each year, in June and December, with occasional nuts between.

Seedling Trees of Integrifolia, 3/6 each, posted anywhere, 5/-.

Special quotations for large lots, and for large plants.

Garden Handbooks

WRITTEN BY HERBERT J. RUMSEY

The popularity of these helps to the gardener is daily increasing; many letters are received testifying to the assistance given by the books.

The New A.B.C. of Vegetable Growing

FREELY ILLUSTRATED

PRICE: TWO SHILLINGS

Posted 2/1.

42nd Thousand

Entirely re-written

This book has been of the greatest assistance to thousands of vegetable growers since its first publication in 1908. The matter was kept in type and revised for each edition until the 1927 edition, for which it has been entirely re-written, and much improved; between 6 and 7 copies of this book have been sold every working day for 20 years.

The Australian Book of Berries

The standard work on all small fruit culture, including:

STRAWBERRY, LOGANBERRY, RASPBERRY, GOOSEBERRY, CURRANT, &c.
6th Thousand. Revised and Enlarged. Price: ONE SHILLING. Posted, 1/1

The Pommies, or New Chums in Australia

The circulation of this book should in itself do a great deal towards removing the sting that unthinking persons have placed in the word "Pommy." The word has been in use for over fifty years, and only recently has there been any objection to its use. Australia has been populated and built up by the pioneering spirit of the Pommies—ourselves, our fathers, or our grandfathers. The story is interesting, and just the thing to send home. Price 2/6—posted 2/7.

The "A to Z" of Australian Fruit Growing

Over 250 Pages.

Many Full Page Illustrations

The aim of the author has been to make this book as helpful to the fruitgrowers as the vegetable book has been to the gardener. It deals with the culture of every variety of fruit suited to Australian conditions from "A to Z," including not only cultivation, but packing, drying, preserving, and bottling. The schedule of insect pests will be found very helpful. PRICE: TWO SHILLINGS; Posted 2/1.

The Garden Fair in Australia

This is a useful addition to the Garden Handbooks. It will be found to appeal to every flower and garden lover, dealing as it does with every aspect of the home surroundings. Beautifully illustrated. Even the tennis court is not omitted. PRICE: 2/-; Posted, 2/1.

The Australian Tomato Book

The most complete work published in Australia on this most important crop, it will be found helpful to both amateur and professional and even as a cookery book will be worth its small cost. Second edition revised and enlarged, with chapter on tomato growing under glass. 2/-, posted 2/1.

The Australian Nut, and Nut Growing in Australia

This book opens up a new subject altogether, and treats at length on matters that have been too long overlooked. PRICE: 2/-; Posted 2/1.

We will send any of the books at the prices named or when two or more are ordered at the same time they will be sent at the published prices without the extra charges for postage.

FROM ALL BOOKSELLERS AND THE PUBLISHERS.

HERBERT J. RUMSEY & SONS LTD., ADDERTON RD., DUNDAS, N.S.W.

Strawberries

APRIL TO SEPTEMBER

We would advise our clients in all cases to choose two or more varieties of strawberry for planting, for the sake of pollination. Some sorts are naturally self-fertile, while most sorts set their fruit better when another variety is grown near them.

Six best berries for home garden and market:—Illawarra, Rhodes Special,

Fendalcino, Ettersburg 89, Euresko, King Edward.

2/- doz., 3/9 for 25, 8/- per 100, post paid in N.S.W.

2/6 doz., 4/6 for 25, 10/- per 100, post paid to other States.

Special Prices for Thousand Lots by Rail or Steamer

Our packing is so designed that we send plants safely to Africa and the Pacific Islands, or with long postal delays to any part of Australia.

COLLECTIONS—

12 each of 6 varieties for 7/6.

6 each of 12 varieties for 8/6.

(Posted in N.S.W. 1/- extra to other States)

Captain Cook—(New)

The only new variety in our trials last season that is worthy of attention. A vigorous grower bearing medium sized dark red berries in shape somewhat resembling Fendalcino. Stock limited. 4/- doz.; 25 for 7/6. (Post Paid).

Rhodes Special

This is a strawberry for a special purpose; it is so hardy that in the milder parts along the coast it puts on marketable crops right through the winter, and in the cooler parts is the first to bear in spring. It is very prolific, but should not be relied upon for late fruiting, as the berries are tender in hot weather.

Fendalcino

This is becoming the most popular for market purposes of all the new varieties. Its beautiful form, large size and above all splendid flavour make it also a good home garden berry. It is not, however, self fertile, and must be grown with another variety in at least every third row. Under this method it is very prolific.

Euresko

Like Fendalcino, for which acts as a good polliniser. This is one of Etters hybrids from California. It is one of the everbearing type, and of unique appearance. The fruit is deep red and the seeds a golden yellow, making a fine contrast. A strong grower and very productive.

In addition to the above we grow small numbers of Klondyke, General Birdwood, Cresswell's Seedling, Dr. Moreere, Malakoff, Marguerite, Melba and Phenomenal.

We have tried Wilson's Pride and Wandin's Special and find them very similar to Rhodes Special, but not its equal.

Ettersburg, 89

This is quite distinct from the so called tree strawberry which did not prove suitable for Australian conditions. 89 is the most prolific of all strawberries, and therefore must be grown on well enriched soil. It is the best of all berries for jam and preserves.

Illawarra

A locally raised berry bearing very prolific crops of large red berries. The plants are sturdy and stand hot weather well. If plants are put out late a good autumn crop may be secured.

King Edward VII.

Bears extra large, very fine long berries; continues its cropping for a longer period than most sorts. The colour of the fruit is a deep vermillion, and it is a very fine variety for home or market.

White Chilean or Hautboy

Suitable for cool climates. Stock limited.

As we are growing so many varieties of strawberry, it is not possible within the limits of a catalogue to describe them all. We would advise all our customers who care to know more about the different varieties of strawberry and their cultivation to obtain "The Australian Book of Berries," by Herbert J. Rumsey, which may be obtained post free for 1/1.

Seventy

Mulching Paper

Pabco Thermo-gen

We suffer more in Australia, as a general rule, from a high percentage of evaporation, than from a shortage of rainfall, and anything that will help to conserve moisture is worth full consideration.

The latest garden aid is the "Pabco" Thermo-gen mulching paper: it is a bitumen treated paper which, placed on top of the ground between the plants, keeps the moisture just where it is wanted, and prevents weed growth.

Being black, Thermo-gen absorbs the sun's rays, and in early spring warms the soil up more quickly and induces earlier growth, without danger of injury from frost. Its use has made it possible to grow crops of sweet potatoes, for instance, in places where otherwise the season was too short.

Thermo-gen Paper Mulch has certainly "come to stay" with the vegetable grower and gardener. The wonderful results achieved by the pineapple grower may not be realised with all the varied crops of the vegetable garden, and only experiment at home will prove its full value. We have already seen it used with success in Australia for sweet potatoes, white potatoes, tomatoes, strawberries and young fruit trees.

CROPS IN GENERAL

Vineyardists, fruit growers and market gardeners in general are always anxious to lead the "early market," because pre-season produce, naturally, brings much higher prices to the grower.

The adaptability of Pabco Thermo-gen to a great variety of crops is now an accomplished fact. Earlier maturity and high quality together with increased yields are obtained through its use in cultivation of all kinds of berries, vegetables, nursery stock, grapes, etc.

In a recent survey, pineapples grown under Pabco Thermo-gen treatment had an average weight of 4 lbs. 8.24 ozs. Pineapples grown without Pabco Thermo-gen in the same soil adjacent to the treated plants had an average weight of only 3 lbs. 8.66 ozs. In addition to an increase of more than 3½ tons of fruit per acre per crop, the report estimates that weeding and cultivating costs have been reduced at least 60 per cent.

WHAT PABCO THERMO-GEN DOES FOR TOMATOES

An average yield of 324.68 bushels of tomatoes per acre was obtained from the plots treated with Thermo-gen; while on untreated plots of the same field an average yield of only 214.77 bushels was taken.

The treated plants matured and the tomatoes ripened on an average of nine days earlier than did the untreated.

Pabco Thermo-gen Mulch increases the soil temperature and obtains a proper balance of moisture in the soil.

UP TO 691 p.c. INCREASED YIELD

Here are the results from trials with and without Pabco Thermo-gen Mulch at the U.S.A. Government's experimental farms at Arlington, Virginia.

The percentages show the increased yield of the mulched areas:—

Per Cent		Per Cent	
White Potatoes	73	Green Beans	153
Cotton	91	Beets	409
Sweet Potatoes	122	Carrots	507
Celery	123	Cucumbers	512
Peppers	146	Sweet Corn	691
Eggplant	150		

REDUCED PRICES

PABCO THERMO-GEN comes in rolls 300 feet long by 3 feet wide, costing 20/- each. One roll will, therefore, mulch a three hundred feet row. Five rolls, costing £5, enable you to make a test over fifteen hundred lineal feet. Thinner grades are supplied in rolls at 18/9 and 15/- 100 yard roll.

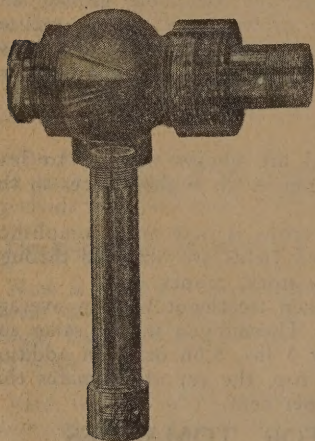

Make this test in your next planting and you will become a regular user of Pabco Thermo-gen mulch.

We can send on request a circular giving very much fuller particulars of this new garden help than we have room for here.

Skinner System of Irrigation

"RUMSEY'S RAIN"

With the use of this fitting for turning the pipe over and the Skinner silver spray nozzles fitted at intervals of three feet ordinary water pipe is turned into a sprinkling system that is equal to natural rainfall in effect, and better in that it may be turned on when required.

UNION TEE

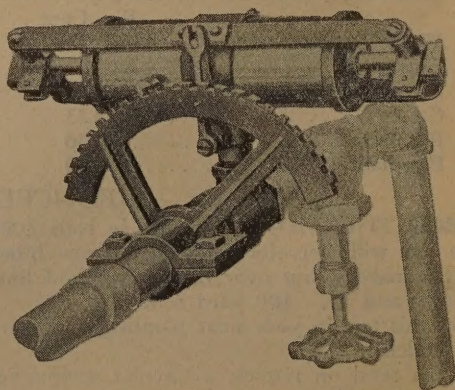

The water from a city supply, from an elevated tank or pumped from creek or river is distributed by the Skinner System over a strip fifty feet wide, and to the full length required up to 500 feet.

For a short line of 120 feet $\frac{3}{4}$ in. galvanised pipe is sufficient, for longer lines layer pipes must be used for the increased supply required.

This is an essential fitting for all garden lines. Besides having a packed watertight turning joint it contains a strainer scientifically constructed in the form of a cone. The area of the holes in the strainer more than equals the size of the outlet, preventing loss of pressure. Also the particles of rubbish hit the outside of the cone and fall down into the handle which can be flushed out occasionally. Without this strainer there is always the danger of the small spray nozzles becoming stopped resulting in unwatered patches. For prices see page 73.

SINGLE LINE OSCILLATOR PISTON TYPE C.

There have been a number of automatic turning devices made in connection with the Skinner System, hydraulic and turbine, each an improvement on the last, and the latest of the piston type is not only the least expensive, but the most effective and sturdiest. There is nothing about it to get out of order, and it will turn the line back and forth all day or all night at any speed required and without attention. It is compact, and can be fixed with suitable couplings to change from one line to another quickly and effectively. The lines not in use with the oscillator having the ordinary hand-turning device for use on one side or in one position at a time.

Price from - - £9/10/-

SKINNER SYSTEM READY TO FIX

Although nearly 5,000 gardeners have already fixed the Skinner System, or had it fixed for them, there are perhaps twice the number who have delayed ordering on account of anticipated difficulties in fixing. For these we have worked out our ready to fix plan.

The ready-to-fix Skinner pipes are made up in lengths of 15 feet screwed, drilled, and fitted with O.D. nozzles every 3 feet. Complete with turning union, cap and tongs for fixing. Lines up to 120 feet are $\frac{3}{4}$ in. pipes. Longer lengths up to 200 feet have 105 feet of $\frac{3}{4}$ in. pipe, and the balance 1in. Above 200 feet any additional lengths $1\frac{1}{4}$ in.

50 ft. lines	£4/10/6	additional lengths 10d. ft.
100 ft. „	£6/10/0	„ „ 10d. ft.
150 ft. „	£8/10/0	„ „ 1/- ft.
200 ft. „	£10/10/0	„ „ 1/2 ft.
210 ft. ($\frac{1}{4}$ acre)	£11/0/0	„ „ 1/2 ft.
250 ft. „	£13/10/0	„ „ 1/2 ft.

Though the Skinner system is more effective when connected in permanent positions ready to turn on when required, it may be made portable with Automatic couplings.

CORRESPONDENCE SOLICITED

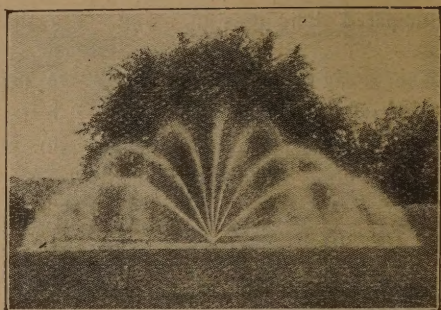

Let us know your watering problems. We can help you to a solution.

Nearly four thousand satisfied users of Skinner Irrigation in Australia are ready to testify to its great value to the gardener.

Portable Sprinklers

Skinner System

The "Peacock" type of Lawn Sprinkler is suitable for Large Lawns, Tennis Courts and Golf Links, as well as for public parks. Each section waters a strip 15 feet long and 60 feet wide. Two or three sections may be connected by a flexible joint to water an irregular shaped lawn. The "Peacock" section is 12½ feet long, mounted on a pair of wheels at one end, so that it may be wheeled from one stand-pipe to another. The nozzles are our O.D. Silver Stream in sets of seven. There is nothing to wear out about it. It is attached to the ordinary garden hose. Prices from £4.

"Peacock"

PEACOCK SPECIAL FOR TENNIS COURTS

The Peacock Special as made up for tennis courts has solved this difficult watering problem. The Peacock Special is about 18 feet in length and of 1 inch pipe. It requires at least 1¼ inch service from the main or water supply to provide sufficient water. Price, £5/-.

LAWN MIST

The Skinner Lawn Mist is a Skinner Sprinkler with Greenhouse nozzles fixed in sets of three in a pipe fifteen feet long, watering a lawn 16 to 18 feet square at the one operation. Price £3/15/-.

BORDER SPRINKLER

The Border Sprinkler has a single row of nozzles in a pipe 15 feet long, mounted like the Peacock and Lawn Mist on a pair of wheels and a stand. The pipe will turn over so that a flower border on either side of a footpath may be watered without moving the pipe. The Border Sprinkler works with less pressure than any of the other types of Skinner Sprinklers and is suitable for use with windmill, tanks, or other low pressure supplies. Price, £2/15/-.

The border sprinkler may be wheeled from one standpipe to another and the whole garden watered with a few moves.

Border Junior.—7ft. 6in. on stands without wheels may be sent by passenger train, shipping weight lbs. Price, £1/12/6.

All portable sprinklers are fitted with our special swivel joint to fit ordinary hose connections or any other connection necessary may be made.

PORTABLE LINES

The cost of Skinner installations is so small that whenever possible it is best to make permanent installations over the whole garden, only requiring a tap to be turned when the water is required. There are, however, circumstances where for financial reasons it is not possible to complete the installation right away. In those cases we advise at least one permanent line, and a second line, fitted with our quick acting couplings at all joints, or at least alternate joints to move about the rest of the garden.

WATERING A TENNIS COURT WITH SKINNER SYSTEM

These may be so arranged as to water a garden or shrubbery outside the netting of the court, No. 3 O.D. Nozzles are used, and require at least one inch main to supply sufficient water for the court.

Portable Sprinklers for Special Purposes

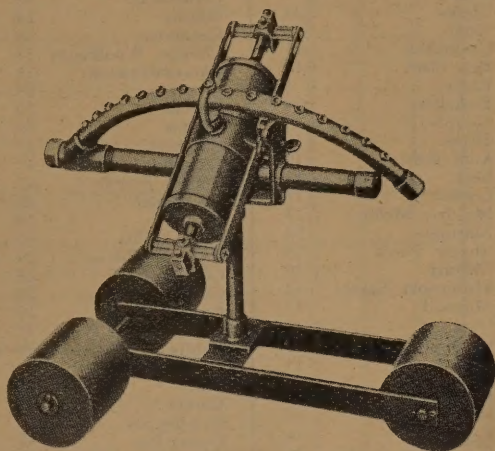

Though for commercial work, large lawns and gardens, the Skinner System is by far the most economical, there are sometimes places where a small spray may be used with satisfaction.

We have in stock a very fine assortment of tested sprinklers suitable for Tennis Courts, Golf Links, round garden beds and small gardens, and should be pleased to give demonstrations at any time.

The smaller sprinklers may be sent by post and exchanged if on examination they prove unsuitable.

RAIN WAVE SPRAY

The single line oscillator has been effectively applied to a portable spray for use on bowling greens, tennis courts and golf links and is already in great demand. It may be attached with special couplings to underground stand-pipes and removed when not in use, or moved from one position to another. With the rain wave the water is distributed evenly over a space of from 50 to 60 feet in width by the same length, from 2,500 to 3,600 square feet being watered at one setting. The sprinkler is light and may be easily carried about, while its broad wheel base prevents it damaging the turf.

Price - - - £12/10/-

On Rail Dundas

Other Sprays

Roto Rain

A large area sprinkler covering 80 ft. circle, very suitable for bowling greens and tennis courts. £5/0/0. Postage (in two portions) 4/3.

Mor-Rain

A sturdy rotary sprinkler with a spread of 50 feet or less. £1/5/0. Postage 1/-.

Saucer Sprinkler

This is one of the most satisfactory of the cheap sprinklers. It sends the water in a circle of 30 to 40 feet in diameter. Price, 7/6, post paid anywhere.

Lawn Life or Dome

A strong durable spray similar to the saucer but heavier, and more serviceable. Price 7/6. Postage, 9d.

Tu-Way

Two sprinklers in one for small lawns and odd corners. 7/6. Postage, 9d.

Misto

A cheap rotary or half circle spray, very effective. 12/6. Postage, 9d.

Hose

Good $\frac{3}{4}$ hose costs 1/- per foot and 2/- extra for connections. This is usually sent by rail where possible, by post it would cost 1/6 per 10 feet extra, and only 30 feet could be sent in one parcel. Thirty feet is the best length of hose to use in the garden. Freight to other States extra.

10% EARLY ORDER DISCOUNT

The majority of our customers order the bulk of their seeds for Spring sowing during July, August, and September and as a result our Staff is taxed to the utmost to get orders away by return mail.

To reduce this congestion we offer 2/- IN THE £ DISCOUNT ON ALL ORDERS FOR 5/- OR OVER RECEIVED BEFORE JULY 1st, 1930, for Vegetable and Flower seeds in packet, oz., $\frac{1}{4}$ -lb., or lb. lots. Discount does not apply to bulk lots of vegetable seeds, farm seeds, plants or garden sundries.

**SEED & PLANT MERCHANTS
IRRIGATION EXPERTS**

TELOPEA, ADDERTON ROAD

From _____

DUNDAS, N.S.W.

Seeds by Mail

Ours is essentially a mail order business. We have for upwards of 30 years been supplying seeds, plants and bulbs direct to customers all over Australia and the Pacific Islands.

Terms of Business:—

The terms on which our prices are based are cash with order. For the convenience of customers we also use the Post Office "Cash on delivery" system, which is a little more costly than postal notes, but includes registration. Plants are not sent "Cash on delivery."

For cash we accept Australian postal notes, money orders, and Commonwealth bank notes in registered letters. For larger amounts cheques or bank drafts should be used. Money orders and Postal notes should be made payable at Dundas. Please add 6d. to country and 1/- to interstate cheques for collection charges made by the banks.

Substituting

Sometimes owing to crop failures or shortage of stock we sell out of some varieties early in the season. In such cases we substitute the nearest variety, and send to save disappointment, but in no case do we expect you to keep the substituted article if you do not wish to do so. If you put "do not substitute" we omit the variety, and return the balance. If you return the substituted seed we give you credit for the amount.

Registration

The safety of parcels can be assured by the payment of a small registration fee of three pence for amounts up to £2, four pence to £5, six pence to £10, which should be added to amount of remittance, and specially noted on order.

Promptness:—

As our first principle is promptness, it is advisable to inform us if your order does not come to hand or is not acknowledged within a reasonable time.

Situation

Our seed and plant warehouse and demonstration grounds are on Adderton Road, Dundas, right at Telopea Railway Station, on the Carlingford branch line. The office and seed store are open daily from 8 a.m. to 5 p.m., and on Saturdays 8 to 12. One of our irrigation experts is in attendance in the garden on Saturday afternoons for demonstration purposes only. No business transacted on Sunday.

No Agents

We have no agents for seeds or plants in any part of Australia, but in some districts we have fixing agents for the Skinner System.

We supply seeds, vegetable seedlings and roots, fruit trees, roses, ornamental trees and shrubs as catalogued, but have ceased to send out seedlings of annuals and perennial bedding flowers.

HERBERT J. RUMSEY & SONS, LTD.

(Opp. Telopea Station, Dundas, N.S.W.)

SKINNER SYSTEM *of* IRRIGATION

If you have not already installed this system it is worth investigating. If you have any water to distribute the SKINNER SYSTEM will prove the cheapest and most effective way of utilising it.
